VISION

To become the Leading Digital First-Content and Commerce Company

MISSION

To Enrich Lives by Informing, Entertaining, and Engaging Across All Media

About This Report

Media Prima has a long history of creating content and beloved brand names that Malaysians identify and grew up with.

We are home to Malaysia's oldest newspaper, most watched television stations and local news programmes, largest out-of-home advertising network, multiple radio stations and popular brands across print, television and digital platforms. We own one of the most popular home shopping networks in the country. On the community front, our public-funded humanitarian fund, launched in 1991, continues to assist Malaysians and communities abroad in need of support.

As the nation's largest and leading integrated media group we owe it to our stakeholders to be transparent and accountable in every step of our business, especially in the communication of our operations, strategies, and the measures we have undertaken to create value for all.

At the end of each financial year, we produce the Media Prima Annual Report and Sustainability Report which elaborate on our overall business strategy, our targets, and how we achieved them. Our Group Chairman's Statement provides an overview of our performance for the year while our Group Managing Director's Statement discusses the overall progress of our strategic growth plans as well as moving forward the direction of the future.

This report is dedicated to all of our stakeholders, especially to our team — you are the beating heart of Media Prima. It is your dedication and passion that continues to contribute to our success. Terima kasih!

Our Reporting Suites

Our reports provide a comprehensive review of our financial position and performance.

Media Prima owns and operates four free-to-air television stations. They include TV3, Malaysia's premier station by audience share; TV9, the lifestyle channel best known and hugely popular for its home-shopping programme, WOWSHOP; ntv7, the popular station for Malaysian urbanites; and 8TV, the leading channel for the Chinese audience.

In 2016, the Group ventured into commerce with WOWSHOP, an innovative home shopping network that is accessible across television, online and mobile platforms, bringing Malaysians a uniquely visual, interactive and immersive experience. WOWSHOP provides high quality products and services aimed at enriching people's lives. As "The Foremost Customer-oriented Content Commerce Platform in Malaysia", WOWSHOP enables people to shop at their own comfort, whether it is at home or anytime, anywhere.

Media Prima owns more than 98% equity interest in The New Straits Times Press (Malaysia) Berhad ("NSTP"), which owns three of Malaysia's most recognised print and online news brands — New Straits Times, BH ("Berita Harian") and Harian Metro, as well as their respective weekend editions. In 2020, Print Towers Sdn Bhd, formed out of NSTP's Production and Distribution unit, began to operate as a profitable standalone commercial entity.

Organisation Structure

Message from Our Group Chairman

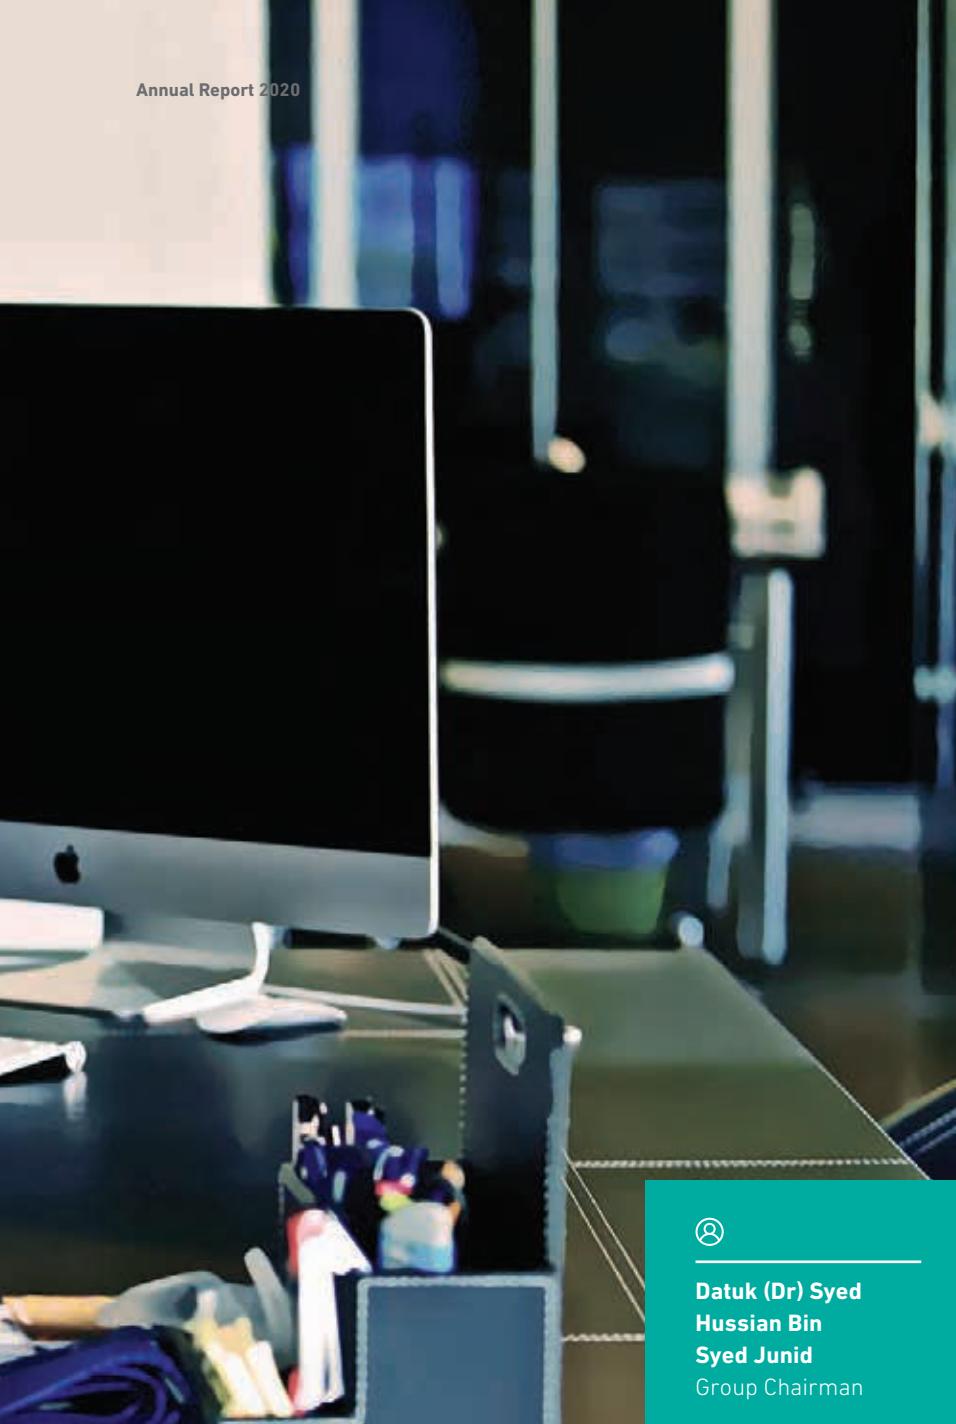

Dear Shareholders,

On behalf of the Board of Directors (the "Board"), it gives me great pleasure to present Media Prima Berhad's ("Media Prima" or the "Group") Annual Report 2020 and audited consolidated financial statements for the financial year ended 31 December 2020 ("FY20").

believe very few people could have ever imagined events of the last 12 months happening in our lifetime. The world has faced serious health crises before, from the outbreak of SARS to Ebola, and mankind took it in stride and worked together to overcome the adversities.

When news about the deadly virus affecting thousands spread to the rest of the world, most countries realised quickly that this was no ordinary crisis but many were helpless to prevent its spread.

As any other media company would, we took on the responsibility to keep people well informed of the pandemic. Significant broadcast time, print and digital space were utilised to spread awareness on the dos and don'ts during a global pandemic. Similarly, we also utilised our media platforms to encourage the public's appreciation for our frontliners, the men and women who worked tirelessly around the clock to keep us safe.

**Datuk (Dr) Syed
Hussian Bin
Syed Junid**
Group Chairman

When the government implemented a series of nationwide lockdowns to curb and flatten the pandemic's curve, we knew it was also our role to keep Malaysians occupied through entertainment and factual award-winning content on our media platforms. Working well within the safety standard operating procedures ("SOPs"), operations continued as it normally would. We recognised too the importance of helping the stakeholders in our ecosystem, many of whom are struggling from the economic impacts of this pandemic and the necessary restrictions imposed. We take great pride in the fact that we are able to play our part bringing awareness to the hardship faced by people to the forefront. It is also incumbent upon us to ensure that the voices of the business communities are

heard to ensure their immediate concerns receive the attention it deserves in key government policies, which ultimately affects the livelihood of Malaysians.

ECONOMIC CHALLENGES

Covid-19 has brought forth disruptive effects on all facets of society from shaking up the rules by which the global economy had previously functioned, to modifying our social interactions and foregoing face-to-face for engaging through the digital space. Consequently, countries have been struggling to keep pace with the economic disruptions wreaked by the pandemic. The International Monetary Fund ("IMF") estimates that the global economy shrunk by an estimated 4.4%

in 2020. In line with negative global growth projections, Bank Negara estimates the Malaysian economy contracted between 3.5% to 5.5% in 2020.

Even with the relaxation of the movement control order ("MCO"), consumers remain cautious due to the uncertainty surrounding the pandemic. According to Malaysian Institute of Economic Research's ("MIER") Consumer Sentiments Survey Report for the 3QFY20, Malaysia's Consumer Sentiments Index ("CSI") grew marginally at 91.5 points for 3QFY20 from 90.1 points in 2QFY20, below the 100-point optimism threshold level. On the flipside, according to MIER's Business Conditions Survey Report, the Business Conditions Index recovered 25.2 points at 86.3 points in 3QFY20 compared to the sharp drop by 22.0 points in 2QFY20.

The lockdown measures caused sharp downturns as consumer and business activity declined. For instance, Nielsen Malaysia found that traditional advertising expenditure ("adex") posted a drop of 9% in the first quarter of 2020.

THE EXPONENTIAL RISE OF THE DIGITAL AND E-COMMERCE

More people working from home has meant more people are now connected to the web. According to Google, Temasek and Bain, e-Economy SEA 2020, this year alone added 40 million new internet users to a total of around 400 million users in Southeast Asia, about 70% of the region's total population.

We Malaysians are spending more time online too. The average hours spent online for Malaysian internet users increased from 3.7 hours before lockdown to 4.7 hours during lockdown, and 4.2 hours post-lockdown. The report also found that 36% of Malaysian digital consumers are new to the service, having joined as a result of the pandemic. These figures are encouraging for Media Prima as we have successfully established a foothold in providing online services prior to the pandemic through online content and e-commerce.

Message from Our Group Chairman

Data from the e-Economy SEA 2020 report showed that Malaysia's internet economy grew by 6% to US\$11.4 billion (RM45.8 billion) gross merchandise value ("GMV") in 2020, from US\$10.7 billion (RM43.0 billion) in 2019. This figure is projected to grow to 21%, or US\$30 billion (RM120.6 billion), by 2025.

The report also found that e-Commerce in Malaysia saw a strong 87% year-on-year growth in 2020 from US\$3 billion in 2019 to US\$6 billion GMV (RM24 billion), and is projected to grow to US\$13 billion GMV (RM52.2 billion) by 2025. Similar to the regional average, e-Commerce takes up the largest share of Malaysia's internet economy.

Over-the-top ("OTT") streaming services subscriptions and viewership are on the rise. The e-Economy SEA 2020 report found that 39% of subscription video on demand users in Malaysia have joined in due to Covid-19. Data from an end-of-March 2020 study by the Malaysian Digital Association ("MDA") found that Media Prima's OTT streaming service, tonton, saw a massive jump of 232% in sequential traffic in the third week of March.

We understand that the pandemic has greatly increased our dependency on digital services. Moreover, Deloitte predicts the post-Covid-19 world as a digital one. Businesses post-pandemic will need to be able to effectively blend data, technology, and organisation to thrive in the new normal. Media Prima must focus on developing a comprehensive strategy on digitalisation to remain competitive during and after the pandemic.

DELIVERING GROWTH

We aim to strengthen our position as Malaysia's leading digital publisher. More digital services now permeate the lives of many Malaysians confined to a life primarily at home and more than ever, there is an increasing demand for a constant stream of high-quality news and entertainment content and commerce.

We rebranded our digital arm as REV Media Group ("REV Media") which covers over 40 top authority brands such as SAYS, NST Online, and BH online. The network also has a monthly reach of over 15 million users or around 75% of Malaysia's population. REV Media is well-poised to further cement its position as Malaysia's leading digital publisher, recording RM10.8 million in FY20 profit.

We have always recognised the huge growth potential of e-Commerce. Now that its growth is in full swing, we moved quickly to fully acquire the remaining stake in our home shopping which we rebranded into WOWSHOP. The segment boasts over 2.3 million customers, together with e-Commerce and mobile commerce platforms which contributed over 53% of its total sales in the nine months of 2020. WOWSHOP has also shown strong support for local brands such as Mugen, Riino, Elba, and more, which account for up to 70% of the products sold on the platform.

► **We aim to strengthen our position as Malaysia's leading digital publisher.**

Despite the challenges faced by the industry, our business transformation plan has helped soften the blow. We have revised our revenue models, streamlined businesses operations and functions, and reduced workplace inefficiencies. The rebranded WOWSHOP, backed by the Media Prima's mass reach and digital capabilities, saw stronger performance during the MCO posting a profit of RM10.2 million, supporting our decision to fully acquire the segment.

SUPPORTING OUR COMMUNITY

In light of the struggles faced by our country's healthcare system, we launched the Bantuan Kemanusiaan Covid-19 donations and fundraising campaign in March 2020. The fund, conducted via the Media Prima-NSTP Humanitarian Fund ("MPNHF"), raised RM1.9 million and helped the Government purchase the much needed medical equipment for public hospitals around Malaysia.

To support the government's efforts to combat fake news, we have used our platforms and wide reach to deliver timely, relevant, and accurate news to our audience. Data from Reuters Institute Digital News Report 2020 found that Media Prima's TV3 news programmes posted the highest weekly reach in the Television, Radio, and Print category in Malaysia. Moreover, our news

brands the New Straits Times, ntv7, and TV3 News were among the top 10 most trusted brands in Malaysia. a reputation we want to maintain and continually improve.

PROMOTING GOOD GOVERNANCE

Our Group remains strongly committed to Environmental, Social, and Governance ("ESG") practices. Media Prima received a 4-star grading or in the top 25% by ESG Ratings amongst publicly-listed companies in FTSE Bursa Malaysia EMAS (FBM EMAS) that have been assessed by FTSE Russell.

Testament to our commitment to transparent reporting, Media Prima received a Gold Award for its Annual Report at the Australasian Reporting Awards ("ARA") for our 2018 Annual Report titled "Innovating our Digital Future", indicative of our Group's strict adherence to transparent, accurate and accountable reporting standards.

MOVING FORWARD

The commercialisation of Covid-19 vaccines will provide some room for optimism in 2021. Even with large-scale vaccination

on the horizon, going forward, we expect the negative effects of pandemic to affect performance in 2021, particularly in our hard-hit industry.

Our Group expects our commerce and digital platforms to continue showing growth. After a weak showing this year, we believe ad spending will likely bounce back once vaccinations begin to roll out and restrictions are gradually lifted, provided there are no further disruptions in the foreseeable future. According to research house Magna Global, global advertising spending for 2021 is projected to recover by 7.6% or US\$612 billion (RM2.46 trillion) with the Asia-Pacific region expected to rebound by 11%.

TRIBUTE AND THANKS

I would like to extend my sincerest gratitude to all our Board members for their unfaltering support and wisdom they bring to the team, even in this grueling year.

On behalf of the Board and Management of Media Prima, I would like to extend my gratitude to Dato' Iskandar Mizal Mahmood as our Group Managing Director who has

been driving our transformation exercise since 2020. I would also like to welcome Rafiq Razali as Group Executive Director, Abdullah Abu Samah and Dato' Sivananthan Shanmugam to the Board of Directors, and Dato' Khairul Anwar Salleh as the Chief Executive Officer of Media Prima Television Networks and Primeworks Studios. The Board also wishes to thank Mohamad Abdullah and Hisham Zainal Mokhtar, who stepped down from their roles on 18 February 2021 and 1 April 2021 respectively.

Thank you to the senior management team of Media Prima. I wish to show my recognition to our industrious and passionate employees – thank you for your dedication during these tumultuous times.

To all Government ministries, agencies, and regulatory bodies that Media Prima have closely cooperated with throughout the year, I am grateful for your endless cooperation. Thank you to all our shareholders, clients, and business partners for your continued support.

Message from Our Group Managing Director

Undoubtedly, the year 2020 tested all of us in a way that would have been unimaginable. It is no secret that we started 2020 in a rather precarious financial position. Of course we had a solid turnaround plan. However, we never had expected for the events that came crashing in upon us in Q1 2020 — Covid-19. I can honestly admit that we had no model for it at that time. We relentlessly ran numerous scenario planning models. All models concluded one clear result — uncertainty.

Just like everyone, we transitioned from a lifestyle we have known all our lives to a new normal, alien to all of us. We kept forging ahead notwithstanding. Living through this new normal has been humbling. And in humility we uncovered the little treasures in ourselves and in life. This new normal reminded us of many things we took for granted. One that came across brightly and quickly, and our navigating beacon was the importance of working together to get through uncertainty. Together, we had to quickly adapt to survive. We learnt to improvise and collaborate, truly realizing that cooperation is the key to not only survive but to excel. This was when we realised that the beacon had turned to become our compass — the compass we may have taken for granted for many years.

Once we found our true bearing, as a team, we became more confident. I often talk about the true integrated nature of our Group to clients and stakeholders. This was reiterated over and over again internally as well. It is an indisputable fact that only the Media Prima

group has the full armament of platforms that can reach the entire population of Malaysia, from the moment they wake up in the morning to the moment before they go to sleep at night. We then became more confident to truly believe we are the best at developing and producing content be it news, updates, as well as entertainment that are relevant to all Malaysians.

We set ourselves abound on a realistic and implementable transformation exercise. We revisited how we do things, not only to adapt to the new normal, but to transform Media Prima into the company that Malaysians deserve. Although we are still on our transformation journey, I believe we have emerged stronger.

Our strategy was broken down into a very simple plan that we all can relate to — focus on defending revenue (where there are clear opportunities to increase revenue capacity) and improving our workflow efficiency. This not only cushioned the negative impact on our businesses but also better positioned us to battle the disruptive changes in the media industry.

We consolidated all advertising functions for the Broadcasting, Publishing, Content Creation and Digital Media business segments under a new company — Media Prima Omnia ("Omnia"). Via Omnia, we adopted a more aggressive and holistic approach to deliver out-of-the-box integrated media solutions

**Dato' Iskandar Mizal
Bin Mahmood**
Group Managing
Director

for advertisers. This definitely is a fresh way of doing things, leveraging our combined strengths as Malaysia's largest and leading media company.

We also set out to solidify our market position in the digital space by consolidating all of the Group's digital assets under REV Media Group. REV Media reaches 15 million Malaysians a month and represents more than 40 top authority brands such as SAYS, OHBULANI!, Viralcham, and regional brands Mashable SEA and IGN SEA. Its News Network caters to over 11 million Malaysians a month with My Metro, BH Online and NST Online at the forefront in delivering trusted news to readers. REV Media recorded a profit after tax ("PAT") of RM10.8

million in FY20 from RM1.7 million a year ago. Full year revenue for this segment increased by 21% to RM90.1 million from RM74.4 million in FY19.

Although our home shopping segment had not been profitable since inception in 2016, we saw good potential in it. With a renewed 'fight a good fight' spirit, we decided to fully acquire this segment and rebranded it as WOWSHOP. WOWSHOP contributed 30% to the Group's FY20 revenue, an increase from a 21% revenue contribution in the previous year. It posted a FY20 net profit of RM10.2 million on the back of a 33% increase in revenue against the previous year. In 2020, WOWSHOP recorded 750,000 new customers which led

to 2.3 million total registered customers. Its e-commerce and mobile commerce platforms have grown to over 54% of its total sales in FY20.

Together, our four stations reached 36% of Malaysia's television audience in 2020. We maintained our dominant position in Malaysia through TV3 and 8TV. TV3 stayed as the undisputed number one television station in the country, commanding an audience share of 24.2%. 8TV reaffirmed itself as the number one Chinese station in Malaysia with 38.5% of the mass Chinese audience.

Message from Our Group Managing Director

Our teams have also proudly demonstrated how well we have adapted to the new normal. We successfully went virtual with two of our most popular events — Karnival Jom Heboh di Rumah and Anugerah Bintang Popular BH ("ABPBH") — all in the spirit of keeping Malaysians entertained while staying safe at home.

The 33rd edition of ABPBH, hosted without a live audience, garnered a 43% television audience share, and over 700,000 views on YouTube compared to 104,000 views for the previous edition. Similarly, we organised our popular on-ground nationwide event, Karnival Jom Heboh di Rumah, with no crowds and produced with strict adherence to safety protocols. The two-day event was sponsored by McDonald's McDelivery and aired on TV3, TV9 and online platforms. It featured games, shopping sessions with great deals, fashion and cooking segments while also entertaining viewers with performances by popular local celebrities.

As the nation's largest content provider, we have inked collaborations with streaming providers Viu, iQiyi and WeTV to meet the demand for quality content. This further expands our content into more international markets. We have previously entered into collaborations with popular international platforms such as iflix, Netflix, and Amazon Prime.

Primeworks Studios and WAU Animation teamed up again with Ejen Ali MISI: JUANG released in December 2020. The short film, dedicated to frontliners and their heroic efforts to combat Covid-19, garnered over a million views in less than 24 hours after its launch.

Despite the movement control order ("MCO"), we successfully ran advertiser content productions such as the Lazada 11.11 Super Show, the Group's third collaboration with the popular e-commerce business and one of the largest branded content initiatives in the country. We also collaborated with Telekom Malaysia to produce a special talk show, HeroKu, in conjunction with Labour Day 2020. This programme was dedicated to frontliners to show our heartfelt gratitude and appreciation for their sacrifices.

Nonetheless, the pandemic's effects on an already fragile media industry — particularly on advertising revenue — demanded us

to rethink the way we work. We focused to be leaner and more agile to navigate the challenges of the coming decade. We conducted a group-wide manpower rationalisation exercise in two phases.

In our efforts to defend The New Straits Times Press' business, we carved out its Production and Distribution units to operate as a standalone printer called Print Towers Sdn Bhd ("PTSB"), optimising all available capacity within the Group. We have more than six clients now — The Malaysian Reserve, Utusan Malaysia, Kosmo!, Selangor Kini, Selangor Journal, and Buletin Mutiara — in addition to our in-house titles.

To stay at the forefront of everyone's minds in the new normal, Big Tree adopted a direct marketing strategy and also introduced a series of investment options for advertisers. This resulted in soaring media occupancy, and enlisted clients new to not only Big Tree but the OOH platform.

Overall, we ended 2020 on a positive note. Our 4QFY20 results marked our second consecutive profitable quarter while full year losses were significantly reduced. Group FY20 revenue declined by 6% to RM1.04 billion against RM1.11 billion in the corresponding year. Losses were significantly reduced by 90% to RM18.1 million in FY20 from a loss of RM185.5 million in FY19, due to lower operating expenses achieved through our cost optimisation initiatives.

We believe these initiatives have best positioned ourselves for future growth, to deliver better services to our clients and the best content to our audiences.

You can read more about our FY2020 performance in our **Platform Review** from **pages 18 to 43**.

GIVING BACK

In 2020, we became a constituent company of the FTSE4Good Index Series, a benchmark for tradable indexes for ESG (Environment, Social and Governance) investors. This endorsement reflects our commitment to responsible businesses practices, good corporate governance, and care for the environment.

We believe our business is at its best when it serves as a force for good, especially in these unprecedented times. Our multiple platforms and mass reach enables us to empower Malaysians to change the world for the better.

The Media Prima-NSTP Humanitarian Fund has served several community causes since 1991, which is a mission that thrives because of the generosity of citizens who share our humanitarian vision. In 2020, RM5.0 million was collected in donations to the Media Prima-NSTP Humanitarian Fund, from which RM3.4 million was disbursed as of 31 December 2020.

Through this fund, we launched a fundraising campaign to assist the Government and hospitals in treating Covid-19 patients. Thanks to the generosity of our donors, we were able to raise RM1.9 million from which RM1.8 million were channeled to over 20 hospitals around Malaysia.

As Malaysians embraced the new normal, we designed programmes to keep the 'feel good' going such as TV3's daily Live Dari Rumah in March 2020 featuring our local artistes. We also participated in YouTube's Superstream to stream TV3 dramas and comedies during Merdeka and Malaysia Day week, as part of YouTube's campaign to get people to celebrate the new normal by staying safe and entertained at home. We hope to do more collaborations like these to deliver more great entertainment. Afterall, our goal at Media Prima has always been to provide the best viewing experience and deliver content that matters the most to our audience.

Not forgetting to do its part for the nation during the pandemic, WOWSHOP embarked on collaborations with the Ministry of Domestic

Trade and Consumer Affairs, to support local vendors and the economy. Over 1,500 local vendors were brought onboard to its online platforms through the DESAMALL initiative and in support of the BUY MALAYSIAN PRODUCTS campaign by the Government.

Similarly, RIPPLE's four radio stations organised the #SupportLokal campaign to support local businesses by promoting their products. A total of 264 entries were received for the campaign with 91 businesses promoted on-air and via the station's social media platforms. RIPPLE also heightened its public service awareness activities during the pandemic, raising awareness on environmental conservation, safety, health, crime and fake news to its 5.3 million weekly listeners.

To educate the public on Malaysian wildlife, our out-of-home business Big Tree launched the 'Illustrasi Haiwan Malaysia' campaign which displayed vibrant and colour images of animals unique to our nation on its billboards around the Petronas Twin Towers. The campaign also allowed public viewers to scan a QR code to learn more about the animals and understand the importance of environmental conservation.

We are committed to play our part in the national response to this pandemic and will continue helping many Malaysians overcome their difficulties through these difficult times.

We will continue to strive to always work toward being a responsible corporate citizen. You can find out more about how all our businesses played their role as a responsible corporate citizen in our Platform Review section.

LOOKING AHEAD

To my fellow colleagues, you are the heart of Media Prima. I want to express my deepest gratitude to our team who have stayed the course despite unprecedented challenges. You have fought on with true grit, courage, strength and resilience. Together, we can make Media Prima better than ever.

To our clients and all of our stakeholders, thank you for your support. On behalf of Media Prima, thank you from the bottom of our heart for your trust and confidence in us.

Our journey is far from over and we cannot be complacent. We are seeing an increasingly dynamic environment and we should always be evolving, growing with the times and therefore, continuously reinventing ourselves.

Media Prima Omnia

Media Prima Omnia (“Omnia”) offers integrated marketing solutions and a complete suite of creative services across Media Prima’s entire range of media assets — specialising in brand campaigns, creative content, and activations that are derived from our understanding of Malaysian audiences.

[Omnia's 2020 Management Retreat at Langkawi, Kedah.](#)

Omnia delivers its 360-degree solutions for clients to reach out to 98% of households in Malaysia, against an audience of 24 million across all ages and walks of life.

Launched in the midst of the global Covid-19 pandemic on April 1st, 2020, Omnia embarked on a journey that leveraged our profound understanding of Malaysians, allowing our clients to interact better with consumers, driving sales and brand awareness.

The “**Omnia Solution**”, as we’ve termed it, means one team, one brief, one integrated solution with wide reach, specially tailored for clients with their intended target audience in mind, going beyond audiences as mere data points.

2020 also saw Omnia successfully delivering several significant solutions to clients such as Mydin, Lazada, Nestlé, and projects such as CNY Fiesta 2020, Heroku with Telekom Malaysia, Jom Heboh di Rumah in collaboration with McDonald’s Malaysia, Lagu Cinta Kita with Nivea and Samsung, and Laporan Khas Teknologi Huawei Smartlife.

DELIVERING CAMPAIGN SOLUTIONS

One of the key projects which clearly demonstrated Omnia’s ability to deliver integrated solutions was the multi-platform collaboration with Nestlé Malaysia for “Peraduan Nestlé Gaji Seumur Hidup” (Nestlé ‘Salary for Life’ contest) – the company’s biggest nationwide contest so far – which offered cash prizes worth over RM4 million and the

opportunity to receive a "salary for life" with just a RM15 purchase of the company's products in a single receipt.

This *solution* helped Nestlé connect with millions of Malaysians and brought relief to the lives of its winners as well as 17 charities.

Throughout the 15 weeks of the campaign, Media Prima's integrated media platforms reached an estimated combined 12.45 million consumers, which garnered over a million entries.

According to Nielsen Audience Measurement, the Grand Finale of the contest which was aired on TV3 reached out to over 1.9 million audiences, making it the number one show across all TV channels in terms of viewership and reach. Of the audience, 73% were from household incomes of RM2,000 and above, with 28% of the audience comprising housewives.

In the midst of the Covid-19 pandemic, Omnia also successfully delivered one of the most anticipated shopping events of the year: the return of the star-studded live telecast of e-commerce company Lazada's "11.11 Super Show".

This exclusive collaboration with TV3, the third since inception, outperformed the previous editions with over 5.5 million viewers.

REACHING CONSUMERS WITH BRANDED CONTENT

The second season of Lagu Cinta Kita ("LCK2") – Media Prima's homegrown reality TV show – was launched as Malaysians embraced the new normal and included singing as well as relationship advice, and discussions on the pandemic.

Sponsored by Nivea and Samsung, LCK2 reached an audience of more than 4 million, with a peak viewership of over 2.2 million. According to survey results, 45% of the viewers were aged between 20-49 years old, with students and working executives making up about 41% of the overall audience.

Huawei continued its partnership with Omnia to amplify the launch of the Huawei Smart Life via a "Laporan Khas Teknologi Huawei Smart Life" which garnered up to 3.1 million viewers.

Telekom Malaysia also tapped Omnia via a special collaboration called "HeroKu" – a four-episode talk show about the efforts and sacrifices of Malaysian frontliners and their families during the Covid-19 pandemic. HeroKu reached 2.7 million viewers, 40% which came from affluent households.

SIGNATURE EVENTS

The CNY Fiesta 2020 in January 2020 created a one-stop shopping and leisure opportunity for consumers to engage with the participating brands in conjunction with the Chinese New Year celebrations for a wide range of products under one roof.

Over 100,000 people visited the seven pavilions at the Bukit Jalil National Stadium which housed 205 indoor booths, 52 outdoor booths and 38 food stalls.

Awareness and exposure for this campaign exceeded expectations in social media, registering a reach of almost 1.5 million users with 1.9 impressions and over 300,000 engagements.

ADAPTING TO THE NEW NORMAL

Karnival Jom Heboh, one of Malaysia's most anticipated on-ground events, continued in 2020 despite the Covid-19 pandemic. Malaysians were still able to enjoy it "live", albeit virtually, in collaboration with McDonald's Malaysia, where we showcased the best products with the best entertainment experience.

Jom Heboh di Rumah became one of the largest online events in 2020 with record breaking participation that reached more than 710,000 audiences at its peak, with 46% of the live event viewers coming from affluent households.

Omnia also pioneered a product sampling opportunity for Ribena in 2020, riding on the 29th anniversary of Harian Metro to facilitate consumer engagement while increasing circulation. Over 100,000 bottles of Ribena were given away with every purchase of the popular tabloid.

Media Prima Television Networks

It was a challenging year for us at Media Prima Television Networks ("MPTN") — to curb the spread of Covid-19, we were forced to quickly adapt to the new normal which affected our productions. We persisted through our creative and innovative spirit, despite the movement control order and operating procedures. We continued to entertain and enlighten Malaysians with the best shows and the most credible news throughout 2020.

► **We continued to entertain and enlighten Malaysians with the best shows and the most credible news throughout 2020.**

Our channels — TV3, ntv7, 8TV and TV9 — remained among the top choices for news and information, commanding a total of 35% of Malaysia's broadcast audience in 2020, led by TV3 which commands over 24% of audiences. Our programmes such as Malaysia Hari Ini ("MHI"), Wanita Hari Ini ("WHI"), Borak Kopitiam, Living Delight, especially Buletin Utama and 8TV Mandarin News delivered the latest updates on the impact of the pandemic on the nation through the "live telecast" of the press conferences from the National Security Council and the Ministry of Health. MPTN also provided Public

Service Announcements, crawlers, and infographics to keep the viewers updated.

During the 14-day Movement Control Order 1.0 (MCO 1.0), Buletin Utama garnered 3.44 million viewers and a 53% rise in viewership. 8TV's Midday Mandarin News and ntv7's Mandarin 7 also broke their earlier viewership records with 617,000 viewers and 564,000 viewers respectively. Beginning 8 June 2020, 8TV Mandarin News was extended to a one-hour programme, from 8pm to 9pm. It achieved a daily rating of over one million views during MCO 1.0 and reached 1.2 million views on 6 May 2020.

HOME TO BLOCKBUSTERS AND TOP-RATED DRAMAS

Our drama slots Akasia, Samarinda and Lestary attracted huge audiences, especially with *7 Hari Mencintaiku 2*, which touched the hearts of the 12 million viewers who watched the 33 episodes of the family drama series.

Gerak Khas was a game-changer for the industry, moving to a new home after a 21-year run on a different channel. The "last lap" of the *Gerak Khas The Finale*, which began airing on 4 December 2020, is now aired on TV3. Our other popular shows of 2020 include *Pink Smile*, *Bukan Gadis Biasa*, and the comedy series *Kampung People 2*, following the success of its first season.

During the 14-day Movement Control Order 1.0, *Buletin Utama* garnered

8TV's *Midday Mandarin News* and ntv7's *Mandarin 7* also broke their earlier viewership records with

617,000 viewers and
564,000 viewers
respectively.

The second season of our popular reality show, *Lagu Cinta Kita 2* ("LCK2"), was trending on Twitter throughout its eight episodes and garnered more than 3.8 million viewers in episode six. Azwan Ali made a comeback and hosted this programme together with Elly Mazlein and three permanent juries, Mas Idayu, Ajai and Hael Husaini. Khareez and Nadeera were announced as the winners for LCK2 and brought home the main prize of RM50,000, a mobile phone, and an opportunity to record a duet album and music video. Client integrations for this show included Celcom, Nivea Hokaido Roselien, Samsung and KFC.

TV3's latest entertainment show challenges new artists to give their own creative interpretations to evergreen classics. *Immortal Songs*, based on a South Korean entertainment programme, first aired on 30 August 2020. The seven episodes were co-hosted by Ain Edruse, Amy Mastura, Fad of Bocey together with the Chief Operating Officer of Farm Fresh which sponsored the programme.

Another popular reality show, *Vokal Mania*, was given a new concept, fresh treatment and more drama in 2020. It featured four professional singers (Aina Abdul, Indah Ruhaila, Lan Solo and Tomok) battling against 24 undiscovered singers (rookies) in each of the nine episodes. Aina Abdul

(Idol) and Aisha Retno (rookie) bagged the cash prize of RM50,000 and RM30,000, respectively, a Tomaz 'gaming' chair and a trophy. Vokal Mania was hosted by Datuk AC Mizal and Azira Shafinaz, with two permanent juries, Misha Omar and Yusry Abdul Halim. This exciting programme was sponsored by Mamee London Roll, Domino's Pizza and client integration included Power Root.

DELIVERING THE BEST ENTERTAINMENT EVENTS IN THE NEW NORMAL

Naim Daniel, the new singer and songwriter emerged victorious at the annual prestigious event, *Anugerah Juara Lagu 34* ("AJL34"), which was held at Axiata Arena, Bukit Jalil on 9 February 2020. Naim won the Best Song Of The Year award for *Sumpah*. The awards show became the nation's hot topic, garnering 6 million viewers on TV3 and capturing more than half of the Malay television viewers at 55%. The show also captured 442,000 live stream views in high-definition on tonton and Xtra, and nearly 1.5 million views on YouTube TV3Malaysia. AJL34 was co-hosted by Awal Ashaari, Haziq Hussni and Sherry Alhadad. Sponsored by McDonald's, Setel and Celcom.

Our popular award show, *Anugerah Bintang Popular Berita Harian 33* ("ABPBH33"), was held without an audience at the Axiata Arena in Bukit Jalil on 13 November 2020 and sponsored by Xiaomi. Despite the restrictions in the effort to curb the spread of Covid-19, ABPBH33 successfully gained 6 million viewers or 43% of viewership. Nielsen Malaysia's findings revealed that viewership for ABPBH33 increased by 200,000 viewers compared to last year's edition. It also received a boost on live-streaming platforms such as YouTube TV3 Malaysia. ABPBH33 received 700,000 views on YouTube compared to 104,000 views in the previous edition. The awards show's Most Popular Artiste, singer-actor Haqiem Rusly, also made history by receiving 22,332,676 votes, the highest number of votes in the history of ABPBH.

After 17 years entertaining audiences across various locations nationwide, Karnival Jom Heboh took a different direction to bring entertainment to audiences in the comfort and safety of their homes. For the first time ever, we organised Karnival Jom Heboh for online platforms over two

days in August 2020, together with McDelivery. Karnival Jom Heboh Di Rumah was aired on TV3 and TV9, and showcased various activities, games, shopping sessions with great deals, fashion and cooking segments while also entertaining viewers with performances by popular local celebrities such as Wany Hasrita, Hael Husaini, Naim Daniel, Haqiem Rusli, Nabila Razali, Nazim Othman, Amelia Henderson, Riena Diana, Dayang Nurfaizah and many more. This exciting virtual event was sponsored by McDonald's and Huawei,

MOVING FORWARD

At Media Prima Television Networks, we are committed to entertaining and enlightening Malaysians from all walks of life, across demographics with top-rated hits and with the most credible news and current affairs. Moving forward, we aim to become an established content production and distribution source in the Southeast Asian region for clients and direct consumers, producing and distributing a wide variety of hit content, both live-action and animation, for multiple platforms including streaming and other digital TV platforms, and linear broadcast and feature film studios.

WOWSHOP

WOWSHOP Sdn Bhd ("WOWSHOP") is an innovative home shopping network that is accessible across television, online and mobile platforms, bringing Malaysians a uniquely visual, interactive and immersive experience. Established in 2016, WOWSHOP provides high quality products and services aimed at enriching people's lives. WOWSHOP is a wholly-owned subsidiary of Media Prima.

Presenting the ALL NEW WOW logo with all WOWSHOP hosts that highlights the new WOWSHOP colours red, yellow, and white.

WOWSHOP reached over 2.3 million registered customers since its inception until end of 2020. In 2020, we produced over 1,661 live shows (more than 100 per month). The company places its main focus on content commerce, customer-centric products and multi-platform offerings with more than 10,000 items on sale on all platforms ranging from household products to electrical items, fashion, beauty, food and beverage, and digital.

WOWSHOP is built to be strong and agile, and is a brand that is intuitive to customer needs. We are always evolving to help customers move ahead in life, for a better present and a brighter

future. WOWSHOP's ultimate goal is to WOW our customers further and bring more joy to every Malaysian home with more innovative and exciting ways to shop.

BETTER AND STRONGER WITH A WHOLE NEW LOOK

In 2020, WOWSHOP embarked on a holistic four month rebranding campaign with Media Prima undertaken by its in-house marketing team, digital developers and content production team. The company changed its brand corporate identity, all the aesthetics of its platforms — television

and digital — as well as corporate and marketing collaterals. A revitalisation of all television content, redesign and upgrade of its e-commerce and mobile commerce platforms were undertaken to further enhance and improve the user journey. The process was completed in October resulting in an all new WOWSHOP.

The new logo has a smiley icon that reiterates WOWSHOP as every customers' best friend and personal shopper, someone they can trust and to provide all the best deals to "WOW YOUR LIFE". The logo's new and fresh vibe is also enhanced by using three bold colours along with a new jingle. WOWSHOP also moves to building a closer and more enhanced interaction with its customers with the introduction of its online avatar, SIS WOW, that appears on the company's digital platforms. WOWSHOP will now become a personal shopper for customers, providing them with product recommendations.

The rebranding also leverages its differentiating factor of having strong convincing show hosts who are portrayed as the consumers' personal shoppers. The company also aims to highlight its engaging demonstrations, and exclusive bundles.

STAYING RESILIENT AND EXCEEDING FINANCIAL EXPECTATIONS

In 2020, WOWSHOP's performance exceeded expectations and remained stable throughout the Covid-19 crisis as the company witnessed a shift in consumer spending habits since the Movement Control Order ("MCO") when sales rose significantly in 2020. The company contributed RM308,865,472 to the Group's revenue in 2020.

When the MCO came into effect, there was a rise in people adopting new hobbies and skills such as cooking, cleaning or organizing their home

and home-training for themselves. During this period, television returned as a centre of home entertainment.

Leveraging Media Prima's broadcast platform of over 35% total audience share, and aggressively expanding its digital platform offerings, WOWSHOP has successfully reached the mass market and in 2020 recorded a 33% increase in sales from the previous year with 46% comprising television sales and 54% comprising online sales. From over RM300 million in sales, there was a significant increase in the e-Commerce (Mobile App and Mobile Web) sales portion versus the TV Sales portion where e-commerce witnessed an overall increment of 28% from 2019.

As an essential service provider during the MCO we have also ensured to open our platform for all potential local vendors as well as closely collaborate with our loyal vendors. It's all about supporting the country's economy.

In terms of customer base, WOWSHOP collectively garnered over 750,000 new registered customers to its database, which is a more than 40% increment from the previous year. With that, WOWSHOP achieved its 2 million registered customers mark in May 2020 and celebrated this milestone in July with the "WOW Together" campaign that rewarded customers with e-vouchers and cashback.

Due to the pandemic, Malaysians in general are now more aware and increasingly use television home shopping and online shopping platforms. To ease the customer experience further by providing more payment options, WOWSHOP introduced two new e-wallet partners besides BOOST in 2020. They are Touch 'n Go eWallet and GrabPay. In addition to that, special campaign collaborations with BOOST and Touch 'n Go eWallet helped to increase awareness of the WOWSHOP brand to more Malaysians. As a result of the pandemic, the company witnessed a shift in customer payment habits, with 35% of customers preferring to make prepaid payments (35% contribution) instead of the Cash-On-Delivery option.

Not forgetting to do its part for the nation during the pandemic, WOWSHOP embarked on collaborations with the Government on programmes to support local vendors and the economy. Through its collaboration with the Ministry of Rural Development, and the Ministry of Domestic Trade and Consumer Affairs, WOWSHOP has brought onboard over 1,500 local vendors to its online platforms through the DESAMALL initiative and in support of the BUY MALAYSIAN PRODUCTS campaign by the Government.

In terms of television viewership, TV3 and 8TV experienced more than 190% growth from 2019. Apart from that, WOWSHOP as a content commerce provider offered two new "shoppertainment" type content which are Fun and Earn on 8TV, and Fikree's Kitchen on TV9. Both content offered more than just the typical home shopping content, with closer interactions with viewers and simultaneous engagement through WOWSHOP's Social Media Facebook and Instagram accounts. The new content offerings also offer customers the benefit of receiving lifestyle tips and recipes to enhance their buying experience.

► Moving into 2021, WOWSHOP aims to achieve 3 million registered customers.

To recap an amazing year that has been full of challenges, WOWSHOP managed to maintain its operations with a limited operations workforce and a support team working from home. With challenges such as delivery and stock efficiency similarly faced by most businesses during this time, the company still achieved its profitability in 2020. This is truly a testament of teamwork, strength and resilience and the company's dedication in bringing the WOW factor to every Malaysian home.

WOWSHOP IN 2021

Moving into 2021, WOWSHOP aims to achieve 3 million registered customers, to offer an even wider variety of products that will bring more smiles and "WOW" to Malaysians. We aim to further increase our viewership and followers across our social media platforms by creating more WOW content and to be a more digital driven and profitable company.

WOWSHOP will continue to support its customers through various measures and initiatives that were started during the Covid-19 pandemic as it boldly moves ahead into 2021, especially by providing a wide range of relevant products at the best prices while establishing new business partnerships with both international and local brands. Our goal is to remain resilient through 2021 and beyond.

THE NEW STRAITS TIMES PRESS

As the leading print and digital media company in Malaysia with innovative products and comprehensive media solutions, The New Straits Times Press (Malaysia) Berhad's ("NSTP") main purpose is to provide the best content and product that is relevant, compelling and attractive to readers and business partners.

The NSTP group bagged a total of nine awards at the prestigious MPI-Petronas Malaysian Journalism Awards 2019, including making a clean sweep of two categories, namely Best Columnist and Excellence International Journalism.

2020 marked a significant milestone for NSTP as we adapted to the new business normal from the ongoing Covid-19 pandemic. All this while we maintained our same aggressive push in both the digital realm, as well as in print for our three newspaper titles — New Straits Times ("NST"), Berita Harian ("BH") and Harian Metro ("HM").

As with other industries, the newspaper and media industry was not spared from the Covid-19 impact, which had affected NSTP's advertising revenue. Leveraging Media Prima Berhad's ("MPB") group transformation strategy of being subsidiary-centric with a lean structure and a clear profit-

driven value-added focus, NSTP had made several organisational changes to achieve this aim.

In January 2020, NSTP had agreed to transfer the administrative as well as the digital sales functions of all its digital assets to REV Media Group ("RMG"), a 100% subsidiary of Media Prima.

January also saw the official commencement of operations for Print Towers Sdn Bhd ("PTSB"), a 100% subsidiary of NSTP. Formerly known as Berita Harian Publishing Sdn Bhd, PTSB is a full-fledged, stand-alone commercial newspaper printing and logistics business, that undertakes orders beyond Media Prima and Media Mulia Sdn Bhd.

For mobile, we continued to grow our reach with ongoing developments of our e-paper and mobile applications including

NST Mobile, HM Mobile and BH Mobile.

In April 2020, as part of the Group's strategy of having integrated marketing functions under a separate entity, NSTP's entire Advertising Sales department were transferred to Media Prima Omnia Sdn Bhd ("Omnia"), another subsidiary of MPB.

Three main targets were set — to become the undisputed leader for Malaysian news and content by focussing on our core business of content generation; to maximise the value of every NSTP product; and to continue playing our part as an active corporate citizen and contribute more towards nation-building.

For NSTP's three main publications, despite the movement restrictions and new SOPs, we continued to enhance our newspapers' DNA which are known as the 4Es: Exclusive, Examine, Educate and Entertain. For print, we strengthened their editorial offerings with new columnists and new exclusive stories every month, before following up with more current and related news for the online audience.

For mobile, we continued to grow our reach with ongoing developments of our e-paper and mobile applications including NST Mobile, HM Mobile and BH Mobile. In the social sphere, we rallied the public's support to help us contribute more towards nation-building, by leveraging the history and legacy behind NSTP as an institution that has produced some of the nation's greatest literary and journalism giants.

For NST, which celebrated its 175th anniversary on 15 July, a grand exhibition titled "Traversing 175" was held at Galeri Prima in August 2020, which saw the YAB Prime Minister graciously officiating the event with a hope for NST to "always be the foremost English-language newspaper and remains as the source of reference for everyone, not just in Malaysia but the whole world - when the world wants to know about Malaysia."

For BH, the professional, family-oriented Bahasa daily truly lived up to its tagline as the "Wadah Pembaharuan - Berimbang, Adil dan Tepat", with live forums and talk shows held to build trust with our young online audience and increase our online programming variety.

The *Bicara BH*, for example, which is streamed live on Facebook, had several ministers and other distinguished panellists and industry representatives discussing various interesting and up-to-date topics that were more relatable to the younger audience.

With an invitation to be in someone else's shoes, the "*Rasai Berita Sebenar*" tagline aptly describes HM's overall content approach, with emotion-

evoking word-plays and more community-centric stories, which has been successful in getting the attention of the public and corporate sponsors. The funds poured into HM's *Tabung Metro Prihatin* under the Media Prima-NSTP Humanitarian Fund, allowed us to give more in 2020, and truly reach out to those in need.

Our overall resolve to deliver beyond expectations was also severely tested during the staging of this year's 33rd Anugerah Bintang Popular BH ("ABPBH33") in November 2020. Initially mired in online controversy, it turned out to be a huge success with this year's show garnering an even higher audience share ratings than last year's.

Staged at Axiata Arena within the new normals, with no audiences and strict adherence to SOPs, ABPBH33 was aired and streamed live on TV3, tonton, the YouTube channels of TV3 and BH, as well as on ABPBH's official website (www.abpbh.com.my) and the TikTok app.

Moving forward, it will remain a very challenging operating environment ahead for the overall newspaper and media industry, with some analysts opining that the pandemic is actually hastening the decline in traditional media revenues as advertising expenditure suffers.

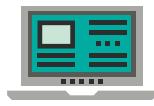

With the operating environment expected to remain as such within the immediate to near term, NSTP as a company will consciously improve its operational efficiencies internally with more prudent cost-saving measures as a way to cushion the impact of lower revenues.

At the same time, the Company will continue to develop and grow our digital initiatives, to meaningfully offset any declines in traditional revenue, and focus on the value stream we use to deliver content to the audience.

For NSTP, our reason for being has always been to serve Malaysians with high quality and credible content, be it news, lifestyle or entertainment, that will enrich and complement their daily lives.

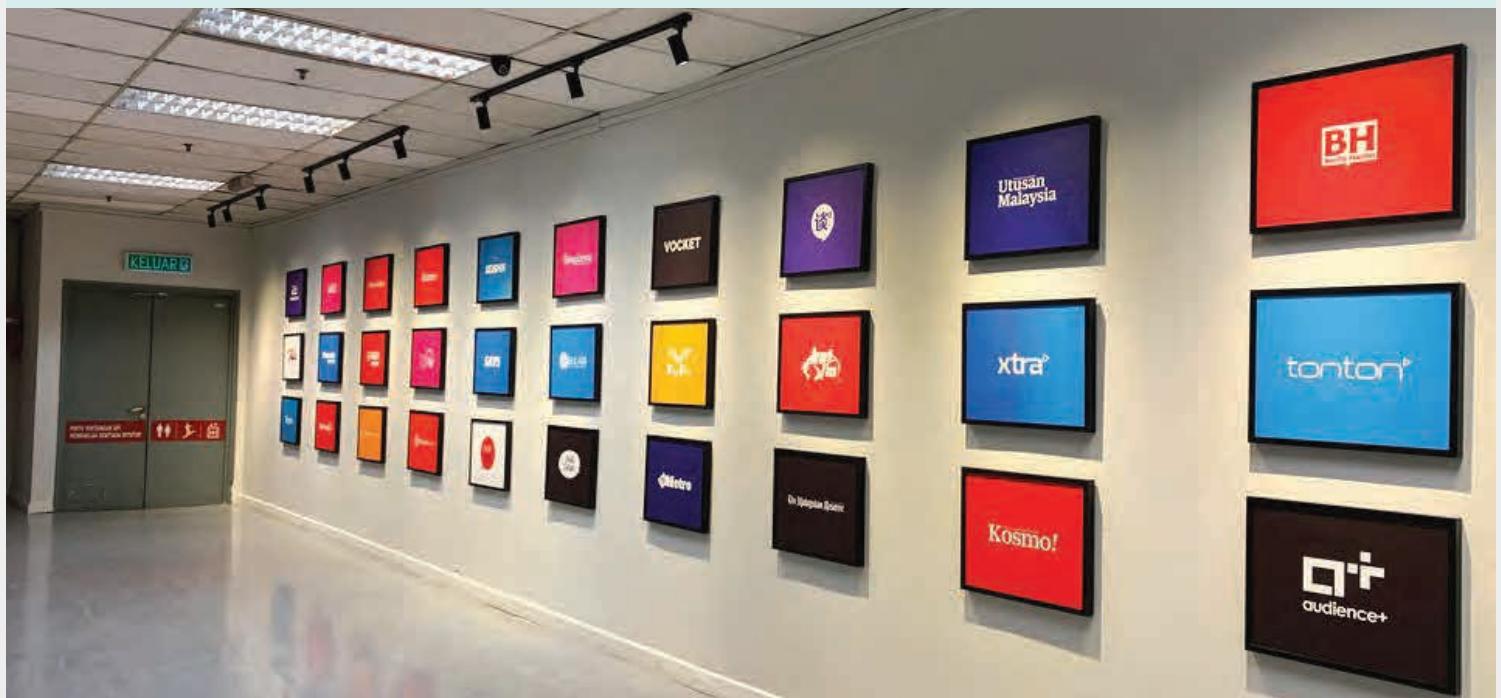

New work structure, new approaches and processes within a new normal, cost optimisations and new strategies are just some of the plans put in place by NSTP to meet the current challenges and strive forward, pandemic or not.

REV MEDIA GROUP: MALAYSIA'S #1 DIGITAL PUBLISHER

REV Media Group (“RMG”), a leading digital publisher in Malaysia, has been the driving force behind Media Prima’s digital initiatives. We represent over 30 top authority brands across multiple languages and platforms comprising News, Entertainment, Lifestyle, Technology and more. With an extensive distribution network that reaches out to more than 15 million Malaysians a month, we strive to elevate brands to greater heights through influential, data-driven digital marketing solutions and exceptional content aimed at winning the hearts of consumers.

[Logo feature wall in Basecamp, Sri Pentas.](#)

This year, RMG continued to be at the forefront of the Group’s digital transformation initiatives, maintaining our position as the number one choice in mobile content (reaching about 83% of Malaysia’s total digital population as of November 2020) as we focused our efforts on more growth and monetization opportunities for the Group.

A new identity

Platform Review

As part of our corporate initiative to further streamline business processes and functions, Media Prima Digital and REV Asia rebranded to REV Media Group in July 2020 and both teams are currently based in Sri Pentas (Basecamp and Fort North). The new branding has enabled us to offer better clarity and synergies to our customers as we continue to deliver the best solutions to them, thus helping us solidify our position as the leading digital publisher in Malaysia.

EMBRACING THE NEW NORMAL

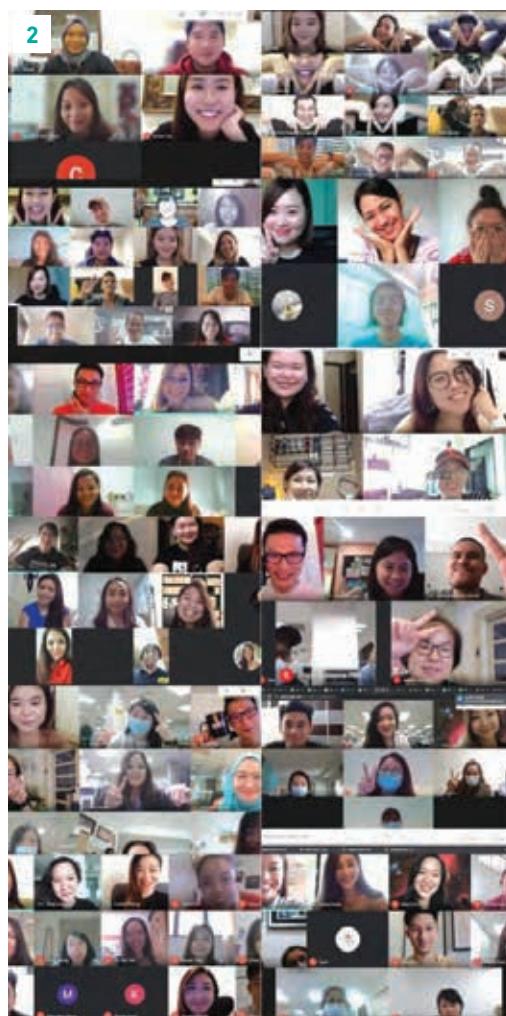

After months of preparation to host clients and agencies at Basecamp, Sri Pentas for Exploding Content 2020, we had to pivot to host the event virtually instead as a precautionary measure to the rise in Covid-19 cases.

Leveraging on our digital and production capabilities, we organized our first ever virtual edition of Exploding Content. Within two weeks, we conducted over 130 personalised calls to introduce exclusive advertising packages to our clients, with deals worth RM32 million in the pipeline pending validation.

ENHANCING OUR DIGITAL NEWS OFFERINGS

One of our key priorities this year was to enhance our digital news offerings in terms of growth and engagement, as well as to optimize monetization for the Group through the introduction of our News Network. We also welcomed three new brands into this network — Utusan Malaysia, Kosmo! and The Malaysian Reserve — diversifying our portfolio even further with credible, household names.

Amidst the uncertainties of the pandemic, people need trusted and reliable sources of information, even more so during this challenging time with a lot of fake and unverified news in circulation. RMG's News Network caters to over 11 Million Malaysians a month and our legacy brands Harian Metro, Berita Harian and New Straits Times are at the forefront with their continuous efforts in delivering the most accurate and verified news to our audience.

REVOLUTIONISING THE ESPORTS AND GAMING SCENE

Our esports and gaming portal, MyGameOn, was selected as one of the 18 organizations across Asia Pacific in the Google News Initiative ("GNI") Innovation Challenge, a global effort by Google to work with the news industry to help journalism thrive in the digital age. MyGameOn, the only Malaysian representative in the initiative, was chosen to build a content recommendation engine to increase consumption of content from its community of gamers through personalisation. GNI's support will enable us to develop sustainable business models by diversifying revenue streams and increasing audience engagement.

We also continued to pursue esports initiatives such as IGN SEA's Squad Up, a PUBG mobile tournament hosted in partnership with YouTube Malaysia. The objective of this campaign was to educate the public on ways to start streaming with provision of tutorials and guides, and to share how established brands use esports to maintain market relevance during the pandemic. It also showcased how celebrities and KOLs can be used for content integration in live esports streaming through a series of engaging

activities involving deeper sponsored product activations such as the "McDonald's Brain Freeze Challenge" and the "Samsung Selfie Challenge". The tournament featured over 250 teams and reached a whopping 600,000 views on the video-sharing platform.

HARNESSING THE POWER OF DATA AND TECHNOLOGY

We believe in harnessing the power of data and technology to not only deliver engaging content that matters the most to our audience, but to also enhance our offerings to ensure that our clients are provided with the best possible advertising solutions and targeting capabilities.

We introduced a lookalike audience targeting option within the Media Prima ecosystem — a proven approach to extend audience segments by adding new ones that show similar characteristics (demographics/interests) to the existing target audiences. AI (machine learning) is used to analyse user profiles and discover new users, enabling optimization that wasn't possible before in terms of quantity (reach/scale) and quality (performance/insight) of audiences.

We are also working on positioning RMG as leaders of Audience Data in Malaysia, introducing comprehensive reporting (pre-sales and post-sales support) and class-leading audience fact sheets for potential clients to better understand our audience segments.

GOING FOR GROWTH

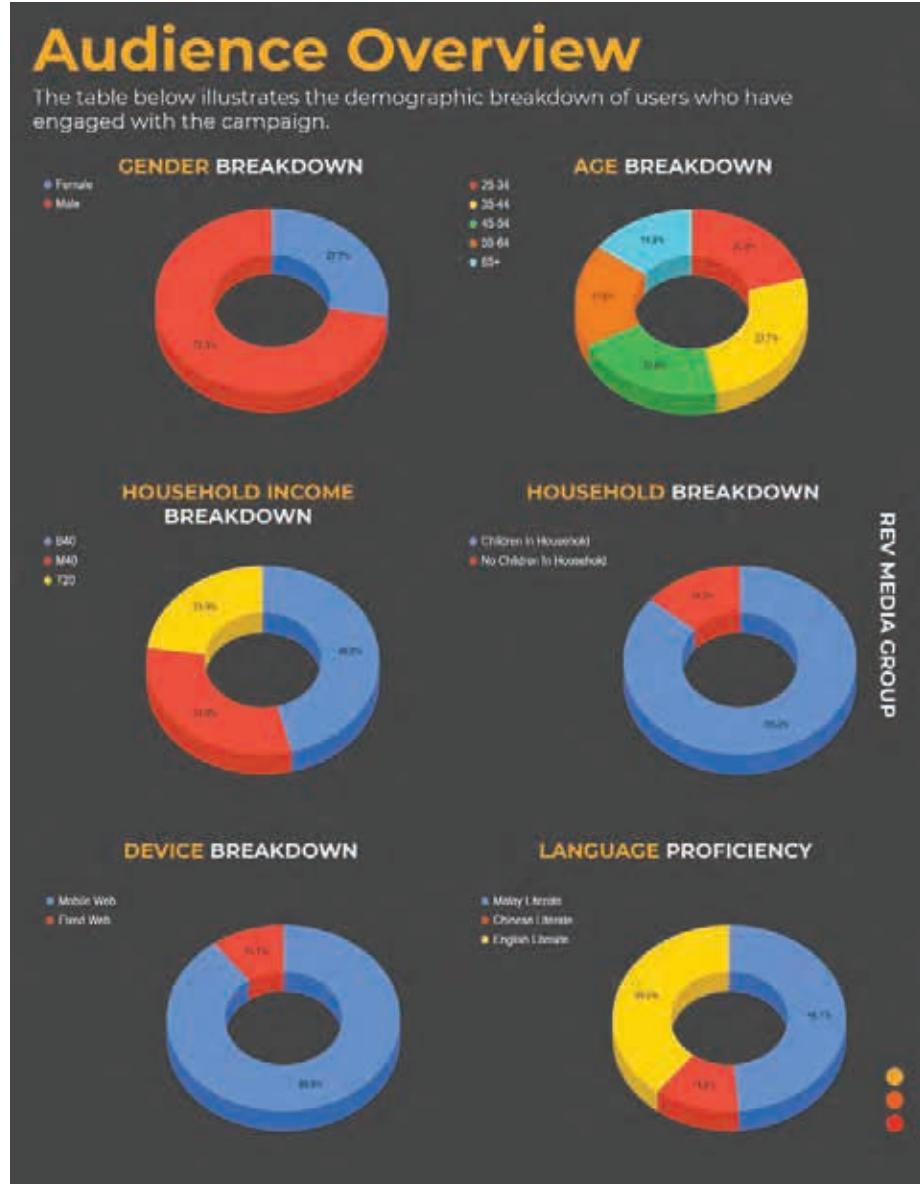

RMG took over all digital sponsored content for the Group which involved the integration of digital sponsored content operations across all platforms within Media Prima. We have since doubled the number of line items executed from the previous year.

Maintaining a steady growth year-on-year, we recorded RM90.1 million in revenue for FY20, an increase of 21% from RM74.4 million last year.

THE WAY FORWARD

Moving forward, we aspire to see the fruition of some of our recently executed projects including SPARK, a new business unit that was created to grow and consolidate all Sponsored Social Media Content and Influencer Marketing within the Group.

We believe that the way forward is to continuously innovate and be adaptive to the dynamic media industry.

This will productise our valuable social media assets and variety of talents and influencers to create a staple social media product for advertisers across the Group's digital platforms.

As our vision is to be the #1 Malaysian digital media company in terms of reach, retention and revenue, we believe that the way forward is to continuously innovate and be adaptive to the dynamic media industry in order to drive a positive impact on the Group's overall growth and profitability.

BIG TREE

Big Tree persevered against the many challenges that 2020 offered, and successfully maintained our status as Malaysia's foremost out-of-home ("OOH") company.

[BIG News by NSTP, a collaboration between Big Tree and NSTP, in keeping the public informed of current news while on-the-go.](#)

Our biggest hurdles were the strict movement control orders that were initiated in the fight against Covid-19. We mitigated the impact of these restrictions through innovative solutions, and by adopting a more direct marketing approach such as constant creative short messaging that assisted in keeping the faith among our key connections, and ensured that Big Tree stayed at the very forefront of their minds.

We introduced a series of successful investment options to facilitate a smooth reemergence into the market for advertisers after restrictions were partially lifted. The corporate social responsibility

OOH investment packages that followed resulted in soaring media occupancy, and enlisted new clients that have previously never appeared on OOH nor have worked with Big Tree before. These initiatives were designed with the aim of making OOH advertising attainable for everybody, especially small and medium-sized enterprises.

Furthermore, during the Recovery Movement Control Order, our dedicated Sales Team conducted roadshows in key regions across Peninsula Malaysia to reignite and reinforce trust in OOH, whilst adhering to the standard operating procedures set out by the Malaysian government.

We expanded and upgraded our static and digital OOH inventory

to fulfil the growing demand, also to enhance captivation of advertisers' brand messages

This year also saw the launch of the BIG News by NSTP initiative — a collaboration between Big Tree and The News Straits Times Press ("NSTP"). In line with the Group's Environmental, Social, and Corporate Governance efforts in adding value in the lives of audiences, this collaboration delivers live news headlines from the NSTP via Big Tree's digital OOH screens to urban audiences who are constantly on-the-go; ensuring that the Malaysian public is kept well-informed of the country's top developments. This initiative is currently available at six high traffic and heavy footfall locations in the Klang Valley.

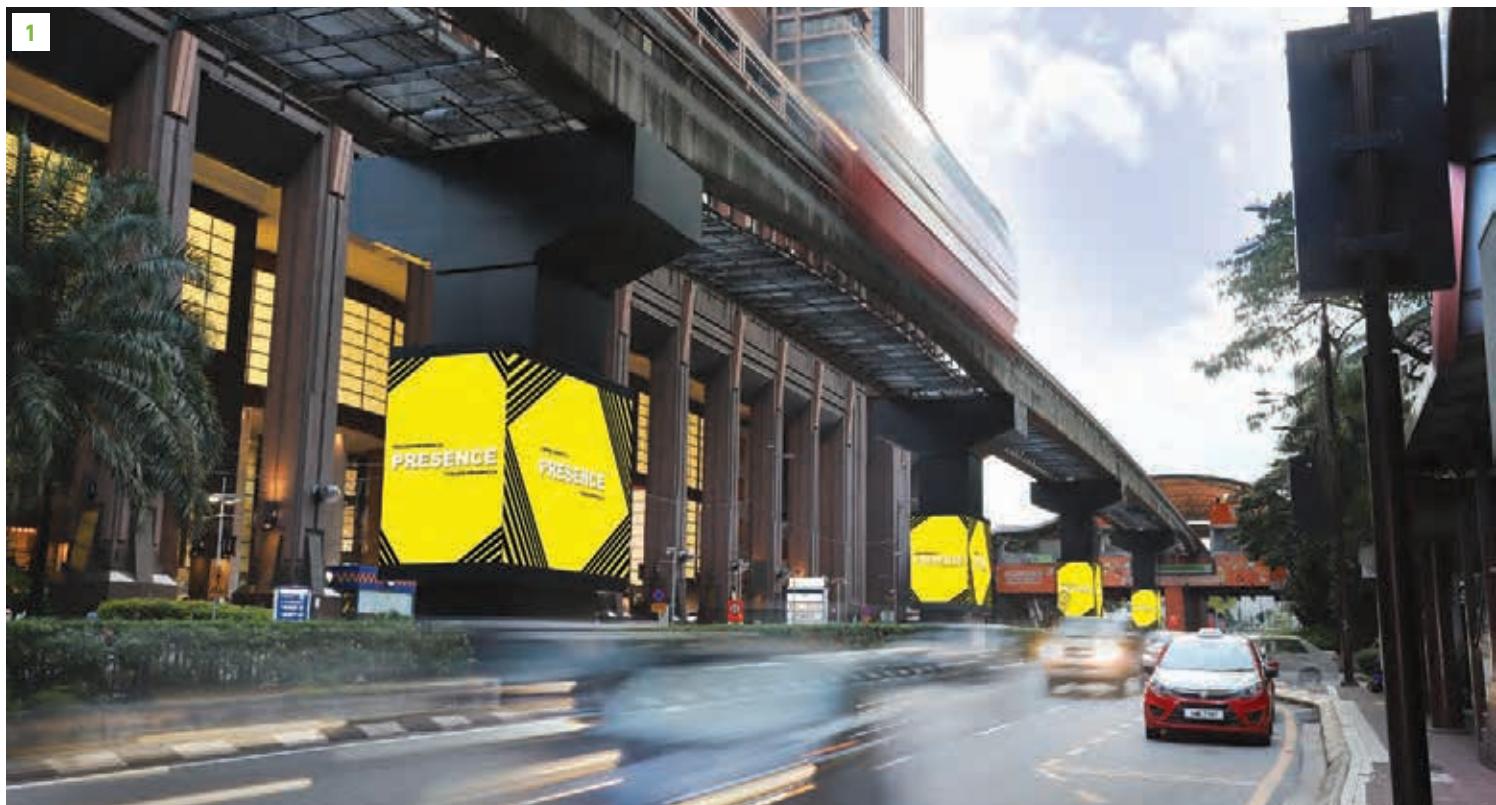

KEEPING UP WITH DEMAND

This year, we expanded our digital OOH inventory to cater to the growing demand in digital OOH advertising. First, we unveiled the Digital Tower Series @ SPRINT which targets audiences driving along the SPRINT Highway towards the Kuala Lumpur City Centre from Damansara, Petaling Jaya, and TTDI. We then presented the CuBig Series @ Times Square, which is strategically located along Jalan Imbi, an arterial route in the center of the Kuala Lumpur Golden Triangle that serves audiences

from the surrounding retail and business landmarks. We extended our reach in the southern region of Peninsular Malaysia with the Digital @ Tebrau, which is tactically located along Jalan Tebrau that serves as an integral link between Johor Bahru city and the North-South Expressway (NSE).

Our existing digital OOH formats were upgraded to meet international standards of innovation. The CuBig Series @ Jalan Bangsar was fitted with new seamless edges that provide extra advertising space for maximum branding opportunities. The Cosmic Towers @ KL Sentral underwent enhancements, and now feature screens with crisper, higher-definition resolution that engage the combined audiences of KL Sentral, Malaysia's busiest integrated transit hub, and Nu Sentral, Malaysia's premier transumer lifestyle mall.

In addition to the expansion and innovation of our digital OOH inventory, we also broadened our presence with the newly established Beamer Series along Federal Highway. This sequence of large, backlit panels, which replicate the award-winning design of the Beamer Series on SPRINT Highway and on Jalan Tuanku Abdul Halim,

influence the mass audiences that traverse the Federal Highway daily.

To liven up Kuala Lumpur in light of the pandemic, we launched the 'Illustrasi Haiwan Malaysia oleh Big Tree' campaign which garnered interest from national media and went viral on social media. This campaign featured vibrant visuals of animals unique to Malaysia displayed on Big Tree's own KLCC Snorkels, a set of large lightboxes that dominate the vicinity of Malaysia's most iconic landmark, the Petronas Twin Towers. Each visual was embedded with a QR code to facilitate audience interaction. Upon scanning the QR codes, audiences will be transported to a special landing page on Big Tree's official website where they may learn interesting facts about these animals. This initiative further highlighted the unique strengths of static OOH media, and its ability to drive online activation and induce instant conversions.

FORGING AHEAD

Moving into 2021, Big Tree's values shall continue to drive the way we work. We intend to continue meeting the demands of the age of digital disruption by focusing on the comprehensive expansion of our digital OOH assets. This includes introducing new landmark digital OOH formats

We will continue to uphold our 5 core values; creativity, innovation, technology, integration and engagement in our commitment to provide advertisers the best OOH solutions

throughout 2021 in prominent and premium locations, which stays true to our mission of landscaping evolving cityscapes and urban aesthetics. Big Tree shall also continue with its product differentiation efforts to ensure that our media formats, both static and digital, lead the Malaysian OOH industry in creativity and innovation.

We will fortify our position as Malaysia's top OOH company by expanding our reach in main market centres beyond the Klang Valley. Furthermore, we will strengthen our communication efforts through frequent updates on our social media channels, and by maintaining the newly adopted direct marketing approach to create loyal and lasting client relationships. We will also continue our effective cost management initiatives to ensure a healthy margin.

Big Tree is committed to providing advertisers with creative integrated solutions that obtain the best reach, and deliver the highest engagement. We achieve this through supporting the campaign objectives and visions of stakeholders via a holistic approach that establishes strong brand presence at multiple touch-points throughout their audience's daily journeys. This is made possible with our extensive inventory of distinctive media formats, and with its singular expertise in advertising along expressways, integrated transit network, retail centres, and on premium street furniture, ensuring unstoppable coverage nationwide.

PRIMEWORKS STUDIOS

Primeworks Studios is one of Southeast Asia's most reputable production companies, tackling every aspect of the media chain in TV and film production, content sales, film distribution and marketing, animation, branded content, as well as licensing and merchandising.

 
Ejen Ali Misi: Juang
 was released on
 25 December 2020
 on Ejen Ali's official
 YouTube channel,
 featuring Tan Sri Dr.
 Noor Hisham bin
 Abdullah, the current
 Director-General of
 Health.

With over 3,000 hours of compelling content produced annually for a range of platforms including television, cinema and digital, our production house is the hub and creative force behind a wide range of content genres including entertainment, animation, magazine, documentary, sports and drama.

The current outbreak has impacted and disrupted various professional industries globally, including the Malaysian film, production and entertainment industry. We see many productions halted, timelines reshuffled, film releases postponed and investors tightening their belts - but this has not dampened our passion at Primeworks Studios.

Due to the pandemic, many of our activities were postponed and the entertainment and media industry was drastically affected. Our film, Rock 4: Rockers Never Dai, released on 20 February 2020, was impacted as cinema-goers started to stay away due to health concerns. After the first two weeks, box office collection slowed down tremendously and the film closed with over RM1.8 million for a 4-week theatrical run.

The pandemic caused a huge shift in content consumption to digital, with many local films releases moving to Over The Top ("OTT") platforms, while other producers decided to postpone their releases. Films such as Mael Totey sparked a phenomenon when it managed to collect more than RM6.4 million, a record achievement for a local on-demand film.

SUCCESSFUL INITIATIVES WILL TRANSFORM BIG IDEAS INTO REALITY

In an effort to widen audience reach and cater to changing viewership trends, Primeworks Studios signed content partnership deals to stream some of TV3's top Malay drama series such as *Sang Pewaris*, *Bidadari Salju*, *7 Hari Mencintaiku 2*, *Kampung People*, *Leftenant Zana* as well as *Hati Yang Tersakiti*, *Isteri Misteri* and *Lelaki Lingkungan Cinta* on OTT platforms WeTV, iQIYI and VIU.

Primeworks Studios also aims to showcase quality content from Malaysia into new territories. Six local-made animation titles were sold to popular video-on-demand service, Amazon Prime, via a deal signed between Primeworks Distribution and Janson Media, for its members in the United States, Canada, Ireland, Australia, New Zealand and the United Kingdom. The titles available on Amazon Prime include *Ejen Ali*, *Soccer Bugs*, *Cingkus Blues*, *Saladin*, *Knowsy Nina Wants To Know* and *Super Tots*.

Primeworks Studios promises entertainment and quality. Our awards and recognitions over the years is testament to this promise. *Ejen Ali the Movie* currently reigns as Malaysia's number one animated film and the third highest-grossing Malaysian film of all time. Co-produced by Primeworks Studios with WAU Animation, it raked in RM30 million at the box-office and was selected as one of 16 films in the running for the Best Animated Feature Film Award at the 24th edition of Cartoons on the Bay - Pulcinella Awards, Italy. At the 2020 Asian Academy Creative Awards, Singapore, the movie also received the honour of Best Direction (Fiction) for director, Usamah Zaid Yasin and represented Malaysia at the regional level. At the same event, *Alif & Sofia*, a preschool 3D animation series made for YouTube co-produced with Blindspot Studios, was named Malaysia's winner in the Best Preschool Programme category. *Ejen Ali the Movie* also bagged the Filem Meletop award at Anugerah Meletop Era 2020, becoming the first animated film to win this recognition voted by the public.

Following its theatrical success, *Ejen Ali the Movie* was aired on TV3 during Hari Raya Aidilfitri and achieved the highest ratings for a special festive programme in the station's history. TV3 then aired

the English dub version of the film as part of special Christmas programming in December 2020, where it again garnered solid ratings. The film made its bilingual debut on Netflix in Malaysia, Singapore and Brunei in November 2020, where it trended on Netflix Malaysia's Top 10 content list within the first week of release. The *Ejen Ali* TV series was further expanded internationally via Tencent Video China, in partnership with local distributor CAWRO. The effort marks *Ejen Ali*'s first break into China's entertainment scene, where the demand for content on online video platforms is rapidly growing and becoming the platform of choice for major advertisers, a trend expected to grow steadily over the next five years. The move is set to kickstart the brand's licensing and merchandising business in the region.

The new norms in place due to the pandemic led many families to be homebound. In view of this, Primeworks Studios expanded its marketing engagement activities for *Ejen Ali* and *Alif & Sofia*, in an effort to provide quality entertainment activities for kids and families staying home.

Following the success of *Ejen Ali The Movie*, the brand's consumer products range has seen substantial expansion in 2020, ranging from back-to-school, toys, confectionery and publishing. A series of new products were introduced to encourage fans to safely spend their leisure time with loved ones — the board game EJEN ALI Misi: Bootcamp, the collectible trading card game EJEN ALI Misi: Alliance, the limited edition comic book EJEN ALI: Side Mission and EJEN ALI hand sanitisers by Carrie BacBuster. On top of the new merchandise line releases, the official music video from *Ejen Ali the Movie*'s theme song #KitaJagaKita featuring Altimet, Cuurley and Malik Abdullah, was released on 31 August 2020, reaching nearly one million views in a week on YouTube alone. The music video was released in conjunction with National Day, as a tribute to all Malaysians who have echoed the phrase #KitaJagaKita to stay united and to support each other to fight the pandemic.

To celebrate Malaysia Day on 16 September 2020, Primeworks Studios and WAU Animation joined hands for the #KitaJagaKita campaign. The campaign is a call-to-action from Primeworks Studios and WAU Animation to support the frontliners' heroic efforts in combating the Covid-19 pandemic. Following the success of the campaign, a short film, EJEN ALI MISI: JUANG was released on 25 December 2020 on *Ejen Ali*'s official YouTube channel, featuring Tan Sri Dr. Noor Hisham bin Abdullah, the current Director-General of Health. In the short film, Tan Sri Dr. Noor Hisham joins the ranks of MATA Ejens in a cameo role during an epic battle, accompanied by a moving new rendition of the Kita Jaga Kita theme song. The short film trended at number one for ten days on YouTube Malaysia and garnered 1 million views in less than 24 hours after its launch.

A successful publishing run in the Indonesian market was launched with the Augmented Reality animated book series *Ayo, Shalat!*, in conjunction with the release of new *Alif & Sofia* episodes dubbed in Bahasa Indonesia. This was followed by the 2020 Maulidur Rasul celebration and the release of *Alif & Sofia*'s first publication line in Malaysia, the My Prophet illustrated storybook series and the Jom Solat! guidebooks. The series was pitched as the perfect activity for young families to read together

while staying home and safe during this global pandemic. *Alif & Sofia* has also collaborated with Tudung Si Comel to release a school hijab line for kids in preschool and lower primary.

Trends today show that people have low tolerance for anything that sounds close to a sales pitch. This is why branded content is a powerful marketing tool that can stimulate consumers' emotions, build trust between consumers and brands, and increase brand revenue. Some of the branded content that Primeworks Studios produced include a five-episode series called *Saranghae Ramadan Eid*, The Series (in collaboration with Motion Content Group and sponsored by Coway Malaysia), *Dari Dapur Saya*

Ke Dapur Anda #KepciKitchen (sponsored by KFC), #coverlagurayaTV3 campaign (sponsored by Huawei, L'oreal and Nescafe), #KempenTabungPahlawan in partnership with Jabatan Hal Ehwal Veteran ATM, and *Di Pagi Raya Ini* (Dayang Nurfaizah) with Celcom Axiata Sdn Bhd.

Monkey Bone embarked on three major campaigns in 2020 dedicated to frontliners. '*Di Pagi Raya Ini*' a new Raya single sang by popular singer Dayang Nurfaizah and #CoverLaguRaya song, which featured NJWA Mahiaddin, Sarah Ismail and VE, performing popular nostalgic tunes backed by Fly & The Gypsy Cats. For #KempenTabungPahlawan, the song '*Perwira*' was produced by Aubrey Suwito and Datuk Ahmad Izham Omar for soprano songstress Ning Baizura. The single's release coincides with the Tabung Pahlawan campaign launched to raise funds for Malaysian Armed Forces Veterans and their families.

We recognise that creativity is a skill. While marketing techniques, advertising practices, and entertainment trends change constantly, Primeworks Studios intends to achieve extraordinary success by awareness — awareness of the competition, understanding of trends and technological developments, awareness of the likes and dislikes of viewers, and investor awareness needs. With these in mind, Primeworks Studios will continue to be a pacesetter in producing creative, engaging and entertaining content that sets it apart from its competitors.

While 2020 was an unprecedented year, we remain hopeful. Moving forward, we are committed to strengthening our brand as a content creation and distribution company and keep to our vision as providers of Asian Stories for the World.

Our mission is to continue expanding our footprint regionally, improving the quality of our productions, and focusing on ever-evolving business opportunities in the content sphere. Our ambition is to be Malaysia's global animation powerhouse.

RIPPLE

RIPPLE is a network of four radio stations and a podcast brand that reaches and engages audiences by providing the best content on both traditional and digital platforms. With the ability of leveraging data from these content development, we are able to narrate better content for our audience and while providing better solutions for our clients.

With over 12 million RIPPLE digital communities, our digital content which includes articles and videos, have successfully earned over 61 million total website pageviews and more than 1.23 billion total digital video views collectively.

Our key campaigns that were executed this year include Fly's Money Heist, Hot FM Duit Dari Kayangan, One FM Money In Your Area and Webinar Kool. In addition to that, two major campaigns were introduced. — #SupportLokal was launched in April, a campaign that shares selected local businesses' information across our platforms to boost spending among consumers in the local SME market. The

pandemic also allowed us to innovate by allowing listeners to be our radio shows hosts from their home by using digital tools and platforms.

We transformed our brands to maintain relevance with our audience and the advertising industry. In January, we relaunched Kool FM as a talk radio station that focuses on current, social and community news targeting Malay audiences aged 25 and above. This is a gap in the market that is not addressed for the Malay market segment that yearns for more current news and engagement. Fly FM, too, experienced a shift with new shows and announcers beginning 9 November 2020. Its

Based on the GFK Radio Audience Measurement Wave 2, 2020, our four radio stations managed to strengthen their positions by reaching 5.3 million listeners collectively each week and attracting 1.9 million PMEBs ("Professionals, Managers, Executives and Businessmen") and other white collars listeners. Kool FM set a new record for RIPPLE after becoming the No.1 Malay talk radio station in Malaysia. One FM's Breakfast segment, on the other hand, has the No.1 growth among Chinese radio stations in Malaysia. Meanwhile, Fly FM managed to grow its exclusive listener pool for the below 30 age group by 35%, while Hot FM continues to engage almost 3.7 million loyal listeners.

The method of consuming radio has changed, especially when the government announced the travel restriction due to Covid-19. According to GFK, listenership increments of 25% and 12% were recorded for digital and decoder, respectively. Our digital audio content has also reached an astonishing number of 95 million digital listenerships, made possible by the signed partnership with various global technologies partners including Joox and Whooshkaa recently.

Group Financial Review

Overview

We were not spared from the effects of Covid-19 pandemic, which further compounded the challenging media landscape. Disruptive changes in the media sector and difficult macroeconomic conditions, exacerbated further by unknown variables surrounding the Covid-19 pandemic, have compelled us to expedite the next phase of our transformation exercise in 2020 which included revising revenue models and corresponding cost optimisation initiatives. This is reflected in the narrowing of our statutory and normalised loss for the financial year 2020.

Revenue

Revenue declined by 6% in 2020 to RM1,041.6 million against 2019 revenue of RM1,106.0 million, mainly attributed to the continuous decline in traditional advertising revenue, which was further impacted by the Covid-19 pandemic and the various movement control orders. This was reflected in the 16% decline in total advertising revenue to RM642.9 million in 2020 from RM762.4 million in 2019. Nevertheless, the reduction in advertising revenue was cushioned by the increase in home shopping revenue, which grew by 33% from RM232.3 million in 2019 to RM308.9 million in 2020.

Advertising

Soft advertising expenditure impacted advertising revenue across most of our media platforms, resulting in a decline of our traditional advertising by 17% from RM679.5 million in 2019 to RM563.4 million in 2020. Despite the shift in advertising expenditure trends to digital, the soft advertising expenditure market during the year also reduced our digital advertising revenue by 4% from RM82.9 million in 2019 to RM79.5 million in 2020.

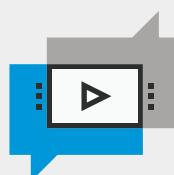

Home Shopping

WOWSHOP saw a significant 33% growth in revenue from RM232.3 million in 2019 to RM308.9 million in 2020, driven by the pivot in consumer spending habits to e-commerce and increased viewership in our home shopping programmes during the year.

Newspaper Circulation and Printing

Circulation revenue declined by 26% from RM63.7 million in 2019 to RM47.2 million in 2020 as a result of lower circulation volume partly due to the movement control orders enforced in 2020. Contract printing and distribution revenue however increased by 334% from RM3.5 million in 2019 to RM15.2 million in 2020, driven by an increase in printing and distribution contracts secured by Print Towers with third-party publishers during the year.

Content

Content production revenue decreased by 78% from RM14.3 million in 2019 to RM3.2 million in 2020 due to limited box office releases as cinemas were forced to close throughout most of 2020 under the movement control order. Content sales and distribution revenue increased by 14% from RM12.5 million in 2019 to RM14.2 million in 2020 as content sales to international and regional streaming platforms remained fairly consistent during the year.

Operating costs

Our operating costs decreased by 18% from RM1,285.8 million in 2019 to RM1,056.5 million in 2020. This was reflected in the reduction in most of our operating cost items in the statement of comprehensive income. The reduction in operating costs were achieved largely through cost optimisation and efficiency initiatives across the Group.

The detail below provides the grouping of our direct costs and other operating costs:

| | 2020 RM'000 | 2019 RM'000 |
|---|------------------|----------------|
| Amortisation of intangible assets (programme and film rights) | 95,579 | 130,152 |
| Home shopping goods | 212,858 | 157,431 |
| Newsprint and newspaper production | 28,938 | 51,607 |
| Outdoor display and production | 48,914 | 66,410 |
| Content production and other media-related | 39,505 | 37,757 |
| Total direct costs | 425,794 | 443,357 |
| Transmission, technology and distribution | 73,988 | 73,304 |
| Employee benefits | 297,500 | 426,469 |
| Occupancy | 24,703 | 41,871 |
| Depreciation | 111,137 | 123,296 |
| Amortisation of intangible assets (excluding programme and film rights) | 1,745 | 1,904 |
| Impairment of non-current assets | - | 39,863 |
| Net loss on impairment of financial instruments | 10,843 | 449 |
| Other operating costs | 110,792 | 135,296 |
| Total other operating costs | 630,708 | 842,452 |
| Total operating costs | 1,056,502 | 1,285,809 |

Our direct costs which are directly incurred in the generation of revenue reduced by 4% from RM443.4 million in 2019 to RM425.8 million in 2020, as direct costs attributed to our Broadcasting, Print Media and Outdoor Media segment revenues generally reduced in tandem with lower revenue. The reduction in direct costs from these segments were partly offset by the increase in the cost of home shopping goods sold by 35% in correspondence to the growth in home shopping revenue.

The total other operating costs reduced by 25% from RM842.5 million in 2019 to RM630.7 million in 2020, mainly due to the reduction in employee benefits costs by RM129.0 million. Lower headcount led to a decrease in aggregate salary and defined contribution plan costs by RM62.5 million and termination benefits costs reduced by RM64.4 million. Reduction in occupancy costs, depreciation, other operating costs and the absence of impairment of non-current assets also contributed to lower total other operating costs. These reductions were partly offset by an increase in net loss on impairment of financial instruments by RM10.8 million to reflect risks and uncertainties brought about by Covid-19.

Taxation

Our tax expense of RM12.3 million in 2020 remained fairly consistent against RM12.5 million in 2019.

Earnings

We narrowed our loss after tax by 90% from RM185.5 million in 2019 to RM18.1 million in 2020, driven by lower operating costs and the absence of impairment of non-current assets compared to 2019.

Exceptional items

In addition to statutory performance measures in accordance with MFRS, we measure our performance based on normalised earnings because we believe normalised performance measures provide management and investors with useful additional information about the financial performance of the Group. Normalised performance measures are not defined by MFRS and may not be directly comparable with similar adjusted performance measures used by other entities.

We derived our normalised loss for the financial year by excluding exceptional items from the loss for the financial year in the statement of comprehensive income. Exceptional items are those items we consider to be one-off or material in nature that should be brought to attention in understanding the financial performance of the Group.

Group Financial Review

Exceptional items (continued)

The reconciliation of normalised loss for the financial year is as follows:

| | 2020 RM'000 | 2019 RM'000 |
|---|-----------------|----------------|
| Loss for the financial year | 18,106 | 185,488 |
| Exceptional items: | | |
| - Termination benefits | (13,678) | (75,008) |
| - Impairment of property, plant and equipment | - | (24,244) |
| - Impairment of investment properties | - | (159) |
| - Impairment of intangible assets | - | (16,665) |
| Normalised loss for the financial year | 4,428 | 69,412 |

Dividend

We do not recommend payment of any dividend for the financial year ended 31 December 2020, due to the holding company's loss for the year of RM49.6 million.

Total assets

Total assets as at 31 December 2020 stood at RM1,367.1 million, a 5% decrease from RM1,435.2 million as at 31 December 2019. Non-current assets decreased by RM107.0 million, mainly attributed to the reduction in the carrying amounts of property, plant and equipment and right-of-use assets by RM36.4 million and RM60.1 million respectively. The reduction in the carrying amounts of these assets were largely due to depreciation during the year.

Current assets increased by RM39.0 million. Increase in deposits, cash and bank balances and inventories by RM46.6 million and RM17.7 million respectively were partly offset by reduction in trade and other receivables and current tax recoverable by RM17.1 million and RM8.2 million respectively.

Total liabilities

Our total liabilities reduced by 5% from RM839.0 million as at 31 December 2019 to RM794.0 million as at 31 December 2020. The reduction was mainly from trade and other payables, which decreased by RM103.8 million partly from the payment of termination benefits during the year, and lease liabilities which reduced by RM62.4 million. These were partly offset by a RM120.8 million increase in borrowings, largely from the drawdown of a term loan facility.

Cash flow

Our net cash and cash equivalents increased by 13% from RM256.9 million at 31 December 2019 to a net cash and cash equivalents position of RM291.3 million at 31 December 2020.

Net cash flow generated from operating activities decreased by RM134.8 million to RM1.6 million mainly due to working capital changes from which RM97.8 million in payables were reduced during the year.

Net cash flow used in investing activities reduced by RM8.2 million to RM4.5 million primarily reflecting lower capital expenditure and equity investments during the year.

Net cash flow generated from financing activities increased by RM113.9 million to RM37.3 million largely due to a RM162.6 million increase in proceeds from drawdown of borrowings, offset by a RM40.9 million increase in repayment of borrowings, a RM12.3 million increase in restricted bank balances and a RM5.0 million payment for the acquisition of non-controlling interests.

Net debt¹

Net debt was RM6.8 million at 31 December 2020, primarily reflecting the increase in gross debt during the year.

Our gross debt position of RM310.6 million at 31 December 2020 comprising borrowings of RM125.5 million and lease liabilities of RM185.1 million. The increase of RM58.4 million in gross debt from the gross debt position of RM252.2 million as at 31 December 2019 reflects the increase in borrowings largely from the drawdown of a term loan facility in 2020, partly offset by RM65.5 million in repayment of borrowings and RM62.7 million in payment of lease liabilities.

As at 31 December 2020, we held deposits, cash and bank balances of RM303.8 million (2019: RM257.1 million)².

¹ Borrowings and lease liabilities (both current and non-current) less deposits, cash and bank balances.

² Deposits, cash and bank balances includes restricted cash balances.

Sustainability Statement

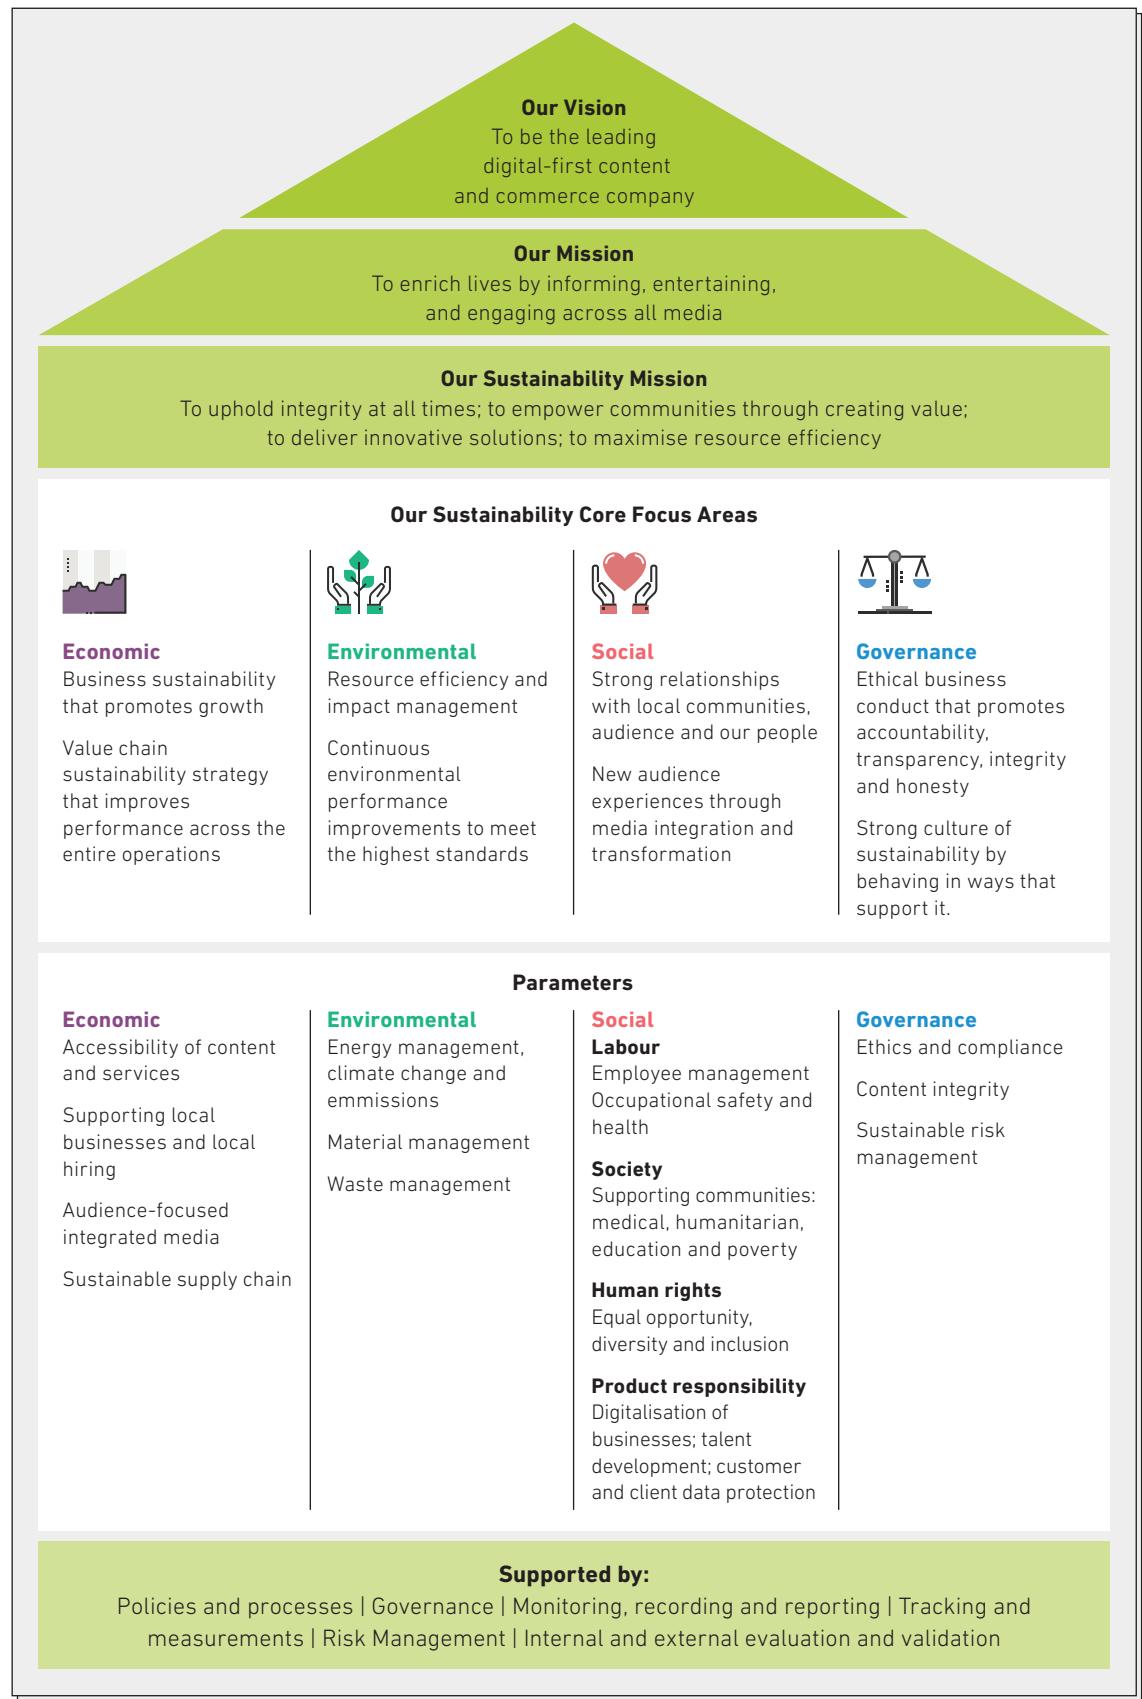

SUSTAINABILITY AT MEDIA PRIMA

The media industry moves quickly. New technologies and the growing use of media channels by global stakeholders create unique challenges to manage corporate reputation and risk, and also sustainability opportunities and strategies for engagement that deliver results.

SUSTAINABILITY STRATEGY

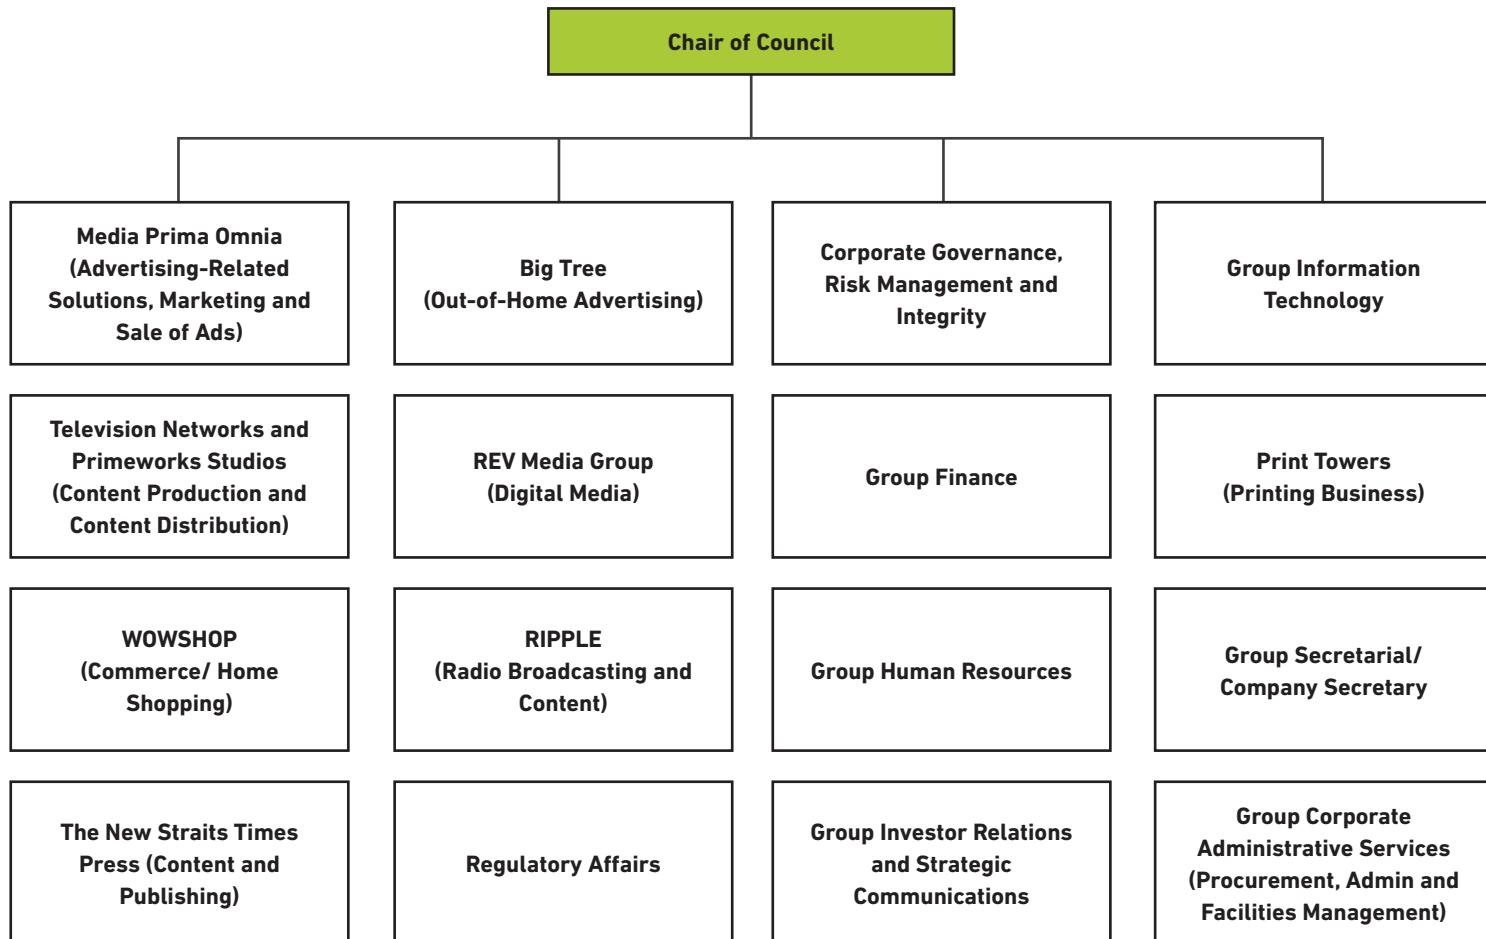

Our sustainability strategy is underpinned by good governance and a driving ambition to deliver positive economic, social and environmental impact through our integrated media offerings.

Categorising our strategies effectively helps form the basis for the future direction, actions and goals of Media Prima.

Sustainability Statement

SUSTAINABILITY COUNCIL

Sustainability is governed at the highest level by Media Prima's Board of Directors and senior management team. The Board is responsible for overseeing the financial performance as well as environmental, social and governance (ESG) aspects as part of the senior management team's day-to-day running of the company.

The council comprise members from various functions of the senior management team who represent the various functions within the Group.

Sustainability activities and targets are anchored and executed across all functions and operations. In 2020, Media Prima established a Sustainability Council that is responsible for overseeing and disclosing

the Group's sustainability initiatives and progress. This helps deliver solutions that meet societal needs and drives sales growth.

SUSTAINABILITY RISKS AND RISK MANAGEMENT

Constantly mitigating daily business risks is key to success. The Corporate Governance, Risk Management and Integrity Department (CGRMI) reviews all risks annually and constitutes core elements in the requirements expected from all responsible personnel. All senior managers are responsible for understanding the interactions between sustainability risks and other financial, legal and reputational risks to ensure that we are compliant and proactive at all times.

Impact of Cyber Threats**External cyber-attacks and threats**

Loss of personal and sensitive business data

Inaccessible or unreliable business services

Loss of reputation

Litigation

Serious leaks of sensitive personal data that threaten the privacy of users

**Impact of Fake News**

Increased penetration of social media

Fake news debate

Press ethics failures

Campaigns undermining mainstream media

Reduced trust in mass media channels

Lower trust levels may result in a decreased willingness to pay for content and the use of products produced by mainstream media.

Fast-Changing trends

Consumers are increasingly using digital technology. Bombed by a multitude of choices, they seek tools to simplify their behaviour decisions. They look to their trusted communities and other experts when moving towards digital technology.

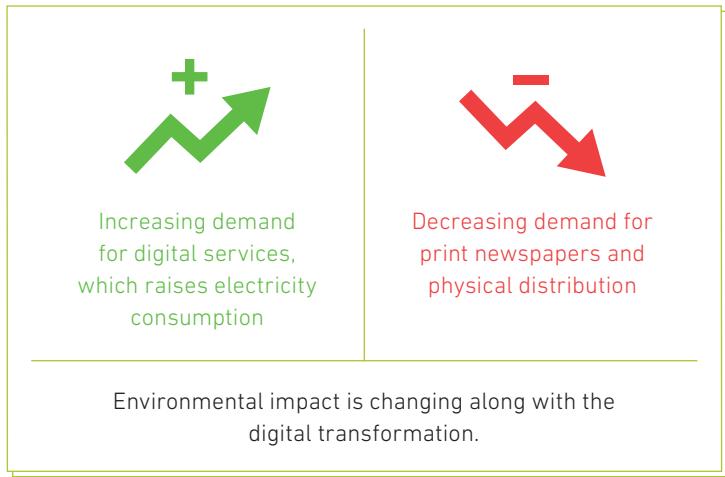

Meeting Customers' Expectations

Increasingly, customers are becoming intolerant of the friction that arises when silos within the business are unable to meet customer needs, effectively. As an integrated media company, we address changing customer expectations by delivering consistent customer experiences across all channels.

Sustainability Statement

Digital Transformation Creating Higher Electricity Consumption

Follow-Up Mechanism In Relation To New Regulations On Sustainability-Related Topics

The introduction of new laws and regulations for sustainability-related topics requires comprehensive follow-up mechanisms, such as gender pay gap analyses. Adopting effective systems to measure and follow up on such information is challenging across all our operations.

DEFINING SUSTAINABILITY AT MEDIA PRIMA

We are committed to measuring, improving, reporting and communicating sustainable value creation, effectively. Striving to create long-term benefits and added value for all stakeholders, we significantly reduce resource consumption and the impacts associated with the production process.

Materiality

We conducted a materiality assessment in early 2021 to identify sustainability topics that are most material to Media Prima. This process is an important tool for:

- Identifying the most relevant environmental and social priorities that are consistent with our business strategy; and
- Defining the contents of the sustainability report according to GRI Standards.

- 1 Significantly affect the economic, environmental and social performance of Media Prima
- 2 Substantially influence stakeholders' perceptions and decisions

The materiality analysis is two-fold; it considers the viewpoint of both Media Prima and its stakeholders.

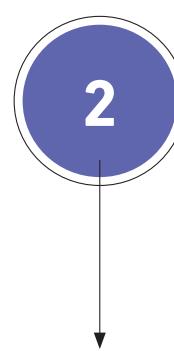

The analysis was performed by an external consultant to ensure impartiality and secure the anonymity of the respondents. The analysis was performed through a three-step process.

Materiality Study Methodology

Identifying all potential material topics of significance to Media Prima

Analysing corporate documents, external literature on changes in market scenarios and sustainability assessment questionnaires by rating agencies, sector studies, media and internet research, and multi-stakeholder standards.

Conducting a detailed materiality survey

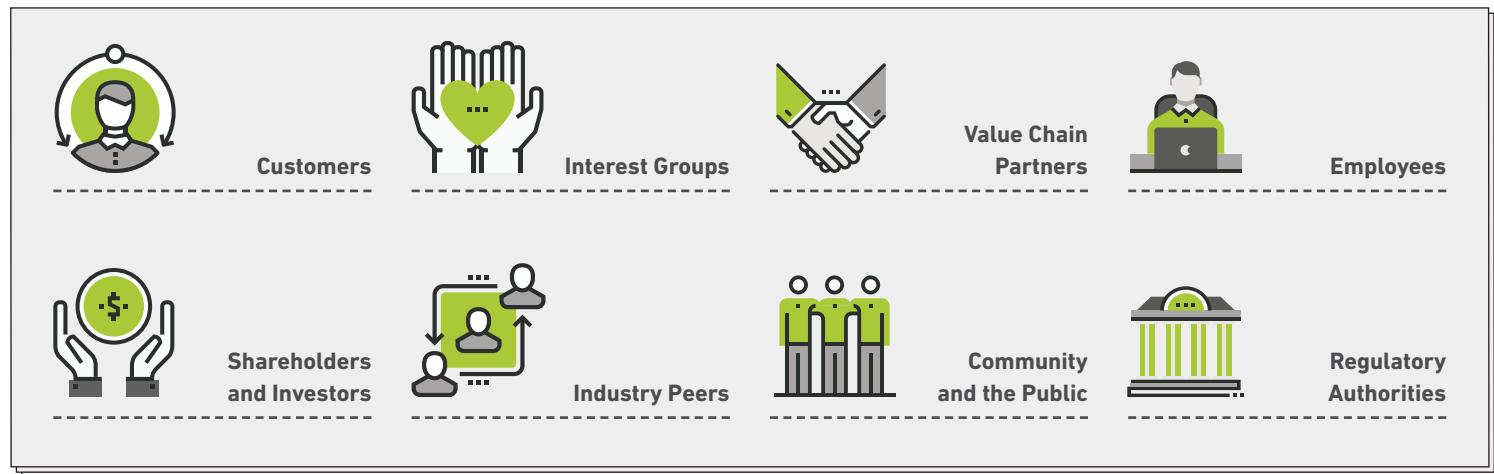

Involving all internal and external stakeholders, respondents were asked to rate the importance they placed on 17 economic, environmental and social issues. Representatives from the Board and senior management team completed a similar survey whose responses represented the views of Media Prima.

Presenting the materiality results to Board representatives

The Sustainability Council presented the materiality assessment results to Board representatives. The results included the implications of identified social and environmental trends and their potential impacts on the corporate strategy.

Stakeholders Contacted During the Materiality Survey

We asked stakeholders to rate the importance they placed on 17 economic, environmental and social issues. We used a five-point Likert scale for each respondent to indicate the importance they placed on each criterion from 'very unimportant' (1) to 'very important' (5). Unsurprisingly, the stakeholder groups were not represented equally with customers, community and public, and employees being the best represented. We calculated a separate average score for each of the 17 areas within each stakeholder group before obtaining an average from all stakeholder groups.

The same survey was completed by representatives from the Board and senior management team, whose responses represented the views of Media Prima. The materiality results are presented in the matrix below.

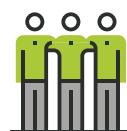

Sustainability Statement

VALUE FOR STAKEHOLDERS

Ongoing dialogue with people, businesses and wider society is central to the progress of sustainability programmes. We build long-lasting, value-creating partnerships with all stakeholders such as suppliers, business partners, employees, regulators, industry peers and the communities in which we operate. Contributing to the social and economic progress of local communities, we engage with these stakeholders on an ongoing basis.

Sustainability Statement

ECONOMIC

The media and entertainment industry has been transforming rapidly for the last decade. Digital media emerged as an alternative distribution medium, dominating all sub-sectors such as print, advertising, esports, home shopping, radio and music. As a sustainable revenue generation platform, several media companies have been compelled to adopt digital strategies to survive in a fiercely competitive market. In 2020, Media Prima refocused and restructured its businesses in view of uncertain macroeconomic conditions and changes in the preferences of consumers and advertisers.

We have further digitalised our operations to mitigate the impact of the Covid-19 pandemic. Economic uncertainties resulting from the pandemic severely affected operations. However, we were also able to capture new business opportunities as an essential service provider during the Movement Control Order.

We embarked on the next phase of our business transformation exercise. Changing our business model and internal restructuring future-proofed the business and protected it against the disruptive changes in the global and local media industry.

In 2020, we consolidated all advertising functions for the Broadcasting, Publishing, Content Creation, and Digital business segments under Media Prima Omnia. Our 'Omnia Solution' allows clients to market their brands across a broad range of media assets through creative services and integrated marketing solutions.

Media Prima is home to some of the nation's highly-followed and most-valued media brands and content that must be protected. We are streamlining and aligning our business with the latest operational demands.

COVID-19 HAS UPENDED THE MEDIA INDUSTRY: THIS IS HOW WE COME BACK STRONGER

The fallout from Covid-19 is affecting every aspect of people's lives and livelihoods. Global poverty is forecast to increase for the first time since the 1998 Financial Crisis and no individual or business is immune.

Everyone in the media industry from content creators to distributors has been severely impacted. Although consumer demand for content has increased rapidly, advertising revenues have steeply declined. Society is consuming media like never before in history.

However, post Covid-19, media consumers will be acutely more discerning individuals following this vastly increased consumption. On-demand services have already changed the media landscape; consumers want complete control over when, how and in what quantities they consume content. Continuing with our business transformation efforts, our strategy is to grow and monetise our strong digital reach.

Sustainability Statement

ENERGY EFFICIENCY AND REDUCTION

Media Prima has developed an Energy Management Programme for its printing business under Print Towers. The Energy Management Programme and Road Map is a fundamental blueprint to manage energy consumption throughout operations. Elements covered include HVAC systems and lighting areas.

Several initiatives are underway in various stages of completion such as:

- Replacing 400W metal halide perimeter lights with 902 LED alternatives. Currently, six units have been changed with others being replaced when they are faulty.
- Operations control such as scheduling air conditioning use according to employees' working hours.
- Monitoring compressed air use and waste.
- A zoning lighting system.
- Raising environmental conservation awareness through posters and emails.
- Increasing the effectiveness of maintenance by collaborating with suppliers and service operators.

Media Prima performed an energy audit and discovered that one Hitachi chiller consumed approximately 1.58 million kWh per annum. Replacing this chiller with a high-efficiency alternative brand would provide the same cooling with up to 500,000 kWh per annum less, which leads to less power loss and energy savings. This 188 U.S. Refrigeration Ton (USRT) chiller was upgraded to the latest 254 USRT model.

| Energy Conservation Measures | CO ₂ Reduction (tonnes) |
|---|------------------------------------|
| Replacing Hitachi chiller with a high-efficiency unit | 382.7 |
| LED retrofit for linear fluorescent lighting | 201.1 |

In 2020, we focused on compiling and studying the efficiency of energy conservation efforts. The current study is scheduled for completion by the end of 2021.

The New Straits Times Press (M) Berhad's (NSTP) Energy Consumption Report is submitted to the Energy Commission twice a year to comply with its regulations.

Energy Consumption

The Analog Switch Over (ASO) exercise commenced in October 2019 and dismantling works were completed in September 2020. Hot FM radio is the only operational transmitter as the others have been decommissioned. Completing the ASO exercise for the majority of our transmitters led to significant electricity savings as presented in the table below.

WASTE MANAGEMENT

NSTP sends all (100%) of its paper waste to Asia Honour Paper Industries ("AHP") for recycling. The collection of other wastes including aluminium and cores are put to tender. Unsellable waste is disposed of according to environmental regulations.

The breakdown of newsprint waste sent to AHP in 2020 is presented below.

Solid Waste Disposal by Type (kg)

| Newsprint Wastage | 2018 | 2019 | 2020 |

| Total | 977,401 | 860,144 | 664,892 |

Scheduled waste at our printing plant consists of contaminated rags, drums, waste ink and chemical waste. This waste is collected, stored and disposed of by Department of Environment's ("DOE") licensed contractors including Kualiti Alam, Tex Cycle, 3R Quest, Nature Energy Products Sdn Bhd, Alivirgo Sdn Bhd and Alam Aliran Kualiti Sdn Bhd. A reduction in newsprint volume resulted in less scheduled wasted being generated and disposed of in 2020.

CLIMATE CHANGE

A critical threat to sustainable development is the acceleration of climate change caused by the emission of greenhouse gases (GHGs) resulting from energy generation and consumption. Media Prima will continue to drive operational efficiencies and see opportunities to improve its environmental impacts by adopting new technologies and different ways of working.

Our emissions accounting is based on the internationally recognised GHG Protocol established by the World Business Council for

Sustainable Development ("WBCSD") and World Research Institute ("WRI"). Emissions accounting is based on the GHG Protocol classification of direct and indirect emissions.

Scope 1

We monitor and record all fuel purchases to calculate our GHG emissions from company-owned vehicles and gensets. Separate calculations are performed for petrol and diesel from Media Prima Group data.

CO₂ emissions from the consumption of fuel were derived from the emission factor published by the IPCC Guidelines for National Greenhouse Gas Inventories.

CO₂ Emissions (MT) from Company-Owned Vehicles and Gensets by Fuel Type

Scope 2

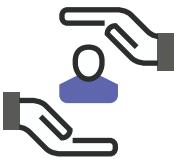

Our electricity and chilled water also produce indirect emissions. Energy has been calculated from Media Prima's electricity bills for our office buildings, TV stations, chilled water, printing press and billboards.

CO₂ emissions from the use of electricity were derived using the emission factor published by the Malaysian Green Technology Corporation for the Peninsular Grid.

OUR PEOPLE

NST celebrated its 175th anniversary in 2020.

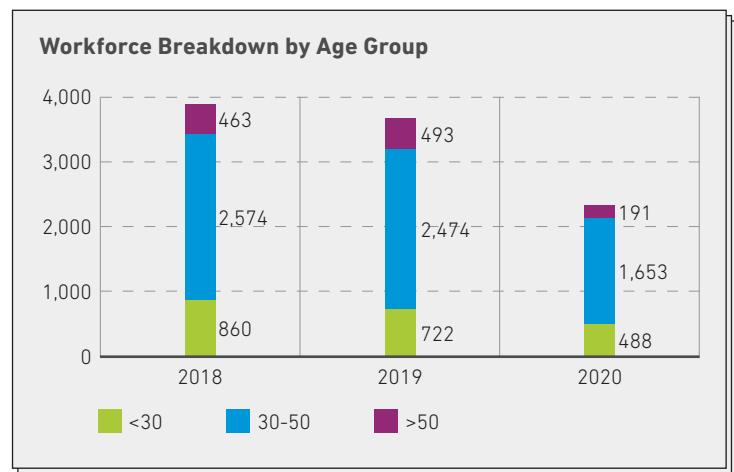

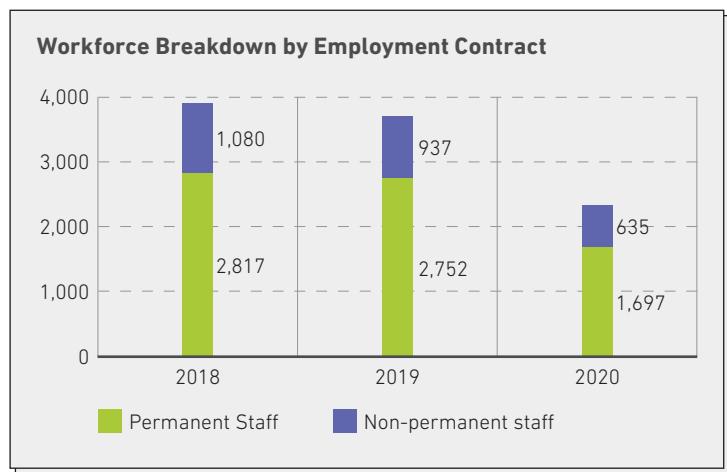

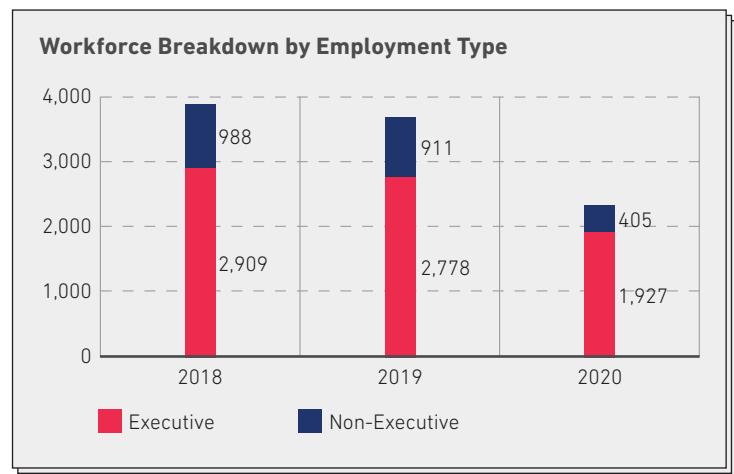

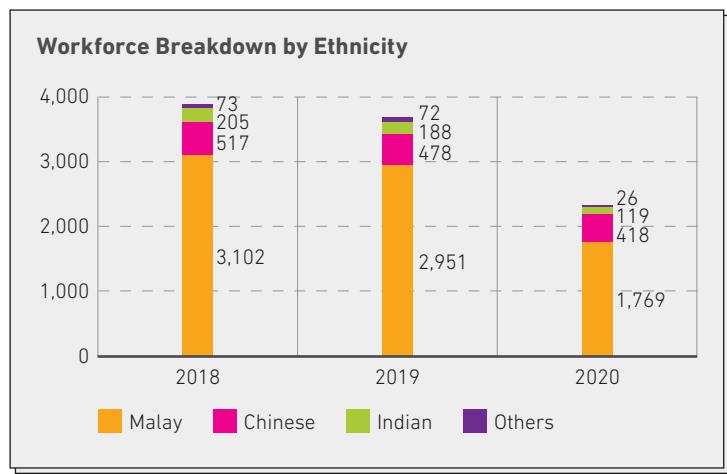

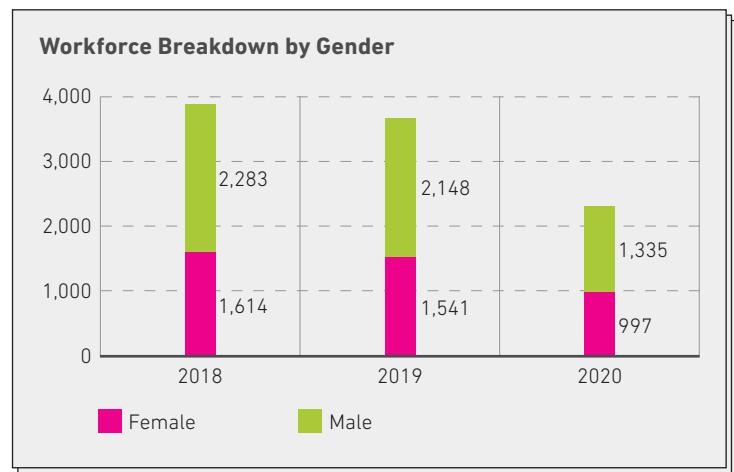

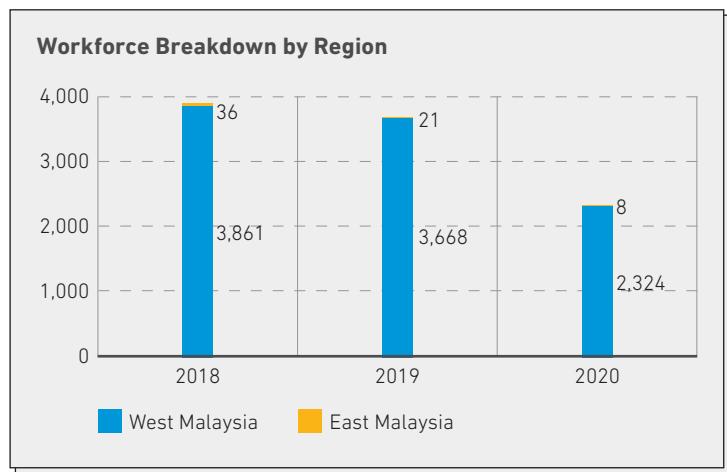

Media Prima is a fun and inspiring place and known as an employer of choice for valuing its people. Working with brilliant content and products, our work culture is collaborative, innovative and defined by a high level of trust.

Our approach is geared towards retaining the right mix of intellectual capital and cultural fit to propel the organisation through these challenging times. Media Prima's People Strategy continues to protect the business to ensure its success. Our People Strategy has four objectives.

DIVERSITY AND INCLUSION

All forms of discrimination are clearly prohibited in our Code of Conduct and Business Ethics. We recruit, hire, develop, promote and provide other conditions of employment without regard to race, colour, religion, national origin, gender, sexual orientation, marital status, age, disability or any other category protected by law. Employees' disabilities or religious beliefs and practices are accommodated whenever practical.

SUPPORTING EMPLOYEES DURING THE COVID-19 CRISIS

The Covid-19 pandemic forced millions of Malaysian employees to work from home. Although this saves lives by limiting the transmission of Covid-19, it also significantly affects employees' well-being. During this pandemic, we employed a plethora of virtual engagement activities to boost morale.

Live Well Work Well

Our weekly Live Well Work Well e-newsletter provides employees with resources that support their mental and psychological wellbeing during the Movement Control Order (MCO). The newsletters address five topics of discussion.

Health

A tool to check one's physical and mental health

Retail therapy

Good deals on essential purchases

Media Prima held its first virtual Annual General Meeting in 2020.

Restrictions were lifted in stages and essential businesses were allowed to operate under strict Standard Operating Procedures (SOPs) during the Conditional Movement Control Order (CMCO) and Recovery Movement Control Order (RMCO). We boosted our engagement with employees to ease their insecurity.

We held a Townhall session at Balai Berita Bangsar and Sri Pentas on 11 August 2020 to brief employees on Media Prima's achievements and future business plan. Each business platform also held townhall sessions with their respective top management to discuss the impact Covid-19 has on the business, business plan and cost rationalisation.

We also introduced a communication channel that grants any employee direct access to the top management. The two-way Talk2GMD communication channel encourages employees to share their concerns directly with the top management. Employees may be invited to a one-to-one session with the Group Managing Director over tea should the need arise.

TRAINING AND DEVELOPMENT

Evolution is key during these challenging times. The pandemic caused a sudden, radical change to corporate training with a shift from learning in a traditional setting to electronic online formats. The learning landscape has changed in ways that will foster teaching new skills to employees, wherever they may be. Employees also adopted self-paced learning using carefully-prepared curated learning modules in the transition to our Learning and Development strategy.

The Learning and Development Team also held quizzes, discussions, a case study and sharing sessions to improve the understanding and effectiveness of learning. Publishing monthly Shots-of-Strategy learning newsletters also shared quick learning bites for leaders with limited time to attend online learning.

HEALTH AND SAFETY

We are committed to providing a safe and healthy working environment for all employees, contractors and business partners. Media Prima's Occupational Safety and Health Committee comprises a chairman, a secretary and both management and employee representatives.

Media Prima works closely with the Department of Occupational Safety and Health (DOSH) to promote safety and good health among employees in the media and communication industry. We conduct internal and external audits to verify the effective implementation of the HSE Management System to ISO 14001 and OHSAS 18001 standards. We have also developed an HSE monitoring and measurement matrix for each business function to implement a corrective and preventative procedure for dealing with actual and potential nonconformity.

On 29 September 2020, Media Prima and other telecommunications players held Program Bengkel Sebaran HIRARC Sektor Komunikasi Tahun 2020 to share insights on safety issues and performance within the media and telecommunication industries.

Construction Site Safety

Our formalised Contractor Safety Procedure is the first document to be distributed to contractors before work commences. Big Tree received an Expressway Operation Safety Passport (EOSP) from the National Institute of Occupational Safety and Health (NIOSH) once its workers and contractors had completed the Basic Induction Safety Course and received their NIOSH safety passports.

SOCIETY

Thanks to GlaxoSmithKline Pharmaceutical Sdn Bhd and GlaxoSmithKline Consumer Healthcare Sdn Bhd, RM325,000 worth of PPE were donated to 14 General Hospitals in Malaysia.

Our businesses influence millions of people every day through our broadcasting channels, streaming platforms, print, radio networks and esports tournaments. We engage with audiences of all ages through an assortment of platforms and interactive spaces. Ultimately, we use our reach and competence to give back to the communities we interact with and contribute to wider society. We are committed to using all our media platforms to help society and actively contribute to its progress.

MEDIA PRIMA – NSTP HUMANITARIAN FUND

The Media Prima-NSTP Humanitarian Fund ("MPNHF") continues to thrive because of the generosity of all our donors who share the same humanitarian vision of what it means to be a responsible community.

Formerly known as the Malay Mail Charity, MPNHF has been in existence since 1991. The fund continues to offer financial aid to those who are unable to afford treatment for heart problems, leukaemia, congenital heart disease, osteogenesis Imperfecta (bone disease), cancer or the fitting of prosthetic limbs.

Our role is to highlight and raise awareness of the various humanitarian plights through our integrated media platforms, namely digital, newspaper, television, radio and out-of-home. All administrative costs of running the fund are borne by Media Prima. Working closely with hospitals, MPNHF identifies deserving cases and pays their treatment fees directly.

Total donations amounting to RM5.0 million were collected throughout 2020, of which RM3.4 million has been disbursed.

TABUNG TV3 BERSAMAMU

Since its inception in 2005, the TV3 Bersamamu Fund has attracted public participation and contributions through the popular television programme Bersamamu and related on-the-ground activities. Today, the TV3 Bersamamu Fund is within the ambit of the Humanitarian Fund as it continues to help those in need.

BANTUAN KEMANUSIAAN COVID-19

The global Covid-19 pandemic has had a staggering impact on our daily lives. We stood firm and remain committed to playing our part in supporting the efforts by the Malaysian Government throughout this pandemic.

Initiated by the Media Prima – NSTP Humanitarian Fund, the Bantuan Kemanusiaan Covid-19 campaign was launched on 23 March 2020. It appeals to the public for donations to help medical, surgical and clinical teams, especially those in government hospitals, to break the infection chain of the deadly virus. The fund has so far facilitated the distribution of essential medical equipment, food, goods and personal protective equipment (PPE) worth approximately RM1.4 million to 20 hospitals including the Kuala Lumpur Hospital; Sungai Buloh Hospital; Tuanku Fauziah Hospital in Kangar, Perlis; and Sultan Aminah Hospital in Johor Baru.

A total of RM1,987,322.24 was collected as of 31 December 2020 of which RM1,807,850.00 has been disbursed.

**TABUNG BENCANA NSTP – MEDIA PRIMA**

Tabung Bencana NSTP-Media Prima was launched on 1 October 2009 to help victims of major catastrophes, both natural and man-made. Tabung Bencana NSTP – Media Prima was first established in response to a huge earthquake that occurred in Padang, Sumatra. It was formed to enable the general public to channel their contributions to the victims.

Efforts to improve the lives of these victims include providing medical assistance and rebuilding schools, libraries, playgrounds and other educational infrastructure. The total contributions collected during the year were RM104,571. A portion of the fund was used to purchase 700 hygiene kits (each worth RM150) for Jabatan Kebajikan Masyarakat ("JKM") Negeri Terengganu for their flood relief assistance in Terengganu.

OPERATING RESPONSIBLY

As technology evolves and new opportunities arise, Media Prima is committed to delivering stakeholder value by capitalising on consumers' increased demand for e-commerce and digital content.

We adapt to the increasingly challenging and competitive operating environment by executing the business transformation plan that delivers new revenue streams while making structural changes that improve the efficiency of the organisation.

REACHING BEYOND THE DIAL TO (RE)CONNECT WITH LISTENERS

Radio has a history of adapting to new technologies to spread its signal farther and more efficiently to a larger audience. With the emergence of social media, traditional media outlets such as radio have been bypassed. Audiences favour non-traditional media channels to reach out to each other. RIPPLE has also gone beyond traditional channels by leveraging the digital platforms to distribute our content while reaching the target audience and meeting their demands.

Online streaming

We expanded the method of listening by making our radio stations available on global streaming platforms including YouTube and Joox.

Social media

Leveraged on the latest social media platform, TikTok, as part of the strategy for content distribution, promotions, reaching targeted and new audiences.

Catch-up content

In 2020, we introduced Catch-up content; bite-size audio content for all our radio stations were made available on various platforms including our website and app. In addition, we are partnering with Whooshkaa, a full-service audio-on-demand company to be the audio content distributor to multiple platforms such as Facebook Native Player, Spotify and Google Podcast.

MYTV

All of our radio stations can be listened to on a MYTV decoder starting 28 August 2020 as well as digital streaming and frequency.

MEDIA PRIMA ACQUIRED REMAINING STAKE IN HOMESHOPPING BUSINESS

We acquired the remaining stake in our home shopping segment, WOWSHOP. This acquisition made WOWSHOP a wholly-owned subsidiary as part of our strategy to grow this commerce segment. This transformation plan taps into the strong prospects of the home shopping and e-commerce industry.

WOWSHOP has become a successful household commerce brand since it was launched in 2016. Today, we have a strong presence on both broadcast and digital platforms. Our large broadcast reach — over 35% total audience share — has served as one of the key drivers to the success of its home shopping segment. WOWSHOP also leverages the Group's overall mass reach and digital capabilities to target audiences with data-driven content and strategically plan airtime and products.

TOGETHER WE ARE THE #1 MALAYSIAN DIGITAL MEDIA COMPANY

Media Prima Digital and REV Asia officially unveiled their new name on 29 July 2020: REV Media Group. Our corporate rebranding initiative will streamline business processes and functions, and provide better clarity and synergies as we continue to deliver the best solutions to our customers.

Based in Sri Pentas, Bandar Utama, REV Media Group represents over 40 top authority brands spanning several languages and platforms such as SAYS, OHBULAN!, Viralcham, NST Online, My Metro, BH Online, Mashable SEA and IGN SEA. Its extensive network reaches

out to more than 15 million people each month, approximately 75% of Malaysia's total internet population. This amalgamation will solidify our position as the leading digital publisher in Malaysia.

EXPANDING DIGITAL PRESENCE THROUGH COLLABORATION

YouTube collaborated with its partners Media Prima, Muse, Astro and WebTVAsia on Super Stream Malaysia. This specially-curated set of local digital moments and free-to-view premium content was made available on YouTube Malaysia for a limited time.

This collaboration allowed the public to access a library of content including dramas, anime and movies from the country's top broadcasters and content networks.

We are now home to over 50 YouTube channels covering some of the best Malaysian content for news and entertainment. Our goal is to provide the best viewing experience and deliver content that matters the most to our audience. We constantly seek creative ways to cater to our base of almost 12 million subscribers on YouTube.

THE EVOLUTION OF ESPORTS

MyGameOn progressively develops esports by delivering the most relevant content as esports and the gaming industry continue to evolve. Participating in key events such as Level Up KL, Asia Comic Con and Hari Sukan Negara, MyGameOn also organised the largest nationwide esports campus event: Kejohanan E-sukan Kampus.

MyGameOn worked on several initiatives throughout 2020 such as MGO Lunchtime Cup, Borak MGO, Mingguan esports MGO and Yoodo Kejohanan E-sukan Kampus Semester 3. Developing a series of relevant content helped to keep its gaming community engaged as they were confined to their houses.

REV Media Group also signed a Memorandum of Understanding (MoU) with Universiti Teknologi Mara (UiTM). The collaboration aims to strengthen and encourage developments in academia, culture and research related to the esports sector. Following the MoU, REV Media and UiTM will conduct more in-depth research on esports application and digital technology to expand the esports industry.

Investor Relations

Media Prima will remain in the forefront in terms of adopting best practices, ethics and governance for the benefit of our stakeholders, with the ultimate objective of enhancing shareholder value.

Engaging the Investment Community

We acknowledge the importance of an effective, transparent and regular communication with our investment community at large. Throughout 2020, we proactively engage with analysts, fund managers and investors, keeping them well-updated of our business performance, business strategy, as well as industry changes and outlook, whilst practising interactive and two-way communication.

In line with our commitment to transparent and effective communication, we maintain various communication channels to ensure that our stakeholders have a sound understanding of the Group's performance and position whilst we navigate a fluid business environment. We proactively engage with the investment community throughout the year to provide stakeholders with an in-depth understanding of our performance, business strategy and investment thesis. In February 2020, we hosted an analysts and investor briefing to present our full year 2019 results. Throughout the rest of the year, our dialogue with the investment community included teleconference calls and virtual one-on-one, and group meetings.

Our key financial results and operating metrics are released publicly to Bursa Securities on a quarterly basis. Our quarterly information releases consist of detailed information relating to financial statements, business performance analyses of the Group and its operating businesses, and the outlook for the following financial period.

Our investment community has instant access to our quarterly results presentations as these are promptly updated on our Investor Relations website upon release of our financial results. Analysts and shareholders also have direct access to our Investor Relations team, for queries they have on the Group's financial performance and position. In addition, we maintain regular communication with our analysts and institutional shareholders, via conference calls and one-on-one and group meetings.

Our corporate website www.mediaprime.com.my remains an important communication platform for Media Prima. Our dedicated Investor Relations website www.mediaprime.com.my/investor-center/ continues to be updated regularly to ensure that the latest corporate, financial and stock information is channelled to the investment community whilst providing them a convenient portal experience.

We are firmly committed to maintaining open and accessible channels of communication with the investment community at large. We have continued to be forthright and transparent because we believe that it is incumbent upon us to provide the necessary information and background of the challenges we face and the future in store.

We conduct an annual survey that aims to measure the quality and effectiveness of our dialogue with the investment community, and to assess the levels of satisfaction and effectiveness of Media Prima's Investor Relations activities enrolled throughout the year. Analysts, shareholders, and fund managers were invited to participate in the annual survey. This exercise is to seek feedback from the investment community with the aim of continuously improving our interactions with them.

Awards and Recognition

At the 2020 Malaysia Investor Relations Association (MIRA) Awards, we were awarded the Best IR Professional for Investor Relations (Small-Cap) and was nominated for Best Company for Investor Relations (Small-Cap) and Best Investor Relations Website (Small-Cap). Media Prima was also awarded Gold at the Australasian Reporting Awards 2020 for our 2018 Annual Report. We are a constituent of FTSE4Good Bursa Malaysia index and this is testament to our commitment to ESG practices.

These accolades have never been our end objective nonetheless it is rewarding to see our commitment and unwavering efforts acknowledged by the industry.

Media Prima is committed to maintaining high standards in the dissemination of relevant and material information on the Group in order to maintain effective, comprehensive, timely and continuing disclosure of information. Rest assured, Media Prima will remain in the forefront in terms of adopting best practices, ethics and governance for the benefit of our stakeholders, with the ultimate objective of enhancing shareholder value.

The Board reviews and challenges Management's views and assumptions. In furtherance of this, the Board then reviews and approves the annual budget for the ensuing year and sets the Key Performance Indicators in the Balanced Scorecard.

The Board promotes good corporate governance through sustainability practices which will translate into better corporate performance throughout the Group. A summary of these practices which demonstrate the Group's commitment to the evolving global environmental, social, governance and sustainability agenda is included in the Group's Sustainability Report 2020. Detailed coverage of our corporate responsibility initiatives are explained separately in our Sustainability Report 2020.

The Board is kept informed of key strategic initiatives, significant operational issues and the Group's performance based on the approved Key Performance Indicators in the Balanced Scorecard. The Chief Executive Officers of the business platforms and selected Senior Management were in attendance at Board meetings to support the Group Managing Director in presenting the updates on the progress of key initiatives, business targets and achievements to date and to provide clarification on the challenges and issues raised by the Board.

In order to ensure the effective discharge of its functions and responsibilities, the Board delegates specific powers to the relevant Board Committees and the Group Managing Director. The Group Managing Director shall steer and govern the Company with the support of the Management via the various Management Committees, as depicted in the next page:-

The Group Chairman leads the Board by setting the tone at the top, and manages the Board's effectiveness by focusing on strategy, governance and compliance. The Board monitors the functions of the Board committees in accordance with their respective Terms of Reference to ensure its own effectiveness.

The position of Group Chairman and Group Managing Director are held by two (2) different individuals. There is a clear distinction of roles and responsibilities between the Group Chairman of the Board and the Group Managing Director in order to ensure that there is an equilibrium of power and authority and that no individual has unfettered powers of decision.

The Board together with the Group Managing Director have developed position descriptions for the Board and the Group Managing Director, involving definition of the limits to management's responsibilities. The Board has also approved the corporate objectives for which the Group Managing Director is responsible to meet.

The Board is further assisted by the Group Company Secretary who is responsible for providing a central source of guidance and advice to the Board, on its roles and responsibilities and good corporate governance.

The Board and its Committees have full and unrestricted access to all information necessary in the furtherance of their duties, which is not only quantitative but also other information deemed suitable such as customers satisfaction, product and service quality, market share, updates and reactions. The Board is provided with the agenda for every Board meeting together with comprehensive management reports in advance, for the Board's reference. The Chairman of the Board takes primary responsibility for organising information necessary for the Board to deal with the agenda and for providing this information to directors on a timely basis.

All directors have the right and duty to make further enquiries where they consider necessary. In most instances, members of Senior Management are invited to be in attendance of the Board meetings to provide insight and to furnish clarification on issues that may be raised by the Board.

Corporate Governance Overview Statement

The Board meets at least four (4) times a year, once in every quarter and has a formal schedule of matters specifically reserved for Board decisions such as the approval of corporate plans and budgets, acquisitions and disposals of assets that are material to the Group, major investments, changes to Management and control structure of the Group including key policies, procedures and authority limits. Additional meetings are held as and when required.

The Board is satisfied with the level of commitment given by the Directors towards fulfilling their roles and responsibilities as Directors of Media Prima Berhad. The Directors' commitment is affirmed by the high percentage of their attendance at the Board meetings and respective Board Committee meetings of Media Prima Berhad held during the financial year ended 31 December 2020.

Corporate Governance Overview Statement

Code of Ethics

The Company's Codes of Ethics for Directors and employees govern the standards of conduct and behaviour expected from Directors and employees respectively. They are to be applied to all aspects of business and professional practices and act in good faith in the best interests of Media Prima Group and its stakeholders.

The Code of Ethics for Directors is available on www.mediaprima.com.my whilst the Code of Ethics for employees is available on the Company's Intranet System (PeopleConnect). It requires all to observe high ethical standards of honesty and integrity whilst prohibiting activities or misconduct such as accepting bribes, dishonest behaviour and sexual harassment, among others.

In line with the new Section 17A of the Malaysian Anti-Corruption Commission Act 2009 on corporate liability for corruption which came into force on 1 June 2020, the Board had on 30 May 2020, approved and adopted a Group Anti-Corruption Policy to ensure that the Group's businesses do not participate in corrupt activities for its advantage or benefits. The policy is guided by the Guidelines on Adequate Procedures issued pursuant to section 17A(5) of the Malaysian Anti-Corruption Commission Act 2009. The Policy can be accessed through the Company's website.

Awareness sessions for board members and key management personnel on Section 17A were conducted by the Group Corporate Governance, Risk Management and Integrity Department and representative from the Malaysian Anti-Corruption Commission.

In order to strengthen corporate governance practices across the Group, a whistleblowing policy was established to provide employees with accessible avenue to report suspected fraud, corruption, dishonest practices or other similar matters. The aim of this policy is to promote and encourage the reporting of such matters in good faith, with the confidence that employees making such reports will be protected from reprisal.

The whistleblowing policy and the anti-fraud policy can be accessed by all staff via the Group's intranet. The key components of the whistleblowing policy include protection to the whistleblower from any retaliation in the form of dismissal, harassment or discrimination at work, or any action in court, in respect of disclosure made by the whistleblower to the regulators. Any employee who believes or suspects that a fraud exists or has been committed may report this to the Group General Manager, Group Corporate Governance, Risk Management and Integrity Department.

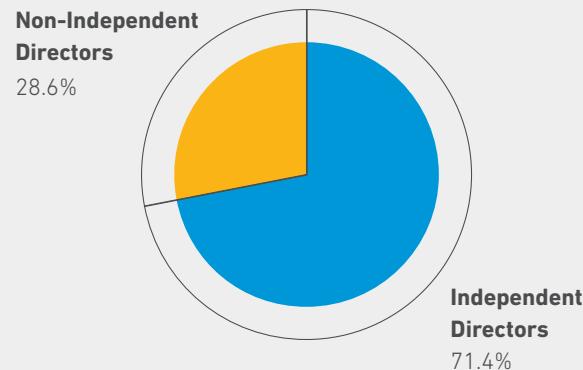

BOARD COMPOSITION

In accordance with the Company's Constitution, newly-appointed directors shall hold office until the next Annual General Meeting and shall then be eligible for re-election. The Constitution also provides that all Directors shall retire from office once at least in every three years. Retiring directors may offer themselves for re-election.

The Board comprises of five Independent Directors, one Non-Independent Director and an Executive Director who serves as the Group Managing Director. The strong presence of five Independent Non-Executive Directors assures effective check and balance on the functioning of the Board.

By virtue of their roles and responsibilities, the five Independent Non-Executive Directors represent the Group's minority shareholders' interests. They are independent of the Management and free from any undue influence from interested parties which could materially interfere with the exercise of their independent judgement.

Board Composition of Directors

In discharging their responsibilities during each Board and Committee meeting, through their vast experience and knowledge, the directors had maintained their independence and objectivity in every major decision to safeguard the Company's and stakeholders' best interest.

The Nomination and Remuneration Committee and the Board have upon their Board Effectiveness Evaluation exercise, concluded that all of the Independent Non-Executive Directors continue to demonstrate conduct and behaviour that are essential indicators of independence, and that each of them continue to fulfil definition of independence as set out in the terms of reference and the listing requirements.

The Board recognises that an individual independence cannot be determined arbitrarily on the basis of a set period of time alone. The Board also firmly believes that the ability of a Director to serve effectively is dependent on his calibre, qualification, experience and personal qualities, particularly his integrity and objectivity. It is also believed that there are significant advantages to be gained from long-serving Directors who possess insight and knowledge of the Company's business and affairs.

Hence, an Independent Director who has served the Company for nine years, subject to the Nomination and Remuneration Committee's recommendation and Shareholders' approval, may continue to serve the Group in the capacity of Independent Director.

Board Member's Tenure

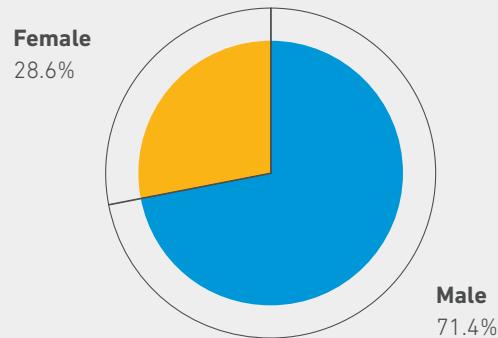

The Group Chairman and all Independent Non-Executive Directors have served the Board for less than nine (9) years where their tenures are set out in the Board of Directors' Profiles as set out on page 76 to 85 of this Annual Report.

The Nomination and Remuneration Committee is responsible for recommending to the Board those Directors who are eligible to stand for election/reappointment. This recommendation is based on formal reviews of the performance of the Directors, taking into account the Board Effectiveness Evaluation results, contribution to the Board through their skills, experience, strengths and qualities, level of independence and ability to act in the best interests of the Group in decision-making.

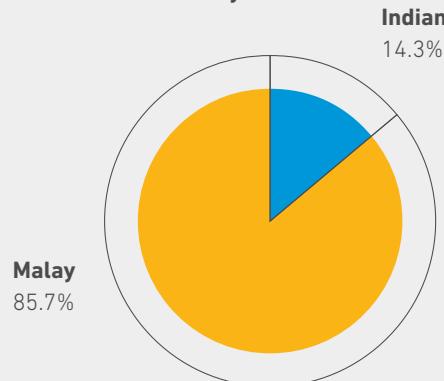

In its effort to promote boardroom diversity, the Nomination and Remuneration Committee has taken various steps to ensure that candidates are sought from various sources as part of its recruitment exercise. The experience and background of the respective Board members are described in their profiles as set out on page 76 to 85 of this Annual Report.

The Board is supportive of gender and ethnic diversity and the following diagrams depict a summary of Board diversity in Media Prima Berhad in terms of age group, gender diversification and ethnicity as at 31 December 2020:-

REMUNERATION

The Group has established a formal and transparent procedures for developing policy on executive remuneration and for fixing the remuneration package of individual director. The objective of the Group's policy on directors' remuneration is to attract and retain directors of the calibre needed to manage the Group successfully.

The Nomination and Remuneration Committee, carries out the annual review of the overall remuneration policy for Executive Director where recommendations are submitted to the Board for approval. The remuneration for Executive Director is structured to link rewards to corporate and individual performance. It is nevertheless, the ultimate responsibility of the Board to approve the remuneration of this director.

The determination of the remuneration packages of Non-Executive Directors (whether in addition to or in lieu of their fees as directors), is a matter for the Board as a whole, subject to approval of shareholders at the Annual General Meeting. Each individual director would abstain from the Board's decision on his or her own remuneration to avoid any conflict of interest.

Remuneration Package for Executive Director

The remuneration package of the Executive Director is as follows:-

i. Basic Salary

The Nomination and Remuneration Committee recommends the basic salary (inclusive of statutory employer contributions to the Employee Provident Fund) for the Executive Director, taking into account the performance of the individual, the inflation price index and information from independent sources on the rates of salary for similar positions in selected group of comparable companies.

ii. Performance Bonus

The Group operates a performance based bonus scheme for all employees, including the Executive Director. The criteria for the scheme is dependent on the achievement of KPI set for the Group's business activities as measured against targets, together with an assessment of each individual's performance during the period. Bonus payable to the Executive Director is reviewed by the Nomination and Remuneration Committee and approved by the Board.

iii. Fixed Allowance

The Executive Director is entitled for fixed allowances.

iv. Benefits-in-Kind

The Executive Directors is entitled to other customary benefits such as Group Hospitalisation and a driver.

Remuneration Package for Non-Executive Directors

Non-Executive Directors are paid annual fees and attendance allowance for each Board meeting attended. They are also entitled for Group Hospitalisation and Surgical Insurance.

Directors of Media Prima Berhad are also covered under a Directors and Officers Liability Insurance Policy against any liability incurred by them in discharging their duties while holding office as directors of the Group. The directors contribute partially for the payment of the insurance premium.

Board papers are circulated on a timely basis, at least five (5) days in advance of the meeting to enable the members to have sufficient time to review the papers prepared. Board papers are comprehensive and encompass all aspects of the matters being considered, enabling the Board to look at both the quantitative and qualitative factors so that informed decisions are made. The Board papers supplied to the directors include quarterly performance reports of the Group, corporate proposals, Group's risk profiles, information on operational and financial issues, updates on Group's corporate social responsibility, business forecasts and outlook and Circular Resolutions passed.

A Board Charter had been established with the objectives to ensure that all Board members are aware of their duties and responsibilities, the various legislations and regulations affecting their conduct and that the principles and practices of good corporate governance are applied in all dealings by Board members individually and/or on behalf of the Group. The Board Charter outlines processes and procedures for the Board and its committees in discharging their stewardship effectively and efficiently.

Media Prima's Board Charter sets out the board's strategic intent, authority and terms of reference and serves as a primary source of reference and induction literature. In addition, the Board Charter outlines the requirements, roles and responsibilities of the Board, Board Committees and individual Directors, in line with Media Prima's efforts to promote the highest standards of corporate governance. To ensure that it remains relevant, the Board Charter is reviewed every three years or as change arises to ensure the Company remains at the forefront of best practices in governance. The Board Charter is available at Media Prima Website at www.mediaprime.com.my.

Nomination and Remuneration Committee

The Nomination and Remuneration Committee was established on 14 May 2015 and is chaired by Datuk (Dr) Syed Hussian bin Syed Junid. The Committee had held five (5) meetings in 2020 namely on 24 February 2020, 26 February 2020, 24 August 2020, 16 November 2020 and 8 December 2020 and members' attendance is as follows:-

| No. | Director | Attended / Held | Attendance |
|-----|--|-----------------|------------|

| 5. | Tan Sri Dato' Seri Utama Haji Ismail bin Haji Omar (<i>Resigned as Member on 3 April 2020</i>) | 1/2 | 50% |

The Nomination and Remuneration Committee recognises the importance of an appropriate balance and diversity of knowledge, skills, backgrounds, experience, professional qualifications and gender in building an effective Board. It has established policies, criteria and a clear methodology in accordance with its Terms of Reference which can be found in the Board Charter.

Key transactions deliberated and approved by the Board during NRC meetings in 2020 include:

- i. Annual review of the list/composition of Directors for the MPB Group of Companies;
- ii. Nomination/appointment of Directors;
- iii. Proposed renewal of contract and remuneration structure for Senior Management;
- iv. Key Performance Indicator (KPI) achievements for the year of 2019;
- v. KPI Scorecard framework 2020 for Senior Management; and
- vi. Board Effectiveness Evaluation exercise.

The Board has decided that the disclosure of the senior management's individual remuneration would not be in the best interest of the company to support the company's efforts to retain key senior management and due to sensitivity and security concerns.

MCCG'S PRINCIPLE B - EFFECTIVE AUDIT & RISK MANAGEMENT

AUDIT COMMITTEE

The Audit Committee was established on 19 August 2003 and is currently chaired by Encik Mohd Rashid bin Mohd Yusof who is a Chartered Accountant with the Malaysian Institute of Accountants ("MIA") and a Fellow of the Association of Chartered Certified Accountants ("ACCA") United Kingdom. The Board believes that the current composition has the required experience and knowledge for the roles of Audit Committee.

The Audit Committee comprises of three (3) Independent Non-Executive Directors and no alternate director is appointed as member of the Audit Committee.

The External Auditors Policy prescribes that the Audit Committee is responsible to assess, review and monitor the performance, suitability and independence of the External Auditors and make recommendation on the appointment and removal of the External Auditors to the Board of Directors.

The Group's External Auditors Policy requires that any former key audit partner shall observe a cooling period of at least two (2) years before being appointed as a member of the Audit Committee.

A detailed report on the Audit Committee comprises of its composition, terms of reference and summary of 2020 activities can be found on page 118 to 123 of this Annual Report.

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK

The Board acknowledges its responsibility for the Group's system of internal controls and risk management and for reviewing the effectiveness of these systems to ensure compliance with the applicable laws and regulations, as well as internal procedures and guidelines.

The Board is assisted by the Risk Management Committee in the oversight and its management of all identified risks. The Risk Management Committee is currently chaired by Puan Lydia Anne Abraham.

The Risk Management Committee meets quarterly to ensure that the accountability for managing identified significant risks is clearly assigned and that any identified risks affecting the Group are being addressed, managed and mitigated on an ongoing basis. The Risk Management Committee also reviews the risk management framework to ensure that it remains relevant for use and monitors the effectiveness of risk mitigation plans for the management and controls of the key risks.

The Enterprise-wide Risk Management ("ERM") framework practiced by the Group is largely benchmarked against the ISO 31000:2018 Risk Management Guidelines. The Board, from time to time, reviews the framework to facilitate a continuous and iterative process which leads to the enhancement of risk awareness across the organisation. The Enterprise-wide Risk Management framework enables the subsidiaries, operating units and support functions to exercise a consistent approach for risk identification and institutes a common platform to deliberate and manage risks.

Further details of the activities undertaken by the Risk Management Committee during the year are set out in the Risk Management Committee Report in page 124 to 126 of this Annual Report.

The Group's Internal Control

The Board is ultimately responsible for the adequacy and integrity of the Group's internal control system. The effectiveness of system of internal controls of the Group is reviewed by the Audit Committee during its quarterly meetings. This review covers the financial, operational and compliance controls as well as the process for the identification, evaluation and management of the significant risks faced by the Group.

A detailed report on the nature and scope of risk management and internal control in reviewing the adequacy and effectiveness of risk management and internal control of the Group during the financial year 2020 is outlined on page 110 to 117 of this Annual Report.

The internal audit function within the Group is carried out by the Group Corporate Governance, Risk Management and Integrity Department. The department is led by the Group General Manager, Group Corporate Governance, Risk Management and Integrity who reports directly to the Audit Committee. The Group Corporate Governance, Risk Management and Integrity Department checks for compliance with statutory/regulatory requirements, internal policies and procedures and review the work processes/ procedures for efficiency and effectiveness.

All internal audit activities during the financial year were conducted by the Group Corporate Governance, Risk Management and Integrity Department. The details of the Department's activities are presented in page 120 to 123 of this Annual Report.

Statement on Risk Management and Internal Control

THE BOARD OF MEDIA PRIMA BERHAD IS PLEASED TO PRESENT THE STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL. THE STATEMENT HIGHLIGHTS THE KEY FEATURES OF THE RISK MANAGEMENT AND INTERNAL CONTROL OF THE GROUP FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2020.

A. RESPONSIBILITY

The Board acknowledges its responsibility to adopt sound risk management practices to safeguard Media Prima Berhad's business interest from risk events that may impede achievement of business strategies and action plan, enable value creation and process improvement.

The Enterprise-wide Risk Management ("ERM") framework practiced by the Group is largely benchmarked against the ISO 31000:2018 Risk Management Guidelines. The Board, from time to time, reviews the framework to facilitate a continuous and iterative process which leads to the enhancement of risk awareness across the organisation. The Enterprise-wide Risk Management framework enables the subsidiaries, operating units and support functions to exercise a consistent approach for risk identification and institutes a common platform to deliberate and manage risks.

Sound internal control system is a vital process developed to ensure effective and efficient operation, provide reliable and relevant reporting, and comply with applicable laws and regulations.

The Group has in place a continuous, proactive and systematic control structure and process for identifying, evaluating and managing significant risks pertinent to the achievement of the Group's overall corporate objectives. The control structure and process which has been established throughout the Group is updated and reviewed from time to time to suit the changes in the business environment.

The Group implements the three (3) line of defence concept:-

| | | |
|--------------------|--|---|
| First line | Risk taking units (business units and departments) | Manage the day-to-day management of risks inherent in its business activities. |
| Second line | Risk control unit (Risk Management Unit) | Responsible for setting the risk management framework, developing tools and methodologies. |
| Third line | Independent assurance unit (Corporate Governance Unit) | Provides independent assurance of the effectiveness of the risk management process and effectiveness of the first and second line of defence. |

B. CONTROL ENVIRONMENT AND ACTIVITIES

1. Key Control Structure of the Group

Media Prima Berhad has inculcated that managing risk is everyone's business. The whole Group comes together to manage risks in a successful and cost-efficient manner within the following key controls:-

i. Board of Directors

The Board acknowledges its overall responsibility in the establishment and oversight of the Group's risk management and internal control within the Group and is constantly keeping abreast with developments in the areas of risk and governance.

The Board meets at least quarterly, and more frequently when required, to review and evaluate the Group's operations and performance and to address key policy matters. The Group Managing Director leads the presentation of Board papers and provides comprehensive explanation over pertinent issues.

The prerequisite to decisions made in the meeting is the thorough deliberation and discussion by the Board, together with recommendations and feedback from management. In addition to quarterly financial results, corporate proposals, Group's Risk Profile and progress reports on business operations are also tabled at the Board's quarterly meetings.

Other Board Committees are also established to assist the Board in performing its oversight function namely the Audit Committee, the Nomination and Remuneration Committee, the Risk Management Committee and the Option Committee. Specific responsibilities have been delegated to these Board Committees, all of which have formalised terms of reference accessible via the Board Charter which is available on the Company's official website at www.mediaprima.com.my. These Committees have the authority to examine all matters within their scope and report to the Board with their recommendations.

At the helm of the organisation, the Board is ultimately responsible for the overall management of risks and internal control. The Board through the Risk Management Committee and Audit Committee maintains overall responsibility for risk and control oversight respectively, within the Group.

While the Board, Risk Management Committee and Audit Committee provide oversight, the responsibility for managing risks and internal control appropriately lies with Senior Management through the following activities:-

- Providing leadership and direction to business units;
- Providing oversight responsibilities of reviewing financial information and assessing the effectiveness of the Group's internal control environment;
- Dissecting risk and internal control issues highlighted by the Group Corporate Governance, Risk Management and Integrity Department.
- Understanding the inherent risks in each business platform;
- Implementing Risk Management Framework by understanding the risk measurement, monitoring and mitigation strategy adopted, as well as the impact of on-going action plans to meet objectives; and
- Assessing the performance and state of internal controls of operating companies within the Group.

ii. Risk Management Committee

The Board delegates the responsibility of reviewing the risk management systems and to ensure the effectiveness of the Group's Risk Management Framework to the Risk Management Committee. The Risk Management Committee updates the Board on the significant changes that affect the risk profile of the Group. The Risk Management Committee's responsibilities as stipulated in the Board Charter include:-

- Reviewing and ensuring adequacy of risk management framework;
- Reviewing risk exposures; and
- Ensuring that infrastructure, resources and systems are in place for risk management activities.

Further details of the activities undertaken by the Risk Management Committee during the year are set out in the Risk Management Committee Report on pages 124 to 126 of this Annual Report.

iii. Audit Committee

The Board is also supported by the Audit Committee with the main responsibility of providing independent assessment on the adequacy and reliability of the risk management processes and internal control, as well as compliance with policies and regulatory requirements.

The Audit Committee comprises of three (3) Independent Non-Executive Directors who are highly experienced and whose knowledge, background and judgement are invaluable to the Group. The Audit Committee has unimpeded access to both the Internal and External Auditors and has the right to convene meetings with the auditors without the presence of the Executive Directors and Management.

The Audit Committee reviews the work of the Internal and External Auditors, their findings and recommendations to ensure that it meets the necessary level of assurance with respect to the adequacy of the internal controls.

Statement on Risk Management and Internal Control

The Audit Committee meets at least on a quarterly basis and minutes of the Audit Committee meeting are then tabled to the Board. Details of the activities undertaken by the Audit Committee during the year are set out in the Audit Committee Report on pages 118 to 123 of this Annual Report.

iv. Operating Units

At the forefront, operating units are responsible for the identification and management of risks within its operations. The operating units are also responsible to comply with approved frameworks, policies, guidelines and procedures on all daily activities.

Management Committees

Management Committees are established to ensure that the Group's interests are adequately protected in arriving at important business/operational decisions. The Committees include the Programme Committee, Newsprint Committee, Procurement Committee, Tender Committee, Information Communications Technology Steering Committee and Humanitarian Fund Committee which all have clearly defined terms of reference.

Senior Management Meeting

Senior Management meetings are held on a monthly basis to formulate strategies on an on-going basis and to address issues arising from changes in both external business environment and internal operating conditions. The meeting is chaired by the Group Managing Director.

2. The Group's Control Environment

The Board is committed to maintaining a strong control structure and environment for the proper conduct of the Group's business operations. The Group's control environment comprises of the following components which have been in place throughout the financial year:-

Risk Management Function

Media Prima Berhad's risk management is driven based on a principle where risks are mitigated by calibrating risks to acceptable levels whilst achieving the organisation's business plans and goals.

At Media Prima Berhad, risk management is integrated within MPB's strategy planning process and its ongoing improvement in identifying, analysing, quantifying, mitigating and monitoring of all significant risk areas. This remains a vital focus of the Board in building a successful and sustainable business.

The Company has a structured risk management reporting line to ensure significant risks are escalated to the appropriate levels. The Risk Management Committee ("RMC") role is to provide oversight and extensive discussion on risk management matters at the Board level. The RMC reviews and assesses the adequacy of these risk management policies and ensures infrastructure, resources and systems are emplaced for risk management.

The Board and RMC is supported by the Group Corporate Governance, Risk Management and Integrity Department ("GCGRI") in discharging their risk management responsibilities. Together with the various business units, GCGRI facilitates the risk review exercise across the Group to identify, manage and report the significant risks faced by the company to the RMC and ultimately to the Board. GCGRI is also responsible for ensuring that the risk management framework is effectively implemented and that risk registers are maintained by the respective business platforms.

Risk Management Framework

Media Prima Berhad's risk management framework encapsulates an on-going process of identifying, assessing, controlling, monitoring and reporting material risks affecting the achievement of Media Prima Berhad's business objectives. Tailored based on ISO 31000:2018 Risk Management Guidelines, the framework sets out the risk management governance and infrastructure, risk management processes and control responsibilities.

The following principles guide the business platforms and departments in managing risks:-

- Risks can be managed, but cannot be totally eliminated;
- Risks are aligned with, and driven by, business values, targets and objectives;
- Risks ownership lies with the Chief Executive Officers of the business platforms and Heads of Department of the Business Units;
- Risks on material matters are highlighted to Risk Management Committee with constant engagement on development of risks controls and mitigation processes; and
- Risks management processes are integrated with other processes including budgeting, planning and business development.

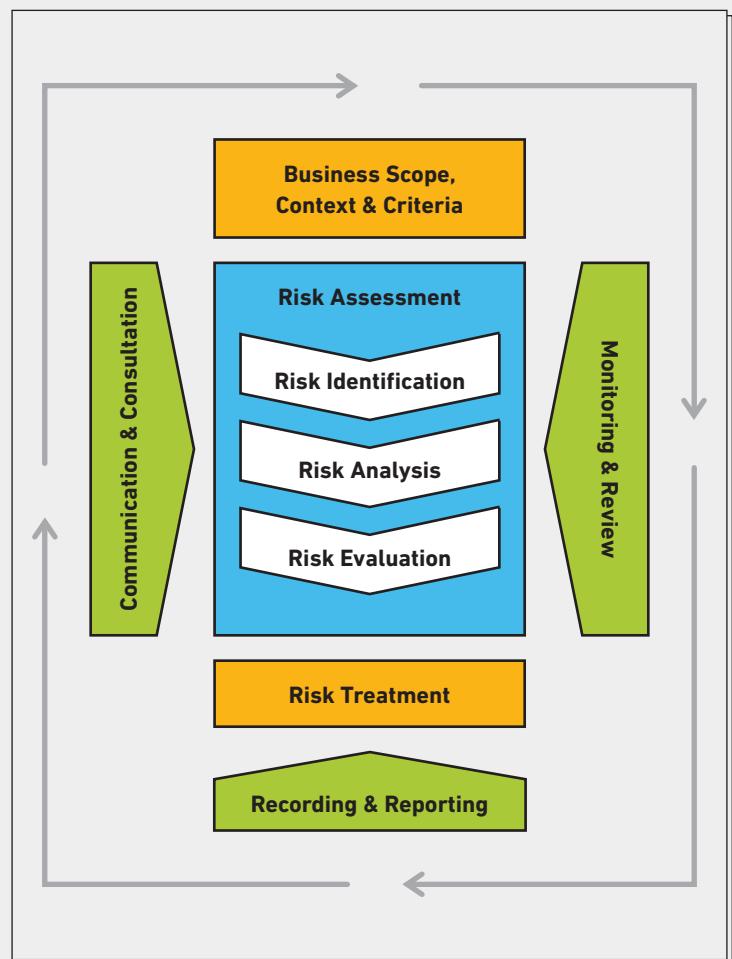

Risk Management Process

A structured risk management process has been formulated to ensure that significant risks are identified and treated accordingly. Group Corporate Governance, Risk Management and Integrity Department ("GCGRI") is responsible in coordinating risk review exercises and preparing quarterly reports on the company's risk management activities which include financial, operational, compliance, information technology, publishing & broadcasting management, internal controls and risk management systems.

The risk review exercise encompasses the following activities:-

- Identifying key risks affecting business objectives and strategic plans.
- Defining a common understanding of risk classification tolerance through quantification, whenever possible, and development of criteria matrix that reflect the impact and likelihood of the risk materialising.

- Evaluating adequacy of existing controls and developing additional plans, if required, to treat these risks.
- Monitoring effectiveness of measures taken to mitigate risks.
- Seizing prospects through evaluation of 'opportunity risks' so that management proactively realises opportunities.
- Identifying changes to risks or emerging risks and promptly bringing these to the attention of the Board where appropriate.

Risk Management Process

The outcomes from the risk review exercise and other risk management activities will be documented and presented to the RMC and ultimately to the Board. Details of the risks and mitigation actions reported and deliberated in the quarterly RMC Meeting are set out in the Risk Management Committee Report on pages 124 to 126 of this Annual Report.

Statement on Risk Management and Internal Control

Internal Audit Function

- The Group Corporate Governance, Risk Management and Integrity (GCGRI) Department includes an in-house Internal Audit function that was established to provide independent assurance of the adequacy of risk management, internal control and governance systems within the Group and the establishment is in accordance with paragraph 15.27 of Bursa Malaysia Main Market Listing Requirement. The GCGRI Department's activities are guided by an Internal Audit Charter which is approved by the Audit Committee. The Audit Charter defines the department's roles, responsibilities, accountability and scope of work.
- The GCGRI Department undertakes regular reviews of the Group's operations and its system of internal controls. The GCGRI Department reviews the Group's activities based on an audit plan approved by the Audit Committee. The audit plan is developed based on the risk profiles of the respective business entities of the Group identified in accordance with the Group's Risk Management Framework and feedbacks from the Senior Management and the Board.
- Internal audit findings are discussed at Management level and actions are agreed in response to the GCGRI Department's recommendations. The progress of implementation of the agreed actions is being monitored by the GCGRI Department through follow up reviews in which implementation status are presented to the Audit Committee on a quarterly basis.
- The GCGRI Department has a clear line of reporting to the Audit Committee and the Audit Committee determines the remit of the Internal Audit function as conforming to Practice 10.1 of the MCCC 2017. Thus, the GCGRI Department is independent of the activities being audited and is performed with impartiality, proficiency and due professional care.
- The GCGRI Department adopts the standards and principles outlined in the International Professional Practices Framework of the Institute of Internal Auditors.
- Details of the activities undertaken by the GCGRI Department during the year are set out in the Audit Committee Report on pages 118 to 123 of this Annual Report.

Annual Business Plan and Budget

Annual business plans and budgets are prepared by the Company's business units, and are reviewed and approved by the Board. The performance of each business unit is assessed against the approved budget, with explanation on significant variances provided to the Board on a periodic basis allowing timely responses and corrective actions to be taken to mitigate risks.

Documented Policies and Procedures

- The process of development and revision of policies and procedures in MPB is governed by the MPB Policy Management Framework to ensure documents are thoroughly reviewed by the relevant stakeholders, in compliance with the Malaysian laws and regulations and appropriately approved by the authorised authority. The monitoring mechanism is also embedded in the framework to ensure the documents are still relevant and reflect the current business environment.
- During the year under review, 3 existing policies were reviewed and 1 new policy was established to fit the requirements of the current business operations whilst ensuring compliance with the applicable laws and regulations. Details of the revised and newly established policies are as follows:

Revised Policy

- MPB Code of Ethics
- Group Legal Policy
- Group Communications Policy

New Policy

- Group Anti-Corruption Policy

Group Human Resources Policy

- The Group has in place, a comprehensive Human Resources Policy approved by the Board that sets the tone of control consciousness and employee conduct. There is also in place, supporting procedures for the reporting and resolution of actions contravening these policies.
- There are proper guidelines within the Company regarding employment and dismissal, formal training programmes as well as other relevant procedures in place to ensure that staff are competent and adequately guided in carrying out their responsibilities.
- The policy aims to provide guidelines for the acceptable practice of the Group's Human Resource and to state the Group's stance on matters pertaining to Human Resources matters.

Key Performance Indicators (KPI)

- The Group has in place a Performance Management System, which is linked to and guided by the Key Performance Indicators (KPIs) and accountability.

- Key Performance Indicators helps in outlining and evaluating progress towards accomplishing organisational goals. KPIs are quantifiable, established and agreed to beforehand. It reflects the critical success factors of an organisation and also to enhance a department's performance.
- The Performance Management Framework focuses on aligning the Group direction by measuring the revenue growth, operational profit, and quality of revenue to ensure growth towards desired direction.

Limits of Authority

- The Limits of Authority (LOA) stipulates the approving authority of key personnel pertaining to the strategic and operational matters such as policy approval, budget, capital and operating expenditures, human resources matters and execution of contracts.
- During the year, the Group has established the Limits of Authority (LOA) for Print Towers Sdn Bhd (PTSB), a subsidiary of The New Straits Times Press (Malaysia) Berhad.

Code of Ethics

- The Code of Ethics is communicated to all employees and compliance with this Code is mandatory. The Code serves as guiding principles to assist employees to practice high ethical business standards, and it provides guidance on the way business and duties are governed in an efficient, effective and fair manner.
- The No Festive Gift Policy is enforced to complement the existing Employee Code of Ethics. This policy aims to assist employee in conducting business in an environment which is free from conflict of interest, biasness and favouritism.

Anti-Fraud Prevention Manual and Whistleblowing Policy

The Group has established a Fraud Prevention Manual consisting of the Anti-fraud Policy and Whistleblowing Policy. The manual builds into the Group's culture, abhorrence for fraud, and that any conduct of this nature will not be tolerated. It also promotes a transparent and open environment for fraud reporting within the Group whilst protecting the identity of the person who lodges the report.

Anti-Corruption Policy

The Group has established an Anti-Corruption Policy to ensure that the Company's businesses do not participate in corrupt activities for its advantage or benefits. The policy is guided by the Guidelines on Adequate Procedures issued pursuant to section 17A(5) of the Malaysian Anti-Corruption Commission Act 2009 and can be accessed through the Company's website.

Supplier Code of Conduct

- The Board expects all Media Prima Berhad's suppliers to observe high ethical business standards of honesty and integrity and to apply these values to all aspects of their business and professional practices.
- A Supplier Code of Conduct is established in which the Group's minimum expectations on the supplier vis-à-vis legal compliance and ethical business practices are stipulated.
- Suppliers who want to conduct and/or continue conducting business with MPB and its group of companies is required to register with Media Prima Berhad via the Supplier e-Registry ("SUPeR").
- The Code applies to all suppliers, vendors, contractors and any other persons doing business with the Group.

Group Information Technology Initiatives

The Board acknowledges the importance of leveraging on Information Technology ("IT") to promote the effectiveness and efficiency of business operations.

The Group Information Technology Department is continuously reviewing the Group IT Security Policy and Procedures and regularly conducts IT security assessments in order to enhance the cybersecurity defense mechanisms of the group. Staff awareness is also emphasised to educate the staff on their responsibilities to protect the Group's information asset. Several initiatives were undertaken in 2020 such as implementation of a centralised system to manage Media Prima IT assets, implementation of high-availability firewall and enhancement of remote access service to facilitate employees' Work From Home (WFH) arrangement.

Business Continuity Management

Media Prima Berhad's Business Continuity Management (BCM) Framework aims to ensure availability of the Group's core products and services by developing recovery procedures to respond and recover from significant unexpected events which in return, minimising the impact of business disruption and financial losses. A pre-emptive planning in facing unforeseen events, which threaten to disrupt the organisation's value creating activities, is taken seriously by the Group to ensure an appropriate level of business resilience Group-wide. The Board and Management are responsible to ensure Group-wide implementation of sound BCM practices as part of prudent risk management.

Statement on Risk Management and Internal Control

The Group's BCM framework includes establishing and reviewing formal Business Continuity Plans (BCP), setting up core services infrastructure redundancies and alternate sites, creating BCP awareness to key personnel and ensuring testing is carried out periodically. During the year under review, the following initiatives and activities have been successfully rolled out:-

| Initiative/ Activities | Purpose |
|------------------------|--|
| BCP Documents Update | Business Continuity Plan (BCP) documents were reviewed to ensure key people and recovery procedures reflect the current MPB's business environment. |
| Crisis Communications | Enhanced BCP Crisis Communications Procedure to include pandemic response plan based on announcement of movement control order (MCO) by the Government. |
| Awareness Programmes | Awareness sessions are conducted annually to update and ensure key employees are aware of the Company recovery strategies. In 2020, the awareness sessions were focused on strategy for pandemic response to the Management, BCP Committee and critical operational personnel. |
| Simulation/ Testing | The ongoing pandemic response plan had been incorporated as the scope of the simulation that covers Media Prima Berhad's core services, support services, technical testing and crisis communications. |

Business Continuity Management team for the Group was established to ensure that business is able to continue its operations in the event a place of business is affected by either disaster, disruption or crisis whilst safeguarding the interest of its key stakeholders, Group's reputation, brands and value-creating activities.

Related Party Transaction

The Board acknowledges the importance to have proper policies and procedures governing Related Party Transaction ("RPT") as part of its corporate obligations. The Group has a duty to disclose in its financial statements, the nature of the related party relationships, the identities of the related parties, as well as the types of transactions and the elements of the transactions necessary for a comprehensive and transparent understanding of the financial statements.

The policy has been established to provide guidelines on proper mechanism in identifying, monitoring, and reporting of RPT based on statutory requirement and to promote better understanding of RPT and prescribe the relevant departments' responsibilities in identifying and maintaining proper records of RPT.

C. CONTROL ENVIRONMENT AND ACTIVITIES

The other key elements of the Group's internal control system include:-

- Monthly reporting of actual results and review against budget, with major variances being followed up and management actions taken, where necessary. The financial results are reviewed by the Board with Management on a quarterly basis, to enable both parties to gauge the Group's achievement of its annual targets and review any key financial and operational issues. The Board reviews regular reports from the Management on the key operating statistics, as well as legal and regulatory matters.
- Regular and comprehensive information provided to Management, covering financial performance and key performance indicators such as advertising market share, television viewership, programme ratings and utilisation of resources.
- Adequate insurance and physical safeguards on major assets are in place to ensure the Group's assets are sufficiently covered against any mishap that could result in material loss for the Group. An annual policy renewal exercise is undertaken by the Management to review the coverage of Group's assets against the prevailing market price for the similar assets.
- Access to company's Intranet System (i.e PeopleConnect) for updated and revised Policies and Procedures of the company, Code of Ethics, Limits of Authority and other information related to the company.
- Monitoring of performance including discussion of any significant issues at Senior Management meetings.

Awareness sessions on Intellectual Property (IP) had been conducted to educate on the importance of protecting the Group's intellectual property.

D. ADEQUACY OF RISK MANAGEMENT & INTERNAL CONTROL

The Board confirms that it has reviewed the effectiveness of the risk management and internal control framework and considers Media Prima Berhad's system of internal control as adequate in safeguarding the shareholders' interests and assets of the Group. The Board also confirms that there is an effective ongoing process for the identification, evaluation and management of significant risks in the Group and is committed to ongoing review of the entire control, compliance and risk management controls.

The Board believes that the development of the system of internal controls is an on-going process and has taken steps throughout the year to improve its internal control system and will continue to do so.

The Group Managing Director and the Acting Group Chief Financial Officer had assured the Board that the Group's risk management and internal control system is operating adequately and effectively in all material aspects, based on the risk management and internal control system of the Group.

Where weaknesses and shortcomings were noted, management has taken appropriate actions to address them. All business platforms and the Group Corporate Governance, Risk Management and Integrity Department (GCGRI) regularly review the processes to ensure the effectiveness of the existing controls. GCGRI monitors the control environment and business processes

in order to ensure that the risk treatments continue to be aligned with the Group's strategic objectives.

The Board is satisfied that the system of risk management and internal control was generally satisfactory. Based on the assessment of the Group's internal control system for the year under review and up to the date of approval of this statement, no significant control failures or weaknesses that would result in material loss, contingency or uncertainty requiring disclosure in the Group's annual report were noted.

E. REVIEW OF STATEMENT BY EXTERNAL AUDITORS

As required by Paragraph 15.23 of the Bursa Malaysia Securities Berhad Main Market Listing Requirements, the external auditors have reviewed this Statement on Risk Management and Internal Control. Their limited assurance review was performed in accordance with Audit and Assurance Practice Guide ("AAPG") 3 2018 issued by the Malaysian Institute of Accountants. AAPG 3 2018 does not require the external auditors to form an opinion on the adequacy and effectiveness of the risk management and internal control systems of the Group.

The External Auditors have reported to the Board that nothing has come to their attention that causes them to believe that the statement is inconsistent with their understanding of the process adopted by the Board in reviewing the adequacy and integrity of risk management and internal controls system of the Group.

E. RISK MANAGEMENT COMMITTEE REPORT

- Risk Management Framework - The framework adopted by the Group incorporated the latest risk management processes on a coordinated and integrated basis. To keep the framework relevant in order to support the ever evolving business, the Group will review the framework on a needed basis.
- The framework is designed to realise the Group's objectives, set forth in four (4) categories:
 - Corporate - High level goals aligned with and supporting the Group mission.
 - Operations - Effective and efficient use of the Group resources.
 - Reporting - Reliability of reporting.
 - Compliance - Compliance with applicable laws and regulations.

C. MEETINGS

- To form a quorum in respect of a meeting of the Committee shall be a minimum of three (3) members.
- Meeting of the Committee shall be held at least four (4) times per year.

Risk Management Committee Report

- Review of Corporate Risks
 - At corporate level, the risks and mitigations deliberated by the Committee is centred around the following risk areas:

| | |
|---|--|
| Business Sustainability  | Continuation or rapid unexpected movement control order (MCO, EMCO, CMCO etc) by the Government leads to interruption in business activities resulted in loss of potential revenue. |
| Market Expectation  | New normal changes the routine of people's behaviour and economic cycle. Challenges in constructing and delivering best content (products) is key to stay relevant to the targeted audience. |
| Transformation & Innovation  | Focus and experiment in new business model is crucial to ensure ability in competition and protecting the ecosystem to grow market share. |
| Operations Design  | The dynamic environment of digital evolution require drastic and continuous improvement in business processes for better optimization to deliver quality products and services. |
| People  | Rationalization of manpower provide opportunity to learn new skill and knowledge to create entrepreneur mindset for future business challenges. Safety of people is critical during the Pandemic crisis to ensure continuity in critical operations. |
- Review of Business Continuity Management
 - On a regular basis, the RMC will deliberate the risks relating to business disruption and discuss on the mitigation strategy to ensure the core business operations are able to operate in the event of a disaster. The mitigation strategy is translated into Business Continuity Plan ("BCP") and is tested annually to assess the readiness and effectiveness. The results of the testing will be presented to the RMC.
 - As part of the Group ongoing simulation programme, the BCP is continuously being enhanced and tested. In this year's BCP simulation, the Group has incorporated the Pandemic environment as the simulation assessment to ensure critical operations are protected in the BCP simulation scope.
- Review of Risks and Risk Controls
 - On quarterly basis, top risks of the Group were reported and reviewed by the senior management. Key and material risks were then escalated to RMC for deliberation of the controls and policy in place to mitigate or treat these risks.
- Review of Corruption Risks
 - On an annual basis, corruption risks of the Group were assessed and reviewed to continuously improve existing controls and ensure that they are adequate. Key and material risks were then escalated to RMC for deliberation of controls and policy to mitigate or treat these risks.

Directors' Report

DIRECTORS' REMUNERATION

Details of Directors' remuneration are set out in Note 10 to the financial statements.

OTHER STATUTORY INFORMATION

(a) Before the financial statements of the Group and of the Company were prepared, the Directors took reasonable steps:

- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- (ii) to ensure that any current assets, other than debts, which were unlikely to realise in the ordinary course of business including the values of current assets as shown in the accounting records of the Group and of the Company had been written down to an amount the current assets which they might be expected so to realise.

(b) At the date of this report, the Directors are not aware of any circumstances:

- (i) which would render the amounts written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

(c) At the date of this report, there does not exist:

- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liability of any other person; or
- (ii) any contingent liability of the Group or of the Company which has arisen since the end of the financial year except as disclosed in Note 33 to the financial statements.

(d) No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Group or of the Company to meet their obligations when they fall due.

(e) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements misleading.

(f) In the opinion of the Directors:

- (i) the results of the Group's and of the Company's operations during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature except as disclosed in the financial statements; and
- (ii) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group or of the Company for the financial year in which this report is made.

AUDITORS' REMUNERATION

Details of auditors' remuneration are set out in Note 8 to the financial statements.

The financial statements have been approved for issuance in accordance with a resolution of the Board of Directors on 11 March 2021.

2 SIGNIFICANT ACCOUNTING POLICIES

Unless otherwise stated, the following accounting policies have been applied consistently in dealing with items that are considered material in relation to the financial statements.

(a) Basis of preparation

The financial statements of the Group and Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have been prepared under the historical cost convention, except as disclosed in this summary of significant accounting policies.

The financial statements are presented in Ringgit Malaysia ("RM") and all values are rounded to the nearest thousand (RM'000) except when otherwise indicated.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group's and Company's accounting policies. Although these estimates and judgement are based on the Directors' best knowledge of current events and actions, actual results may differ. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

- (a) Basis of preparation (continued)
 - (i) Amendments to published standards that are effective and applicable to the Group and Company

The Group and Company have applied the following amendments for the first time for the financial year beginning on 1 January 2020:

- Amendments to Reference to the Conceptual Framework for Financial Reporting (Revised 2018)
- Amendments to MFRS 101 and MFRS 108 'Definition of Material'
- Amendments to MFRS 3 'Definition of a Business'
- Amendments to MFRS 9, MFRS 139 and MFRS 7 'Interest Rate Benchmark Reform'

The amendments listed above did not have any significant impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

- (ii) Standards early adopted by the Group and Company

The Group and Company have elected to early adopt Amendments to MFRS 16 'COVID-19 Related Rent Concessions' for the first time in the financial statements for the financial year 2020; with the date of initial application of 1 January 2020, which resulted in changes in accounting policies.

On adoption of the MFRS 16 amendment, the Group and Company are not required to assess whether a rent concession that occurs as a direct consequence of the COVID-19 pandemic and meet specified conditions is a lease modification.

The Group and Company account for such COVID-19-related rent concession as a variable lease payment in the period(s) in which the event or condition that triggers the reduced payment occurs.

In accordance with the transitional provisions provided in the MFRS 16 amendment, the comparative information for 2019 was not restated and continued to be reported under the previous accounting policies in accordance with the lease modification principles in MFRS 16. These amendments had no impact to the retained earnings on 1 January 2020.

The impact of the early adoption is disclosed in Note 14(d) to the financial statements.

- (iii) Amendments to published standards have been issued but not yet effective and applicable to the Group and Company

A number of amendments to standards are effective for financial year beginning after 1 January 2021. None of these are expected to have a significant effect on the Group and Company.

- Annual Improvements to MFRS 9 'Fees in the 10% test for derecognition of financial liabilities' (effective 1 January 2022) clarifies that only fees paid or received between the borrower and the lender, including the fees paid or received on each other's behalf, are included in the cash flow of the new loan when performing the 10% test.

An entity shall apply the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

(a) Basis of preparation (continued)

(iii) Amendments to published standards have been issued but not yet effective and applicable to the Group and Company (continued)

- Amendments to MFRS 3 'Reference to Conceptual Framework' (effective 1 January 2022) replace the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework. The amendments did not change the current accounting for business combinations on acquisition date.

The amendments provide an exception for the recognition of liabilities and contingent liabilities should be in accordance with the principles of MFRS 137 'Provisions, contingent liabilities and contingent assets' and IC Interpretation 21 'Levies' when falls within their scope. It also clarifies that contingent assets should not be recognised at the acquisition date.

The amendments shall be applied prospectively.

- Amendments to MFRS 116 'Proceeds before Intended Use' (effective 1 January 2022) prohibit an entity from deducting from the cost of a property, plant and equipment the proceeds received from selling items produced by the property, plant and equipment before it is ready for its intended use. The sales proceeds should instead be recognised in the statement of comprehensive income.

The amendments also clarify that testing whether an asset is functioning properly refers to assessing the technical and physical performance of the property, plant and equipment.

The amendments shall be applied retrospectively.

- Amendments to MFRS 137 'onerous contracts—cost of fulfilling a contract' (effective 1 January 2022) clarify that direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as an allocation of other costs directly related to fulfilling contracts. The amendments also clarify that before recognising a separate provision for an onerous contract, impairment loss that has occurred on assets used in fulfilling the contract should be recognised.

The amendments shall be applied retrospectively.

- Amendments to MFRS 101 'Classification of liabilities as current or non-current' (effective 1 January 2023) clarify that a liability is classified as non-current if an entity has a substantive right at the end of the reporting period to defer settlement for at least 12 months after the reporting period.

A liability is classified as current if a condition is breached at or before the reporting date and a waiver is obtained after the reporting date. A loan is classified as non-current if a covenant is breached after the reporting date.

The amendments shall be applied retrospectively.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Basis of consolidation

(i) Subsidiaries

Subsidiaries are all entities (including special purpose entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. The existence and effect of potential voting rights are considered only when such rights are substantive when assessing control.

The amount due from subsidiaries of which the Company does not expect repayment in the foreseeable future are considered as part of the Company's investment in subsidiaries.

(ii) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting date as the Company.

Subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. In preparing the consolidated financial statements, intragroup balances, transactions and unrealised gains or losses are eliminated in full. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

The Group applies the acquisition method to account for business combinations. The consideration transferred for acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement and fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

In a business combination achieved in stages, the carrying value of the acquirer's previously held equity interest in the acquiree is remeasured at its acquisition date fair value and the resulting gain or loss is recognised in the statement of comprehensive income.

The excess of the consideration transferred, the amount of any Non-Controlling Interest ('NCI') in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group share of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the gain is recognised in the statement of comprehensive income. Refer to Note 2(e)(ii) for accounting policy on goodwill.

NCI is the equity in a subsidiary not attributable, directly or indirectly, to a parent. On an acquisition-by-acquisition basis, the Group measures any NCI in the acquiree either at fair value or at the NCI's proportionate share of the acquiree's identifiable net assets. At the end of reporting period, NCI consists of amount calculated on the date of combinations and its share of changes in the subsidiary's equity since the date of combination.

All earnings and losses of the subsidiary are attributed to the parent and the NCI, even if the attribution of losses to the NCI results in a debit balance in the shareholders' equity.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Basis of consolidation (continued)

(iii) Changes in ownership interest

When the Group ceases to consolidate because of a loss of control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in the statement of comprehensive income. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income ("OCI") in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in OCI are reclassified to profit or loss. Gains or losses on the disposal of subsidiaries include the carrying amount of goodwill relating to the subsidiaries sold.

(iv) Transactions with non-controlling interests

The Group applies a policy of treating transactions with non-controlling interests as transactions with equity owners to the Group. For purchases from non-controlling interests, the difference between any consideration paid and the relevant share of the carrying value of net assets of the subsidiary acquired is deducted from equity. For disposals to non-controlling interests, differences between any proceeds received and the relevant share of non-controlling interests are also recognised in equity.

(v) Associates

Associates are those corporations, partnerships or other entities in which the Group has significant influence, but which it does not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Significant influence is the power to participate in the financial and operating policy decisions of the associates but not the power to exercise control over those policies.

Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment losses.

The Group's share of its associates' post-acquisition profits or losses is recognised in the profit or loss, and its share of post-acquisition movements in reserves is recognised in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. If the Group's share of losses of an associate equals or exceeds its interest in the associate, the Group discontinues recognising its share of further losses. The interest in an associate is the carrying amount of the investment in the associate under the equity method together with any long-term interests that, in substance, form part of the Group's net investment in the associate. After the Group's interest is reduced to zero, additional losses are provided for, and a liability is recognised, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the statements of comprehensive income.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates and unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred.

Where necessary, in applying the equity method, adjustments are made to the financial statements of associates to ensure consistency of accounting policies with those of the Group.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Basis of consolidation (continued)

(v) Associates (continued)

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

Dilution gains and losses in associates are recognised in the statement of comprehensive income.

For incremental interest in an associate, the date of acquisition is the purchase date at each stage and goodwill is calculated at each purchase date based on the fair value of assets and liabilities identified. There is no "step up to fair value" of net assets previously acquired and the share of profits and equity movements for the previously acquired stake is recorded directly through equity.

On disposal of an investment, the difference between the net disposal proceeds and its carrying amount is charged/credited to the statement of comprehensive income.

(vi) Investment in subsidiaries in separate financial statements

In the Company's separate financial statements, investments in subsidiaries are stated at cost less accumulated impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in the statement of comprehensive income.

(c) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Cost also includes borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance costs are charged to the statement of comprehensive income during the financial year in which they are incurred.

Freehold land is not depreciated as it has an infinite life. Depreciation on assets under construction commences when the assets are ready for their intended use.

Depreciation on the other property, plant and equipment is calculated so as to write off the cost or valuation of the assets to their residual values on a straight line basis over the expected useful lives of the assets, summarised as follows:

| | |
|---|---------------|
| Buildings | 20 – 50 years |
| Plant and machinery | 4 – 25 years |
| Broadcasting, transmission and production equipment | 5 – 10 years |
| Office equipment, furniture and fittings | 3 – 10 years |
| Leasehold improvements and office renovations | 3 – 10 years |
| Motor vehicles | 5 years |
| Structures | 5 – 10 years |

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Property, plant and equipment (continued)

Residual values and useful lives of assets are reviewed, and adjusted if appropriate, at each financial position date.

At each financial position date, the Group and Company assess whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the asset is fully recoverable. A write down is made if the carrying amount exceeds the recoverable amount. See accounting policy Note 2(f) on impairment of non-financial assets.

Gains and losses on disposals are determined by comparing proceeds with carrying amounts and are included in the statement of comprehensive income.

(d) Investment properties

Investment properties comprise principally land and buildings held for long term rental yields or for capital appreciation or both, and are not occupied by the Group and Company.

Investment properties are stated at cost less accumulated depreciation and accumulated impairment losses. Investment property is depreciated on the straight line basis to allocate the cost to their residual values over their estimated useful lives.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Freehold land is not depreciated as it has an infinite life.

Depreciation on the other investment properties is calculated so as to write off the cost of the assets to their residual values on a straight line basis over the expected useful lives of 20 to 99 years.

On disposal of an investment property, or when it is permanently withdrawn from use and no future economic benefits are expected from its disposal, it shall be derecognised. The difference between the net disposal proceeds and the carrying amount is recognised in the statement of comprehensive income in the financial year of the retirement or disposal.

(e) Intangible assets

(i) Programmes and film rights

Programmes and film rights are stated at cost less accumulated amortisation and accumulated impairment losses, if any.

The programmes and film rights are recognised after they are contracted for, after receipt of materials and after approvals are obtained from the censorship authority. Cost comprises contracted cost and direct expenditure. Amortisation is calculated so as to write off the relevant portion of the cost of programmes and film rights which fairly represents its relevant attached rights, to match against the pattern of consumption of these programmes and film rights.

Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy Note 2(f) on impairment of non-financial assets.

(ii) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Intangible assets (continued)

(ii) Goodwill (continued)

Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the synergies of the business combination in which the goodwill arose identified according to the operating segment. See accounting policy Note 2(f) on impairment of non-financial assets.

(iii) Acquired outdoor concession rights and outdoor advertising rights

Acquired outdoor concession rights and outdoor advertising rights that have a finite useful life are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method to allocate the cost of concession rights and outdoor advertising rights over their respective concession lives of 2 to 17 years. Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy Note 2(f) on impairment of non-financial assets.

Acquired outdoor concession rights and outdoor advertising rights that have an indefinite useful life are assessed for any indication of impairment on an annual basis or where an indication of impairment exist. A write-down is made if the carrying amount exceeds the recoverable amount. See accounting policy Note 2(f) on impairment of non-financial assets.

(iv) Acquired publishing rights, brands and digital publishing

Acquired publishing rights, brands and digital publishing that have an indefinite useful life are assessed for any indication of impairment on an annual basis or where an indication of impairment exist. A write-down is made if the carrying amount exceeds the recoverable amount. See accounting policy Note 2(f) on impairment of non-financial assets.

(v) Computer software and software development costs

Costs that are directly associated with identifiable and unique software products controlled by the Group and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. Computer software recognised are amortised from the point at which asset is ready for use over their estimated useful lives, which does not exceed 3 years.

Research and development costs are charged to the statement of comprehensive income in the financial year in which they are incurred. Development costs previously recognised as an expense are not recognised as an asset in the subsequent financial year. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when the following criteria are fulfilled:

- (i) it is technically feasible to complete the intangible asset so that it will be available for use or sale;
- (ii) management intends to complete the intangible asset and use or sell it;
- (iii) there is an ability to use or sell the intangible asset;
- (iv) it can be demonstrated how the intangible asset will generate probable future economic benefits;
- (v) adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available; and
- (vi) the expenditure attributable to the intangible asset during its development can be reliably measured.

Capitalised development costs recognised as intangible assets are amortised from the point at which the asset is ready for use on a straight-line basis over its useful life, not exceeding 3 years.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Impairment of non-financial assets

Assets that have an indefinite useful life, for example, goodwill or intangible assets, are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

The impairment loss is charged to the statement of comprehensive income unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in profit or loss unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus reserve.

(g) Non-current assets held for sale

Non-current assets are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell if their carrying amount is to be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable.

(h) Trade and other receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Other receivables generally arise from transactions outside the usual operating activities of the Group and Company. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, where they are recognised at fair value plus transaction costs. Other receivables are recognised initially at fair value plus transaction costs.

The Group and Company hold the trade and other receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. See accounting policy Note 2(w)(iv) on impairment of financial assets.

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs are assigned to individual items of inventory on the basis of weighted average costs.

Cost comprises direct labour, materials, sub-contract costs and related expenditure. Costs of purchased inventory are determined after deducting rebates and discounts.

Net realisable value is the estimate of the selling price in the ordinary course of business, less costs of completion and applicable variable selling expenses.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Cash and cash equivalents

For the purpose of the cash flow statements, cash and cash equivalents comprise cash on hand, bank balances, demand deposits, short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(k) Leases

(i) The Group and Company as a lessee

Leases are recognised as right-of-use ('ROU') asset and a corresponding liability at the date on which the leased asset is available for use by the Group and Company (i.e. the commencement date).

Lease term

In determining the lease term, the Group and Company consider all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

The Group and Company reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Group and Company and affects whether the Group and Company are reasonably certain to exercise an option not previously included in the determination of lease term, or not to exercise an option previously included in the determination of lease term. A revision in lease term results in remeasurement of the lease liabilities.

ROU assets

ROU assets are initially measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentive received;
- Any initial direct costs; and
- Decommissioning or restoration costs.

ROU assets that are not investment properties are subsequently measured at cost, less accumulated depreciation and impairment loss (if any). The ROU assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group and Company are reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. In addition, the ROU assets are adjusted for certain remeasurement of the lease liabilities.

The Group and Company apply the cost model to ROU assets that meet the definition of investment property of MFRS 140 consistent with those investment properties owned by the Group and Company. Refer to accounting policy Note 2(d) on investment property.

The Group and Company present ROU assets that meet the definition of investment property in the statement of financial position as investment property. ROU assets that are not investment properties are presented as a separate line item in the statement of financial position.

Short term leases and leases of low value assets

Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT and office equipment. Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised as an expense in the statement of comprehensive income.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Leases (continued)

(i) The Group and Company as a lessee (continued)

Lease liabilities

Lease liabilities are initially measured at the present value of the lease payments that are not paid at that date. The lease payments include the following:

- Fixed payments (including in-substance fixed payments), less any lease incentive receivable;
- Variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable by the Group and Company under residual value guarantees;
- The exercise price of a purchase and extension options if the group is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the Group and Company exercising that option.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group and Company, the lessee's incremental borrowing is used. This is the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the ROU asset in a similar economic environment with similar term, security and conditions.

Lease payments are allocated between principal and finance cost. The finance cost is charged to the statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Some leases contain variable payment terms that are linked to revenue share generated from sales of advertisement. Variable lease payments that depend on revenue share are recognised in the statement of comprehensive income in the period in which the condition that triggers those payments occurs.

The Group and Company present the lease liabilities as a separate line item in the statement of financial position. Interest expense on the lease liability is presented within finance cost in the statement of comprehensive income.

Reassessment of lease liabilities

The Group and Company may be exposed to potential future increases in variable lease payments that depend on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is remeasured and adjusted against the ROU assets.

Accounting policies applied from 1 January 2020

During the financial year, the Group and Company apply practical expedient to account for a COVID-19 related rent concession that meets all of the following conditions in the same way as they would if they were not lease modification:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments due on or before 30 June 2021; and
- there is no substantive change to other terms and conditions of the lease.

The Group and Company account for COVID-19 related rent concession as a variable lease payment in the period in which the event or condition that triggers the reduced payment occurs. Impacts of rent concessions are presented within "other operating income" in the statement of comprehensive income.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Leases (continued)

(i) The Group and Company as a lessee (continued)

Reassessment of lease liabilities (continued)

Accounting policies applied until 31 December 2019

Until 31 December 2019, a change in lease payments (including rent concession), other than those arising from a change in amounts expected to be payable under residual value guarantees or in an index or rate used to determine lease payments, is accounted for as a lease modification if it is not part of the original terms and conditions of the lease. The lease modification is accounted for as either a new lease or as a remeasurement of an existing lease liability, depending on the criteria set in MFRS 16.

(ii) The Group as a lessor

As a lessor, the Group determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to the lessee. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

(a) Finance leases

The Group classifies a lease as a finance lease if the lease transfers substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee.

The Group derecognises the underlying asset and recognises a receivable at an amount equal to the net investment in a finance lease. Net investment in a finance lease is measured at an amount equal to the sum of the present value of lease payments from lessee and the unguaranteed residual value of the underlying asset. Initial direct costs are also included in the initial measurement of the net investment. The net investments is subject to MFRS 9 impairment. In addition, the Group reviews regularly the estimated unguaranteed residual value.

(b) Operating leases

The Group and Company classify a lease as an operating lease if the lease does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee.

The Group and Company recognise lease payments received under operating lease as lease income on a straight-line basis over the lease term.

(iii) Sublease classification

When the Group and Company are intermediate lessors, they assess the lease classification of a sublease with reference to the ROU asset arising from the head lease, not with reference to the underlying asset. If a head lease is short-term lease to which the Group and Company apply the exemption described in Note 2(k)(i), then they classify the sublease as an operating lease.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) Current and deferred tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the net profit for the financial year except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity.

The current tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statements of financial position date in the countries where the Company and its subsidiaries operate and generate taxable income.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill; deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction occurring, it affects neither accounting nor taxable profit nor loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the statements of financial position date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax is provided on temporary differences arising on investments in subsidiaries and associates, except for deferred tax liability where the timing of the reversal of the temporary difference is controlled by the Group and Company and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Deferred tax assets (including tax benefit from reinvestment allowances) are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, unused tax losses or unused tax credits can be utilised.

(m) Employee benefits

(i) Short-term employee benefits

Wages, salaries, sick leave, paid annual leave, bonuses and non-monetary employee benefits are accrued in the financial year in which the associated services are rendered by employees of the Group and Company and are expected to be settled wholly within 12 months.

The Group and Company recognise a liability and an expense for bonuses based on a formula that takes into consideration the net profit/(loss) for the financial year after certain adjustments. The Group and Company recognise a provision where there is a contractual obligation or where there is a past practice that has created a constructive obligation.

- (m) Employee benefits (continued)
- (ii) Post-employment benefits - defined contribution retirement plan

A defined contribution plan is a pension plan under which the Group and Company pay fixed contributions into a separate entity (a fund) and will have no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to the employee service in the current and prior periods.

The Group's and Company's contributions to defined contribution plans, including the national defined contribution plan, the Employees' Provident Fund ("EPF"), are charged to the statement of comprehensive income in the financial year to which they relate. Once the contributions have been paid, the Group and Company have no further payment obligations. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

- (iii) Termination benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group and Company recognise termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed formal plan without the possibility of withdrawal or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits which are due more than 12 months after the financial position date are discounted to present value.

- (n) Trade and other payables

These amounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

- (o) Provisions

Provisions are recognised when the Group and Company have a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made.

Where the Group and Company expect a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost expense.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Contingent liabilities and contingent assets

The Group and Company do not recognise a contingent liability but disclose its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence and non-occurrence of one or more uncertain future events beyond the control of the Group and Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare circumstance where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group and Company. The Group and Company do not recognise contingent assets but disclose their existence where inflows of economic benefits are probable, but not virtually certain.

(q) Share capital

Ordinary shares are classified as equity.

Incremental external costs directly attributable to the issuance of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders. However, in the case of interim dividends, it is recognised as liability upon approval by the Board of Directors of the Company.

(r) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred with any difference between the initial fair value and proceeds (net of transaction costs) being charged to the statement of comprehensive income at initial recognition. In subsequent periods, borrowings are stated at amortised cost using the effective interest method with the difference between the initial fair value and the redemption value is recognised in the statement of comprehensive income over the period of the borrowings.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facilities will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facilities will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Interest, dividends, losses and gains relating to a financial instrument, or a component part, classified as a liability is reported within finance cost in the statement of comprehensive income.

When borrowings measured at amortised cost is modified without this resulting in derecognition, any gain or loss, being the difference between the original contractual cash flows and the modified cash flows discounted at the original effective interest rate, shall be recognised immediately within finance cost in the statement of comprehensive income.

Borrowings are classified as current liabilities unless the Group and Company have an unconditional right to defer settlement of the liability for at least 12 months after the financial position date.

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(r) Borrowings (continued)

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of comprehensive income in the period in which they are incurred.

(s) Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities.

Revenue from contracts with customers is measured at its transaction price, being the amount of consideration which the Group and Company expect to be entitled in exchange for transferring promised goods or services to a customer, net of estimated returns, discounts, commissions, rebates and taxes. Discounts and rebates are measured using the most likely amount method and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

Transaction price is allocated to each performance obligation on the basis of the relative standalone selling prices of each distinct good or services promised in the contract. Depending on the substances of the respective contact with the customer, revenue is recognised when the performance obligation is satisfied, which may be at point in time or over time.

The Group and Company do not expect any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group and Company do not adjust any of the transaction prices for the time value of money.

No element of financing is deemed present as the sales are made with a credit term of 0 to 60 days, which is consistent with market practice.

(i) Advertising revenue

Advertising revenue mostly consists of advertising in television, radio, newspapers, digital platforms and outdoor advertising.

Advertising revenue is recognised at a point in time when the advertisements are broadcasted on television or radio, published in newspapers or displayed on digital platforms.

Display rental revenue, content management and lighting from outdoor advertising are recognised over time in accordance with the period of the contract. Contracts with a combination of display rental, content management and lighting are recognised as separate distinct performance obligations and transaction price are allocated on a relative stand-alone selling price basis. Display rental stand-alone selling price is measured at the fixed transaction price agreed in the contracts.

In addition, contra arrangements, whereby particular advertising service in exchange for other goods or services, generate a contract asset or liability to the extent that the service rendered by the Group does not pertain to the same line of business as the service received from the counterpart. Such revenues are measured at the estimated fair market value of the goods or services received. Services received in exchange are expensed to the statement of comprehensive income over the service period.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Revenue recognition (continued)

(ii) Sale of goods

Revenue from the sale of goods includes the sale of newspapers, books, magazines and retail goods from the home shopping network.

Revenue from the sale of goods is recognised at a point in time when the control of the product is transferred to the customer.

A contract liability (refund liability) and a right to the returned goods (included in inventories) are recognised for the products expected to be returned. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level (expected value method). Because the number of products returned has been low for years, management assessed that it is highly probable that a significant reversal in the cumulative revenue recognised will not occur. As such, no contract liability or right to returned goods are recognised. The validity of this assumption and the estimated amount of returns are reassessed at each reporting date.

(iii) Content and programme sales

Content revenue mostly consists of programme rights sales to customers, revenue generated from the production and license income.

Revenue from the sale of programme rights and license income typically have a wide variety of performance obligations, from production licence contracts to multi-year format licence agreements and distribution activities. Assessment is made of whether licences are determined to be a right to access the content (revenue recognised over time) versus a right to use the content (revenue recognised at a point in time). The Group determined that for most of the licences granted, the involvement of the Group is limited to the transfer of the licence, where the performance obligation is satisfied at a point in time.

Revenue from theatrical film releases is recognised at a point in time in the period the feature films are screened in cinemas.

Subscription revenue from the provision of content on over-the-top and other digital platforms are recognised over time in accordance with the period the access is provided.

(iv) Rendering of services

Revenue from the rendering of services includes management services, commercial newspaper printing and distribution services, talent services, online social media and digital content services, seminar services and advertising production services.

Revenue from management services, talent services, online social media and digital content services are recognised over time as and when the services are rendered.

Revenue from commercial newspaper printing and distribution services, seminar services and advertising production services are recognised at a point in time upon the delivery of services or ready to be displayed.

(v) Interest income

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(s) Revenue recognition (continued)

(vi) Other revenue

Dividend income is recognised when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits. Dividend income are received from financial assets measured at fair value through profit or loss ("FVTPL") and at fair value through other comprehensive income ("FVOCI").

Rental income from rental of investment properties, cellular antenna space on outdoor structures and broadcasting equipment is recognised on a straight-line basis over the period of the lease or usage.

(t) Contract balances

(i) Contract assets

A contract asset is recognised when the Group's right to consideration is conditional on something other than the passage of time. A contract asset is subject to impairment in accordance to MFRS 9 (see Note 35). Typically, the amount will be billed within 30 days and payment is expected within 30 days.

(ii) Contract liabilities

Contract liabilities were previously named as deferred income.

Contract liabilities of the Group and Company represent advance receipts from customers on sales and services that have yet to be rendered or completed, outdoor display rental charges in advance, monetary value of awarded points under customer loyalty programmes and advance receipts from customers received on behalf of its subsidiaries, of which the allocation of the advertising services has yet to be determined as at financial position date.

All other contract liabilities are expected to be recognised as revenue over the next 12 months.

(u) Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the net profit for the financial year, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the statement of comprehensive income within "finance income or cost". All other foreign exchange gains and losses are presented within other operating expenses in the statement of comprehensive income.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Foreign currencies (continued)

(ii) Transactions and balances (continued)

Changes in the fair value of monetary securities denominated in foreign currency classified as available-for-sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as available-for-sale, are included in other comprehensive income.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each financial position date presented are translated at the closing rate at the date;
- income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to other comprehensive income. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in the profit or loss as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and are translated at the closing rate.

(v) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Senior Management and the Board of Directors that makes strategic decisions.

(w) Financial assets

(i) Classification

The Group and Company classified their financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ('FVOCI') or through profit or loss ('FVTPL'), and
- those to be measured at amortised cost ('AC')

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Financial assets (continued)

(ii) Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date, the date on which the Group and Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group and Company has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

(a) Initial recognition

The Group and Company measure a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in the statement of comprehensive income.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest ('SPPI').

(b) Subsequent measurement

• Debt instruments

Subsequent measurement of debt instruments depends on the Group's and Company's business model for managing the asset and the cash flow characteristics of the asset. The Group and Company reclassify debt investments when and only when its business model for managing those assets changes. The debt instruments in the Group and Company are categorised as follows:

- AC: Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at AC. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on de-recognition is recognised directly in profit or loss and presented in respective line item in the statements of comprehensive income together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statements of comprehensive income.
- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPI, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other operating income using the effective interest rate method. Foreign exchange gains and losses are presented net within respective line item in the statements of comprehensive income and impairment expenses are presented as separate line item in the statements of comprehensive income.
- FVTPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. The Group and Company may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Fair value changes is recognised in profit or loss and presented net within respective line item in the statements of comprehensive income in the period which it arises.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Financial assets (continued)

(iii) Measurement (continued)

(b) Subsequent measurement (continued)

- Equity instruments

The Group and Company subsequently measure all equity investments at fair value. Where the Group's and Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the de-recognition of the investment. Dividends from such investments continue to be recognised in profit or loss as revenue when the Group's and Company's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in statements of comprehensive income. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iv) Impairment

Impairment for debt instruments

The Group and Company assess on a forward looking basis the expected credit loss ('ECL') associated with its debt instruments carried at AC and at FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The following financial instruments are subject to the ECL model:

- Trade receivables
- Contract assets
- Non-trade receivables
 - intercompany balances
 - other receivables and deposits

While cash and cash equivalents are also subject to the impairment requirements of MFRS 9, the identified impairment loss was immaterial.

ECL represent a probability-weighted estimate of the difference between present value of cash flows according to contract and present value of cash flows the Group and Company expect to receive, over the remaining life of the financial instrument.

The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Financial assets (continued)

(iv) Impairment (continued)

Impairment for debt instruments (continued)

(a) Simplified approach for trade receivables and contract assets

The Group and Company apply the MFRS 9 simplified approach to measure ECL which uses a lifetime ECL for all trade receivables and contract assets.

(b) General 3-stage approach for non-trade receivables

At each reporting date, the Group and Company measure ECL through loss allowance at an amount equal to 12 months ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition. For all other financial instruments, a loss allowance at an amount equal to lifetime ECL is required.

Significant increase in credit risk

The Group and Company consider the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group and Company compare the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forward-looking information.

The following indicators are incorporated:

- internal credit rating
- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtors ability to meet its obligations
- actual or expected significant changes in the operating results of the debtor
- significant increases in credit risk on other financial instruments of the same debtor
- significant changes in the expected performance and behaviour of the debtor, including changes in the payment status of debtor in the group and changes in the operating results of the debtor.

Macroeconomic information (such as market interest rates or growth rates) is incorporated as part of the internal rating model.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Financial assets (continued)

(iv) Impairment (continued)

Definition of default and credit-impaired financial assets

The Group and Company define a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

- Quantitative criteria: The Group and Company define a financial instrument as default, when the counterparty fails to make contractual payment when they fall due.
- Qualitative criteria: The debtor meets unlikelihood to pay criteria, which indicates the debtor is in significant financial difficulty. The Group and Company consider the following instances:
 - the debtor is in breach of financial covenants
 - concessions have been made by the lender relating to the debtors financial difficulty
 - it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation
 - the debtor is insolvent

Financial instruments that are credit-impaired are assessed on individual basis.

Groupings of instruments for ECL measured on collective basis

(a) Collective assessment

To measure ECL, trade receivables and contract assets arising have been grouped based on shared credit risk characteristics of customer's behaviour and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group and Company have therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

(b) Individual assessment

Trade receivables, contract assets and non-trade receivables, that are in default or credit-impaired are assessed individually.

Intercompany balances are assessed on individual basis for ECL measurement, as credit risk information is obtained and monitored based on each related intercompany.

(v) Write-off

Trade receivables and contract assets

Trade receivables and contract assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group and Company, and a failure to make contractual payment. Nevertheless, trade receivables and contract assets that are written-off could still be subject to enforcement activities.

Impairment losses on trade receivables and contract assets are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Financial assets (continued)

(v) Write-off

Non-trade receivables

The Group and Company write off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Group and Company may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains.

(x) Financial liabilities

Financial liabilities are recognised initially at fair value plus or minus, any directly attributable transaction costs incurred at the acquisition or issuance of financial instrument.

Subsequent to initial recognition, financial liabilities are subsequently measured at amortised cost using the effective interest method.

For financial liabilities other than derivatives, gains and losses are recognised in the profit or loss when the liabilities are derecognised as well as through the amortisation process. Any gains or losses arising from changes in fair value of derivatives are recognised in the statements of comprehensive income. Net gains or losses on derivatives include exchange differences.

A financial liability is derecognised when the obligation under the liability is extinguished. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statements of comprehensive income.

(y) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group and Company make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have a material impact to the Group's and Company's results and financial position are tested for sensitivity to changes in the underlying parameters. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

(i) Assessment of impairment of non-financial assets

The Group and Company assess impairment of the non-financial assets (excluding goodwill), in particular impairment assessments on the Company's investment in subsidiaries, whenever the events or changes in circumstances indicate that the carrying amount may not be recoverable (i.e. the carrying amount is more than the recoverable amount). The Group also tests annually whether goodwill or intangible assets with indefinite life has suffered any impairment, in accordance with the accounting policy (Note 2(f)).

Recoverable amount of an asset is measured at the higher of the fair value less cost to sell ("FVLCS") for that asset and its value-in-use ("VIU"). The VIU is the net present value of the projected future cash flows derived from the cash generating units discounted at an appropriate discount rate. Projected future cash flows are estimates made based on historical, sector and industry trends, general market and economic conditions, changes in technology and other available information. For recoverable amount that is based on FVLCS which include fair value of assets or properties, the Group engaged independent valuers to assess the fair value of the assets.

Projected future cash flows are based on Group's and Company's judgements in terms of assessing future uncertain parameters such as estimated revenue growth, operating costs, contribution margins, discount rates and other available information. These judgements are based on the historical track record and expectations of future events that are believed to be reasonable under the current circumstances.

The key assumptions used, results and conclusion of the impairment assessments are set out in Notes 13, 16 and 18 of the financial statements.

(ii) Deferred tax assets

Deferred tax assets arose from unused tax losses, unabsorbed capital allowances and deductible temporary differences. Deferred tax assets were recognised to the extent that it is probable that future taxable profit will be available against which deferred tax asset can be utilised.

In evaluating whether it is probable that future taxable profits will be available in future periods, all available evidence was considered, including approved budgets and business plans, completed and planned restructuring exercises, continuous effective cost management initiatives and analysis of historical operating results. These forecasts are consistent with those prepared and used internally for business planning and impairment testing purposes.

(iii) Measurement of ECL allowance for financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group and Company use judgements in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's and Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. Details of key assumptions and inputs used are disclosed in Note 35.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

(iv) Lease extension and termination options

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Group and Company are typically reasonably certain to continue (or not to terminate).
- If any leasehold improvements are expected to have a significant remaining value, the Group and Company are typically reasonably certain to extend (or not terminate).
- Otherwise, the Group and Company consider other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

The assessment is reviewed if a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee.

The reconciliation of revenue and segment information is set out in Note 5.

4 REVENUE (CONTINUED)Unsatisfied long-term performance obligations

For contracts that exceed one year, the aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as of the end of the financial year is approximately RM9.0 million (2019: RM1.9 million), of which the Group expects to recognise RM2.4 million as revenue in 2021 and the remaining amount of RM6.6 million is expected to be recognised as revenue from 2022 onwards.

5 SEGMENT INFORMATION

Management has determined the operating segments based on the reports reviewed by the Senior Management and the Board of Directors (chief operating decision-maker) that are used to make strategic decisions.

The chief operating decision-maker considers the business primarily from a product perspective as the activities of the Group are predominantly domestic based.

During the financial year, the operating segments of the Group have been redefined by the chief operating decision-maker. Since 1 April 2020, advertising services across most of the Group's media platforms are integrated under the Omnia operating segment. The Group's Television Networks and Radio Networks operating segments disclosed in the prior year's financial statements have been combined into a single reportable segment named "Broadcasting". Current period information and corresponding information for the comparative period have been restated where applicable based on the changes below. The reportable operating segments derive their revenue primarily from the following activities:

| | |
|------------------|---|
| Omnia | Integrated advertising solutions, marketing and sale of advertisements across the Group's media platforms, covering broadcasting, print, advertiser content and digital |
| Broadcasting | Commercial television and radio broadcasting |
| Outdoor Media | Outdoor advertising space and related outdoor advertisement production services |
| Print Media | Printing, publishing, distribution and sale of newspapers |
| Digital Media | Digital media content and services |
| Content Creation | Media content production, procurement and distribution, music production and studio recording, and talent management of artistes |
| Home Shopping | Home shopping network |

The chief operating decision-maker assesses the performance of the operating segments, before its respective tax charged or tax credits, based on a measure of Earnings Before Interest, Taxation, Depreciation and Amortisation ("EBITDA"). Since the chief operating decision-maker reviews EBITDA, the share of associates' results are not included in the measure of EBITDA.

The chief operating decision-maker assesses the assets and liabilities of the operations on a Group basis whereby Omnia, Broadcasting, Outdoor Media, Print Media, Digital Media, Content Creation and Home Shopping makes up individual segments.

12 LOSS PER SHARE

| | Group | | |
|---|----------|------------------|-----------|
| | 2020 | 2019 | |
| Net loss attributable to owners of the Company | (RM'000) | 18,378 | 177,850 |
| Weighted average number of ordinary shares in issue | ('000) | 1,109,199 | 1,109,199 |
| Basic loss per share | (sen) | 1.66 | 16.03 |
| Diluted loss per share | (sen) | 1.66 | 16.03 |

The basic loss per share is calculated by dividing the net loss attributable to owners of the Company for the financial year by the weighted average number of ordinary shares in issue during the financial year. There are no potential ordinary shares outstanding as at 31 December 2020 and 31 December 2019. As such, the diluted loss per share is equivalent to the basic loss per share.

(a) Impairment of property, plant and equipment

(i) Broadcasting

During the previous financial year, the Group undertook a broadcasting and transmission modernisation programme to support its Broadcasting operating segment. Due to these factors, an impairment assessment on broadcasting equipment was performed and the Group recognised a charge of RM7.5 million on property, plant and equipment affected by greater than anticipated technological obsolescence. The recoverable amount of these assets are determined based on fair value less cost to sell. The charges had been recorded in "impairment of non-current assets" in the statement of comprehensive income.

(ii) Print Media

During the previous financial year, the Group had performed a rationalisation exercise involving its plant and equipment within Print Media to address the continued challenging operating environment in the industry. An impairment assessment was performed resulting in a charge of RM15.5 million on certain spares as their recoverable amount exceeds carrying amount. The recoverable amount of these assets are determined based on fair value less cost to sell. The charges had been recorded in "impairment of non-current assets" in the statement of comprehensive income.

No impairment of property, plant and equipment was recognised during the financial year.

(b) Leasing activities of the Group and Company

The Group and Company has lease contracts for various properties, office buildings, plants and outdoor advertising display sites used in its operations. Leasehold land generally have lease tenures ranging from 50 and 99 years (2019: 50 and 99 years), leases of buildings and plants generally have lease terms between 3 and 6 years (2019: 3 and 6 years), while outdoor advertising display sites generally have lease terms between 3 and 10 years (2019: 3 and 10 years). Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

The Group and Company also have certain short-term leases with a lease term of 12 months or less and leases of IT and office equipment with low value. The Group and Company apply the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

(c) Variable lease payments

Some outdoor advertising display site leases contain variable payment terms that are linked to sales generated from display of advertisements. For individual outdoor advertising sites, up to 30% of lease payments are on the basis of variable payment terms with percentages ranging from 38% to 55% of sales. Variable payment terms are used to link site rental payments to display rental revenue and to reduce fixed costs. Variable lease payments that depend on revenue are recognised in the statement of comprehensive income in the period in which the condition that triggers those payments occurs, as disclosed in Note 14(a) to the financial statements.

(d) COVID-19 related rent concessions

During the financial year, as a result of the COVID-19 pandemic, the Group has received various forms of rent concessions, including payment holidays for a period of time.

The Group has applied the practical expedient to all rent concessions that meet the conditions of the MFRS 16 amendments.

The amount recognised in the Group's statement of comprehensive income has reflected changes in lease payments that arise from rent concessions to which the Group has applied the practical expedient is RM9.0 million. The lease liability is reduced by RM9.0 million.

14 LEASES (CONTINUED)

(e) Extension options and termination options

Extension and termination options are included in various leases across the Group. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. Extension and termination options are included, when possible, to provide the Group with greater flexibility to align its business strategy.

In cases in which the Group is not reasonably certain to exercise an optional extended lease term, payments associated with the optional period are not included within lease liabilities. As at 31 December 2020, potential undiscounted future cash outflows of RM208.7 million (2019: RM208.7 million) have not been included in the lease liabilities of the Group because it is not reasonably certain that the leases will be extended (or not terminated).

(f) Reconciliation of financial liabilities arising from financing activities in relation to leases

The table below details changes in the Group's and Company's liabilities arising from financing activities in relation to leases including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's and Company's statement of cash flows as cash flows from financing activities.

| Direct operating expenses incurred from investment properties that did not generate rental income | (545) | (262) | |

(a) Impairment of investment properties

During the previous financial year, the Group recognised an impairment charge in respect of investment properties amounting to RM0.2 million. The impairment was attributed to greater than anticipated wear and tear. The impairment charge had been recorded in "impairment of non-current assets" in the statement of comprehensive income.

(b) Fair value of investment properties

The fair value of the properties based on valuations by an independent professional valuer in the financial year using the cost and comparison method as follows:

| <u>Group</u> | 2020 | | 2019 | |
|-----------------------|---------------------------|----------------------|---------------------------|----------------------|
| | Carrying amount RM'000 | Fair value RM'000 | Carrying amount RM'000 | Fair value RM'000 |
| Investment properties | 28,136 | 68,398 | 28,864 | 68,398 |

The fair value of the properties of the Group has been determined based on inputs other than quoted prices included within active markets that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) which is within level 2 of the fair value hierarchy.

(c) Investment properties pledged as securities

As at 31 December 2020, certain investment properties of the Group with an aggregate carrying amount of RM12.4 million (2019: Nil) were pledged to a licensed bank as security for a borrowing facility granted to the Company. The Group and Company are required to assign any rental income and proceeds of disposal of the pledged investment properties to the licensed bank.

(d) Leasing arrangements

The investment properties are leased to tenants under operating leases with rentals payable monthly. The Group classifies these leases as operating lease, because they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets.

(a) Acquisition of additional interest in subsidiaries

On 1 September 2020, STMB, a wholly-owned subsidiary of the Company, entered into a share sale and purchase agreement with a minority shareholder of WOWSHOP to purchase 21,070,000 ordinary shares in WOWSHOP for a total cash consideration of RM5.0 million. Following the acquisition, STMB's equity interest in WOWSHOP increased from 51% to 100%.

Immediately prior to the purchase, the carrying amount of the existing 49% non-controlling interest in WOWSHOP was RM1.6 million. The Group recognised a decrease in non-controlling interests of RM1.6 million and a decrease in equity attributable to owners of the Company of RM3.4 million. The effect on the equity attributable to the owners of the Company during the financial year is summarised as follows:

| | Group 2020 RM'000 |
|---|-------------------------|
| Carrying amount of non-controlling interests acquired | 1,593 |
| Consideration paid to non-controlling interests | (5,000) |
| Differences on acquisition recognised in accumulated losses | (3,407) |

16 SUBSIDIARIES (CONTINUED)

(b) Acquisition of a subsidiary during the previous financial year

On 5 September 2019, RMGSB, an indirect wholly-owned subsidiary of the Company, completed the acquisition of 52% equity interest in The Vocket Sdn Bhd ("TVSB"), a company incorporated in Malaysia, for a total cash consideration of RM2.6 million (including retention sum of RM0.8 million payable within 12 months from the date of completion of acquisition). TVSB is principally engaged in digital publishing.

A goodwill of RM0.6 million was recognised which comprises the value of expected potential synergistic benefits to upsell the Group's digital products and services by having a wider digital audience base. None of the goodwill is expected to be deductible for income tax purposes. In addition, intangible assets which relate to digital publishing rights amounting to RM4.4 million was recognised as a result of the acquisition.

The acquisition did not have a significant impact to the Group during the previous financial year.

(c) Subsidiaries of the Company that have material non-controlling interests ("NCI") to the Group

Set out below are the summarised financial information of subsidiaries of the Company with non-controlling interests, which, in the opinion of the Directors, are material to the Group.

16 SUBSIDIARIES (CONTINUED)

(d) Impairment assessment on investment in subsidiaries

(i) PWD

During the financial year, the Group plans to further restructure the business of PWD by transferring its content and programme sales and distribution business to another subsidiary. As such, the Company recognised an impairment charge of RM44.4 million (2019: RM42.0 million) which represents the entire carrying amount of its investment in PWD. The impairment charge had been recorded in "impairment in non-current assets" in the Company's statement of comprehensive income.

(ii) BTO

The adverse effects of the movement and travel restrictions to curb the spread of COVID-19 on the Outdoor Media operating segment and a loss during the financial year were identified as indicators for an impairment test to be performed for the investment in BTO.

The recoverable amount of investment in BTO is determined based on the VIU method applying a discounted cash flow model using cash flow projections covering a five year (5) period.

Cash flows are derived based on the approved budgeted cash flows for 2021 and projections for a period of subsequent four (4) years, based on management's plans, reflecting management's expectation of revenue growth, operating costs and contribution margins for BTO based on the current assessment of market share and expectations of market growth. The growth in overhead costs are determined based on past performance and expected inflationary factors. Contribution margins and EBITDA margins are projected based on the trends observed within the Group.

The key assumptions used for the VIU calculations are as follows:

| | 2020 % |
|------------------------|-----------|
| Average revenue growth | 2.0 |
| Pre-tax discount rate | 12.7 |
| Terminal growth rate | 0.0 |

As a result of the assessment, the Company's investment in BTO is not impaired as the recoverable amount exceeds the carrying amount included in the financial statements.

(iii) Hot FM

A challenging operating environment in the radio business and a loss in the financial year were identified as indicators for an impairment test to be performed for the investment in Hot FM.

The FVLCS calculations apply a discounted future cash flow model using the fair value of broadcasting licenses attributable to Hot FM and its subsidiaries for a period of five (5) years.

The key assumptions used for the FVLCS calculations are as follows:

| | 2020 % |
|-----------------------|-----------|
| Pre-tax discount rate | 12.4 |
| Terminal growth rate | 0.0 |

16 SUBSIDIARIES (CONTINUED)

(d) Impairment assessment on investment in subsidiaries (continued)

(iii) Hot FM (continued)

As a result of the impairment assessment, the Company's investment in Hot FM is not impaired as the recoverable amount exceed the carrying amount included in the financial statements.

The assessment includes an impact assessment of changes in key assumptions. Based on the sensitivity analysis performed, the Directors concluded that no reasonable change in the base case assumptions would cause the carrying amounts of the investment to exceed its recoverable amounts.

(iv) NSTP

The continued challenging operating environment of the Print Media operating segment and continuing losses during the financial year were identified as indicators for an impairment test to be performed for the Company's investment in NSTP.

The recoverable amount of investment in NSTP is determined using a discounted cash flow model using cash flow projections based on the approved management budget covering:

- A five (5) year (2019: 5) period that reflects the Digital business with terminal value; and
- A five (5) year (2019: 3) period that reflects the Print business with terminal value. In the previous financial year, a three (3) year period was used based on management's initial plan to cease the Group's Print business operations. The change in assumption during the financial year reflects a revised strategy towards continuous operations given the new opportunities presented for the Print business.

The cash flow projections are based on management's plans, reflecting management's expectation of revenue growth, operating costs and contribution margins for the cash-generating units based on the current assessment of market share and expectations of market growth. The growth in overhead costs are determined based on past performance and expected inflationary factors. Contribution margins and EBITDA margins are projected based on the trends observed within the Group.

The key assumptions used for the VIU calculations are as follows:

| | 2020 | 2019 |
|----------------------------------|--------------|--------------|
| | % | % |
| Average revenue (decline)/growth | (35.0) - 7.3 | (11.3) - 8.0 |
| Pre-tax discount rate | 9.5 | 9.0 |
| Terminal growth rate | 0.0 | 0.0 |

The estimated fair values of land and buildings based on independent external valuations are deemed as present fair values of the assets and have been included as part of the recoverable amounts of the Print business in the terminal periods amounting to RM125.5 million (2019: RM149.9 million).

From the assessment, the Company's investment in NSTP is not impaired as the recoverable amount exceeds the carrying amount reported in the financial statements. During the previous financial year, an impairment loss of RM83.9 million was recognised by the Company on its investment in NSTP.

The impairment assessment includes an impact assessment of changes in key assumptions. Based on the sensitivity analysis performed, the Directors concluded that no reasonable change in the base case assumptions would cause the carrying amounts of the investment to exceed its recoverable amounts.

16 SUBSIDIARIES (CONTINUED)

- (d) Impairment assessment on investment in subsidiaries (continued)
- (v) STMB

The continuous challenging operating segment of the Broadcasting operating segment during the financial year were identified as indicators for an impairment test to be performed on the investment in STMB.

The recoverable amount of the investment in STMB is determined based on the VIU method applying a discounted cash flow model using cash flow projections covering a five (5) year period.

Cash flows are derived based on the approved budgeted cash flows for 2021 and projections for a period of subsequent four (4) years, based on management's plans, reflecting management's expectation of revenue growth, operating costs and contribution margins for STMB considering the current assessment of market share and expectations of market growth. The growth in overhead costs are determined based on past performance and expected inflationary factors. Contribution margins and EBITDA margins are projected based on the trends observed within the Group.

The key assumptions used for the VIU calculations are as follows:

| | 2020 % | 2019 % |
|-------------------------|-----------|-----------|
| Average revenue decline | (10.0) | (5.6) |
| Pre-tax discount rate | 14.7 | 15.0 |

As a result of the impairment assessment, the Company's investment in STMB is not impaired as the recoverable amount exceeds the carrying amount included in the financial statements. During the previous financial year, an impairment loss of RM81.3 million was recognised by the Company on its investment in STMB.

[▲] Effective interest via 98.17% interest in NSTP.

The Directors do not consider the investment in associates to be material to the Group.

There are no contingent liabilities relating to the Group's interest in the associates.

(a) Members' voluntary winding-up of an associate during the financial year

On 11 September 2020, Asia Magazines Limited, an associate of the Group, had been placed under members' voluntary winding-up pursuant to Section 230 of the Hong Kong Companies (Winding up and Miscellaneous Provisions) Ordinance (Cap. 32). The winding-up did not have a significant impact to the Group during the financial year.

(b) Acquisition of associates during the previous financial year

(i) On 31 January 2019, the Company through its indirect wholly owned subsidiary, RMGSB, completed the subscription of 33,334 equity shares representing 25.0% equity interest in MSSB, for a subscription consideration of RM1.5 million.

(ii) On 5 November 2019, the Company through its indirect wholly owned subsidiary, RMGSB, completed the subscription of 10,600 equity shares representing 20.0% equity interest in Maxoom, for a subscription consideration of RM1.2 million (including retention sum of RM0.2 million payable within 12 months from the date of completion of the subscription).

The subscriptions above did not have a significant impact to the Group during the previous financial year.

18 INTANGIBLE ASSETS (CONTINUED)

(a) Impairment assessments for intangible assets with indefinite useful lives

Intangible assets with indefinite useful lives are tested for impairment on an annual basis. Included in intangible assets are goodwill, acquired publishing rights, brands and digital publishing and outdoor advertising concession rights. These assets are deemed to have indefinite useful lives as they are renewable with minimum cost to the Group and there is no foreseeable limit to the period over which the assets are expected to generate net cash inflows for the Group.

The carrying amounts of intangible assets allocated to the Group's cash generating unit ('CGU') are as follow:

Group

| | Goodwill RM'000 | Publishing rights, brands and digital publishing RM'000 | Outdoor advertising concession rights RM'000 | Total RM'000 |
|----------------------------------|--------------------|--|--|-----------------|
| At 1 January/At 31 December 2020 | 183,140 | 136,794 | 39,446 | 359,380 |

Represented by:

2020/2019

| | | | | |
|----------------|---------|---------|--------|---------|
| Outdoor Media | 113,084 | - | 39,446 | 152,530 |
| Digital Media | 51,974 | 76,301 | - | 128,275 |
| Print Media | - | 60,493 | - | 60,493 |
| Radio Networks | 18,082 | - | - | 18,082 |
| | 183,140 | 136,794 | 39,446 | 359,380 |

The recoverable amounts of the CGUs are determined based on VIU and FVLCS calculations.

(i) Impairment assessments for intangible assets represented by Outdoor Media and Digital Media

The recoverable amount of the CGU is determined based on VIU method applying a discounted cash flow model using cash flow projections from approved management budget for 2021 and covering a subsequent four (4) year period for Outdoor Media and Digital Media with terminal values.

The cash flow projections are based on management's plans, reflecting management's expectation of revenue growth, operating costs and contribution margins for the cash-generating units considering the current assessment of market share and expectations of market growth. The growth in overhead costs are determined based on past performance and expected inflationary factors. Contribution margins and EBITDA margins are projected based on the trends observed within the Group.

18 INTANGIBLE ASSETS (CONTINUED)

- (a) Impairment assessments for intangible assets with indefinite useful lives (continued)
 - (i) Impairment assessments for intangible assets represented by Outdoor Media and Digital Media (continued)

The key assumptions used for the VIU calculations are as follows:

| | 2020 | | 2019 | |
|------------------------|-----------------|-----------------|-----------------|-----------------|
| | Outdoor Media % | Digital Media % | Outdoor Media % | Digital Media % |
| Average revenue growth | 2.0 | 3.5 | 2.0 | 6.3 |
| Pre-tax discount rate | 17.4 | 12.5 | 14.7 | 16.6 |
| Terminal growth rate | 0.0 | 3.0 | 3.0 | 3.0 |

Based on the above assessments, goodwill and intangible assets with indefinite useful lives for Outdoor Media and Digital Media CGUs are not impaired during the financial year as the recoverable amounts exceed the carrying amounts included in the financial statements.

The assessment includes an impact assessment of changes in key assumptions. Based on the sensitivity analysis performed, the Directors concluded that no reasonable change in the base case assumptions would cause the carrying amounts of the CGUs to exceed its recoverable amounts.

- (ii) Impairment assessments for intangible assets represented by Print Media

The FVLCS has been determined using the Relief from Royalty ("RFR") valuation method at the rate of 16% for digital business and 10.5% for print business respectively, being the average royalty rates benchmarked against licensed publications in the similar industry.

The FVLCS calculations apply a discounted future cash flow model using cash flow projection for NSTP Group.

The cash flow projections was based on approved management budget for 2021 and covers a subsequent four (4) years. In the previous financial year, the model used is based on approved management budget and covers a subsequent four (4) years on the assumption that reflected the Print business remaining useful life of its regional printing plants.

The cash flow projections are based on management's plans, reflecting management's expectation of revenue growth of the cash-generating units based on the current assessment of market share and expectations of market growth.

18 INTANGIBLE ASSETS (CONTINUED)

- (a) Impairment assessments for intangible assets with indefinite useful lives (continued)
- (ii) Impairment assessments for intangible assets represented by Print Media (continued)

The key assumptions used for the FVLCS calculations are as follows:

| | 2020 | 2019 |
|----------------------------------|---------------------|--------------|
| | % | % |
| Average revenue (decline)/growth | (35.0) – 7.3 | (11.3) – 8.0 |
| Digital business RFR rate | 16.0 | 16.0 |
| Print business RFR rate | 10.5 | 10.5 |
| Pre-tax discount rate | 14.1 – 17.0 | 15.5 – 19.7 |
| Terminal growth rate | 0.0 – 1.0 | 0.0 – 1.0 |

As a result of the impairment assessment, the CGU is not impaired as the recoverable amounts exceed the carrying amounts included in the financial statements.

Based on the sensitivity analysis performed, a 50 basis points increase in the discount rate with all other variables being held constant, would result in an impairment loss of approximately RM0.4 million (2019: RM0.2 million).

- (iii) Impairment assessments for intangible assets represented by Radio Networks

In view of the Group's current radio business, management has identified the fair value attributable to the broadcasting licenses under the Radio Networks CGU.

During the financial year, the valuation method of the Radio Networks CGU was updated from VIU to FVLCTS.

During the previous financial year, the recoverable amount of the CGU is determined based on VIU method applying a discounted cash flow model using cash flow projections based on approved management budget for 2020 and covering a subsequent four (4) year period.

The FVLCS calculations apply a discounted future cash flow model using the fair value of broadcasting licenses attributable to Radio Networks CGU for a period of five (5) years.

The key assumptions used are as follows:

| | 2020 | 2019 |
|-------------------------|------------|--------|
| | FVLCS | VIU |
| | % | % |
| Average revenue decline | - | (16.2) |
| Pre-tax discount rate | 8.5 | 19.8 |
| Terminal growth rate | 0.0 | 0.0 |

As a result of the impairment assessment, the Radio Networks CGU is not impaired as the recoverable amounts exceed the carrying amounts included in the financial statements.

18 INTANGIBLE ASSETS (CONTINUED)

(a) Impairment assessments for intangible assets with indefinite useful lives (continued)

(iii) Impairment assessments for intangible assets represented by Radio Networks (continued)

During the previous financial year, an impairment loss of RM16.7 million in respect of goodwill represented by Radio Networks was recognised.

The assessment includes an impact assessment of changes in key assumptions. Based on the sensitivity analysis performed, the Directors concluded that no reasonable change in the base case assumptions would cause the carrying amounts of the CGU to exceed its recoverable amounts.

19 DEFERRED TAXATION

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same tax authority. 19 DEFERRED TAXATION (CONTINUED)

The amount of capital allowances, deductible temporary differences and unused tax losses (which have 7 years of expiry period) for which no deferred tax asset is recognised in the statement of financial position is as follows:

| | Group | | Company | |
|---|------------------|----------------|----------------|----------------|
| | 2020 RM'000 | 2019 RM'000 | 2020 RM'000 | 2019 RM'000 |
| Unused tax losses | 589,306 | 577,872 | 39,153 | 46,612 |
| Unabsorbed capital allowances | 112,610 | 114,186 | - | 255 |

| Deferred tax assets not recognised at 24% | 248,957 | 242,045 | 16,608 | 12,595 |

No deferred tax assets are recognised from the above due to uncertainty of their recoverability. The unutilised business losses arising from a year of assessment ("YA") are allowed to only be carried forward for utilisation up to 7 consecutive YAs from that YA. In addition, any accumulated unabsorbed business losses brought forward from YA 2018 can only be utilised until YA 2025, while the unabsorbed capital allowances do not expire under the current tax legislation.

The unabsorbed reinvestment allowances are allowed to be carried forward for utilisation up to 7 consecutive YAs from the first year after the end of the incentive period. If the incentive period has expired prior to YA 2019, accumulated unabsorbed reinvestment allowances brought forward from YA 2018 shall be allowed to be utilised for another 7 consecutive YAs i.e. from YA 2019 to YA 2025. Any amount which remains unutilised by YA 2025 shall be disregarded from YA 2026.

The availability of unutilised tax losses for offsetting against future taxable profits of the respective subsidiaries in Malaysia are subject to no substantial changes in shareholdings of those subsidiaries under the Income Tax Act, 1967 and guidelines issued by the tax authority.

| - Intangible assets | 3,003 | 276 | |
| | 183,795 | 201,218 | |

Capital commitments not contracted for were approved by the Directors of the Company on 14 January 2021.

33 CONTINGENT LIABILITIES

The Group is a defendant in 19 (2019: 18) legal suits with contingent liabilities amounting to approximately RM5.6 million (2019: RM5.4 million) as at 31 December 2020. The legal suits mainly consist of claims on defamation.

The approximate contingent liabilities include unliquidated damages. The estimated figure for unliquidated damages for defamation claims (being the highest number of claims) is based on the current trend of damages awarded by the courts (approximately RM0.1 million to RM0.3 million per claim). On a prudent basis, an estimate of RM0.3 million for each defamation suit is regarded as potential exposure.

Based on the above and after taking appropriate legal advice, no provision has been made in the financial statements of the Group as at the date of this report. The Directors are of the opinion that the outcome of the legal suits against the Group will not have a material impact on the financial position of the Group.

35 FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks, including:

(a) Market risks

- (i) foreign currency exchange risk – risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates
- (ii) fair value interest rate risk – risk that the value of a financial instrument will fluctuate due to changes in market interest rates
- (iii) cash flow interest rate risk – risk that future cash flows associated with a financial instrument will fluctuate. In the case of a floating rate debt instrument, such fluctuations result in a change in the effective interest rate of the financial instrument, usually without a corresponding change in its fair value

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

35 FINANCIAL RISK MANAGEMENT (CONTINUED)

- (a) Market risks (continued)
- (iv) price risk – risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instrument traded in the market
- (b) Credit risk – risk that one party to a financial instrument will fail to discharge a contractual obligation and cause the other party to incur a financial loss
- (c) Liquidity risk (funding risk) – risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments

The Group's overall financial risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. Financial risk management is carried out through risk reviews, internal control systems, insurance programmes and adherence to the Group's financial risk management policies. The Directors regularly reviews these risks and approves the treasury policies, which covers the management of these risks.

- (a) Market risks

- (i) Foreign currency exchange risk

The Group operates nationally but some of its cost is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US Dollar. The main costs with such exposure are programme rights, newsprint, licenses and software.

The Group monitors the foreign currency market closely to ensure optimal levels of inventories are purchased when prices are favourable to mitigate purchase requirement when prices are unfavourable.

The currency exposure of financial assets and financial liabilities of the Group that are not denominated in the functional currency of the respective companies are set out below. If the Ringgit Malaysia ("RM") had weakened or strengthened by 10% against the foreign currencies for which the financial instruments are denominated in, with all other variables remain unchanged, loss for the financial year would have been higher or lower by the following amounts:

| | Foreign currency denominated in financial instruments | | Impact of changes in exchange rate to profit and loss (net of tax) | |
|-------------|---|--------------------|--|----------------------------|
| | Receivables RM'000 | Payables RM'000 | RM weaken by 10% | RM strengthen by 10% |
| 2020 | | | | |
| US Dollar | 2,775 | (1,742) | (103) | 103 |
| 2019 | | | | |
| US Dollar | - | (9,557) | (726) | 726 |

Foreign currency risk for the Group which have a functional currency other than US Dollar are not material and hence, sensitivity analysis is not presented. No sensitivity analysis is performed for Company level as it has no balance denominated in foreign currency.

35 FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Market risks (continued)

(ii) Cash flow and fair value interest rate risk

The Group's and Company's interest rate risk arises from its interest bearing financial instruments that could impact fair value and future cash flows due to fluctuations in market interest rates. The Group's policy is to maintain appropriate level of borrowings in fixed and floating rate instruments to ensure that some level of predictability in cash flows are preserved while ensuring that the Group and Company maintain its cost of debt and gearing ratio at healthy levels within the limits of any covenants.

Exposure to interest rate risk

The interest rate profile of the Group's and Company's significant interest-bearing financial instruments, based on carrying amounts as at the end of the financial year were:

| | Group | | Company | |
|------------------------------------|----------------|----------------|----------------|----------------|
| | 2020 RM'000 | 2019 RM'000 | 2020 RM'000 | 2019 RM'000 |
| <u>Fixed rate instruments</u> | | | | |
| Financial assets: | | | | |
| - Deposits, cash and bank balances | 303,783 | 257,144 | 125,717 | 47,799 |
| Financial liabilities: | | | | |
| - Borrowings | 13,402 | 4,688 | - | - |
| - Intercompany loans payable | - | - | 197,875 | 254,120 |
| <u>Floating rate instruments</u> | | | | |
| Financial liabilities: | | | | |
| - Borrowings | 112,083 | - | 112,083 | - |

The financial assets are not sensitive to interest rate changes. A 5.0% change in the interest rates of the financial liabilities with floating interest rates at the end of the financial year would have affected the Group's and Company's profit or loss and equity by RM0.2 million (2019: Nil). This analysis assumes that all other variables, in particular foreign currency rates remained constant.

(iii) Price risk

The Group is exposed to equity securities price risk because of investments held by the Group classified on the consolidated statement of financial position as FVOCI. No financial instruments or derivatives have been employed to hedge this risk as the risk is deemed to be insignificant. The Group is not exposed to commodity price risk.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

35 FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Credit risk

Credit risk arises from deposits with banks and financial institutions, contract assets, financial assets carried at AC and FVOCI.

Trade receivables and contract assets

Credit risk for trade receivables and contract assets is managed by each entity who is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. The exposure to credit risk is monitored on an ongoing basis.

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables and contract assets are represented by the carrying amounts in the statement of financial position. The Group holds bank guarantees and deposits placed by customers as collateral to reduce its credit risk.

The Group has no significant concentration of credit risk as it trades with a large number of customers who are nationally and internationally dispersed. Due to these factors, the Group believes that no additional credit risk beyond amounts allowed for collection losses is inherent in the Group's trade receivables.

The Group applies MFRS 9 simplified approach to measure ECL which uses a lifetime expected loss allowance for all trade receivables and contract assets.

The expected loss rates are based on the payment profiles of sales over a period of 1 year before the reporting date and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified Malaysian Consumer Price Index ("MACPI") and inflation as the most relevant factor, and accordingly, adjust the historical loss rates based on expected changes in these factors. No significant changes to estimation techniques or assumptions were made during the reporting period.

35 FINANCIAL RISK MANAGEMENT (CONTINUED)

(b) Credit risk (continued)

Trade receivables and contract assets (continued)

The closing allowances for trade receivables and contract assets reconcile to the opening loss allowances as follows:

| Group | 2020 RM'000 | 2019 RM'000 |
|--|----------------|----------------|
| At the beginning of the financial year | 86,981 | 88,271 |
| Increase in loss allowance | 33,332 | 9,330 |
| Loss allowance reversed | (22,503) | (9,206) |
| Receivables written-off | (30,140) | (1,414) |
| At the end of the financial year | 67,670 | 86,981 |

Other receivables and deposits

The Group and Company use the three stages approach for deposits and other receivables which reflect their credit risk and how the loss allowances are determined for each of those stages. The Group and Company determine the probability of default for these deposits and other receivables considering historical data and macroeconomic information (such as market interest rates). Refer to Note 2(w)(iv) for accounting policy on impairment on financial assets.

The following table contains an analysis of the credit risk exposure of other receivables for which an ECL allowance is recognised. The gross carrying other receivables disclosed below also represents the Group's and Company's maximum exposure to credit risk on these assets:

| Group | ECL rate | Basis for recognition of ECL provision | Estimated gross carrying amount at default RM'000 | Loss allowance RM'000 | Carrying amount (net of ECL provision) RM'000 |

Amounts due from other related parties

The Group provides advertising and printing services to its related parties. As at the end of the financial year, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

These balances are not secured by any collateral or supported by any other credit enhancements.

The Group uses the three stages approach for amounts due from related parties which reflect their credit risk and how the loss allowances are determined for each of those stages. The Group determines the probability of default for these amounts due from related parties individually using internal information available. Refer to Note 2(w)(iv) for accounting policy on impairment on financial assets.

The following table contains an analysis of the credit risk exposure of amounts due to related parties for which no ECL allowance is recognised. The gross carrying amount disclosed below also represents the Group's maximum exposure to credit risk on these assets:

| Group | ECL rate | Basis for recognition of ECL provision | Estimated gross carrying amount at default | Loss allowance | Carrying amount (net of ECL provision) |

Amounts due from subsidiaries

Amounts due from subsidiaries mainly comprise advances and payments of behalf. The Company monitors the results of the subsidiaries on an individual basis regularly. As at the end of the financial year, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

The Company use the three stages approach for amounts due from subsidiaries which reflect their credit risk and how the loss allowances are determined for each of those stages. The Company determines the probability of default for these amounts due from subsidiaries individually using internal information available. Cash and cash equivalents

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions. As at the end of the reporting period, the maximum exposure to credit risk is represented by the carrying amounts in the statement of financial position.

For banks and financial institutions, only independently rated parties with a minimum rating of "A" are accepted. The Group seeks to invest cash assets safely and profitably. The Group and Company consider the risk of material loss in the event of non-performance by a financial counterparty to be unlikely as these financial institutions have low credit risks. In addition, the Group and Company have no significant concentration of credit risk except that the majority of its deposits are placed with a major financial institution in Malaysia.

(c) Liquidity risk

The objectives of the Group and Company liquidity risk management policies is to ensure the Group and Company have enough cash to meet operational and financing needs as and when they fall due, availability of funding by keeping committed credit lines and meet external covenants compliance. The Group and Company monitor rolling forecasts of the Group's and Company's liquidity requirement.

The table below analyses the Group's and Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the statements of financial position date to the contractual maturity date. As the amounts included in the table are contractual undiscounted cash flows, these amount will not reconcile to the amounts disclosed on the statement of financial position for borrowings, debt instruments and trade and other payables.

Notes to the Financial Statements

For the Financial Year Ended 31 December 2020

35 FINANCIAL RISK MANAGEMENT (CONTINUED)

(d) Capital risk management

The Group's and Company's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

For the purposes of sustaining or changing the capital structure, the Group may adjust the amount of dividends paid to shareholders of the Company.

The Group and Company monitor capital on the basis of the gearing ratio. This ratio is calculated as debt divided by total equity. Debt is calculated as total borrowings and lease liabilities, including "current and non-current" as shown in the statement of financial position. Total equity is calculated as "equity" as shown in the statement of financial position.

The Group and Company are subject to certain externally imposed capital requirements in the form of loan covenants. The Group and Company monitor the gearing ratio and compliance with loan covenants based on the terms of the loan agreements. The Group and Company have complied with the capital requirements imposed by its lenders as at financial year end.

The gearing ratios as at 31 December are as follows:

| | Group | | Company | |
|---------------|----------------|----------------|----------------|----------------|
| | 2020 RM'000 | 2019 RM'000 | 2020 RM'000 | 2019 RM'000 |

36 FAIR VALUE

(a) Fair value

The carrying amounts of cash and cash equivalents, short term receivables and payables and short term borrowings approximate fair values due to the relatively short term nature of these financial instruments.

The fair values of long term financial liabilities categorised as level 2 in the fair value hierarchy, together with the carrying amounts shown in the statement of financial position, are as follows:

| | 2020 | | 2019 | |
|-----------------------------|---------------------------|----------------------|---------------------------|----------------------|

| Borrowings | 79,583 | 79,656 | - | - |

(b) Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Inputs for the assets or liability that are not based on observable market data (unobservable inputs).

Independent Auditors' Report To The Members of Media Prima Berhad

(Incorporated in Malaysia)
Registration No. : 200001030368 (532975-A)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Media Prima Berhad ("the Company") and its subsidiaries ("the Group") give a true and fair view of the financial position of the Group and of the Company as at 31 December 2020, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

What we have audited

We have audited the financial statements of the Group and of the Company, which comprise the statements of financial position as at 31 December 2020 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 132 to 231.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements of the Group and of the Company. In particular, we considered where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Group and of the Company, the accounting processes and controls, and the industry in which the Group and the Company operate.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report, Statement on Risk Management and Internal Control, Audit Committee Report and the Risk Management Committee Report, which we obtained prior to the date of this auditors' report, and other sections of the 2020 Annual Report, which is expected to be made available to us after that date. Other information does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial statements

The Directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

(Company No. 200001030368 (532975-A))

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

- (d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

ORDINARY RESOLUTIONS

6. Authority to Allot and Issue Shares

"THAT subject to Sections 75 and 76 of the Companies Act 2016 and approvals of the governmental and/or regulatory authorities, where such approval is necessary, the Directors be and are hereby given full authority to allot and issue shares in the Company, at any time, and upon such terms and conditions and for such purposes at the Directors may, in their absolute discretion deem fit, provided that the aggregate number of shares issued pursuant to this resolution does not exceed ten per centum (10%) of the total number of issued shares of the Company for the time being and that the Directors be and are hereby given full authority to obtain the approval for the listing of and quotation for the additional shares so issued on Bursa Malaysia Securities Berhad and that such authority shall continue to be in force until the conclusion of the next annual general meeting of the Company".

Resolution 7

7. Proposed Renewal of Existing Shareholders' Mandate and Proposed New Shareholders' Mandate for Recurrent Related Party Transactions of a Revenue or trading nature

"THAT subject to the provisions of the Main Market Listing Requirements ("MMLR") of Bursa Malaysia Securities Berhad, approval be and is hereby given to the Company and its subsidiary companies (collectively "Media Prima Group") to renew the existing shareholders' mandate and to grant new shareholders' mandate for recurrent related party transactions ("RRPTs") of a revenue or trading nature with the related parties ("Proposed Shareholders' Mandate") as set out in Section 2.2 of the Circular to Shareholders dated 27 May 2021.

Resolution 8

THAT the Proposed Shareholders' Mandate is subject to the following:

- (a) the transactions are in the ordinary course of business and are on terms not more favourable to the related parties than those generally available to the public;
- (b) disclosure is made in the Annual Report of the aggregate value of transactions conducted pursuant to the Proposed Shareholders' Mandate during the financial year where aggregate value is equal to or exceeds the applicable prescribed threshold under the MMLR and/or the relevant Practice Notes; and
- (c) annual renewal and such approval shall, unless revoked or varied by the Company in a general meeting, continue in force until the conclusion of the next Annual General Meeting of the Company or the expiration of the period within which the next Annual General Meeting is to be held pursuant to Section 30 of the Companies Act 2016 (but shall not extend to such extensions as may be allowed pursuant to Section 340 of the Companies Act 2016, whichever earlier).

AND THAT the Directors be and are hereby authorised to complete and execute all such acts and things (including such documents as may be required) to give effect to the transactions contemplated and/or authorised by this Ordinary Resolution."

8. To transact any other business of which due notice has been given.

Notes:

1. In light of the COVID-19 outbreak and as part of the safety measures, the 20th AGM of the Company will be held on a fully virtual basis through live streaming and Remote Participation and Electronic Voting ("RPEV facilities") which are available at <https://web.lumiagm.com/>. Please follow the procedures provided in the Administrative Details for the 20th AGM in order to register, participate and vote remotely via the RPEV facilities.
2. The venue of the 20th AGM as stated in this Notice of AGM is the Broadcast Venue, strictly for the purpose of complying with Section 327(2) of the Companies Act 2016 which requires the Chairman of the Meeting to be at the main venue. No Shareholders/proxy(ies) from the public will be physically present at the Broadcast Venue.
3. Only members whose names appear in the Record of Depositors on 16 June 2021 ("General Meeting Record of Depositors") shall be entitled to participate in the 20th AGM.
4. A member of the Company who is entitled to attend and vote at this meeting is entitled to appoint not more than two (2) proxies to attend and vote in his stead. A proxy may but need not be a member of the Company. There shall be no restriction as to the qualification of the proxy.
5. Where a member appoints two (2) proxies, the appointment shall be invalid unless the proportion of the shareholdings to be represented by each proxy is specified.
6. Where a member of the company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("omnibus account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each omnibus account it holds.
7. The instrument appointing a proxy shall be in writing under the hand of the appointer or of his attorney duly appointed under a power of attorney. In the case of a corporation, it shall be executed under its Common Seal or signed by its attorney duly authorised in writing or by an officer on behalf of the corporation.
8. Duly completed Proxy Form must be deposited at Boardroom Share Registrars Sdn Bhd office at Ground Floor or 11th Floor, Menara Symphony, No. 5 Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor Darul Ehsan, Malaysia not less than 48 hours before the time set for holding the meeting or any adjournment thereof. Alternatively, the form of proxy can be deposited electronically through Boardroom Smart Investor Online Portal at <https://boardroomlimited.my/> before the proxy form lodgement cut-off time as mentioned above. Please follow the procedures provided in the Administrative Details for the 20th AGM in order to register, participate and vote.

Notice of 20th Annual General Meeting

MEDIA PRIMA BERHAD

Registration No. : 200001030368 (532975 A)

Explanatory Notes:-

1. Audited Financial Statements for financial year ended 31 December 2020

The Audited Financial Statements are laid in accordance with Section 340(1)(a) of the Companies Act 2016 for discussion only. They do not require shareholders' approval and hence, will not be put for voting.

2. Re-election of Directors pursuant to the Company's Constitution

Mohd Rafiq bin Mat Razali, Abdullah bin Abu Samah and Dato' Sivananthan A/L Shanmugam who retire pursuant to Article 20.8 of the Company's Constitution, have offered themselves for re-election at the 20th AGM.

Lydia Anne Abraham and Mohd Rashid bin Mohd Yusof who retire pursuant to Article 20.3 of the Company's Constitution have indicated to the Company that they would not be seeking re-election at the 20th AGM. Hence, Lydia Anne Abraham and Mohd Rashid bin Mohd Yusof shall retire as Directors at the conclusion of the 20th AGM.

3. Resolution 4 : Directors' Fees

The fees for the Directors as set out below has been implemented since Financial Year ("FY") 2010 and the Board had agreed that the Directors' Fees in respect of FY 2020 be maintained as follows :-

| | |
|---------------------------------------|--------------------|
| Non-Executive Group Chairman | RM75,000 per annum |
| Non-Executive Director ("NED") | RM60,000 per annum |

The payment of the Directors Fees in respect of the FY 2020 will only be made if the proposed Resolution 4 has been approved at the 20th AGM of the Company.

4. Resolution 5 : Payment of Directors' benefits

The payment of Directors' benefits comprise the meeting allowance and other emoluments and benefits to the Directors such as insurance and medical and other claimable benefits including reimbursable expenses incurred in the course of carrying out their duties as Company Directors.

The total amount of benefits payable to the Directors is estimated to be up to RM1,400,000.00 (from 24 June 2021 to the next AGM in 2022), taking into account various factors which include amongst others, the number of scheduled board meetings and board committee meetings as well as the number of Directors involved in these meetings.

The payment of the benefits to the Directors will be made on a monthly basis and/or as and when incurred if the proposed Resolution 5 has been passed at the 20th AGM. The Board is of the view that it is fair and equitable for the Directors to be paid the Directors' remuneration (excluding Director's fees) on a monthly basis and / or as and when incurred, given that they have duly discharged their responsibilities and provided their services to the Company and the Group throughout the said period.

5. Resolution 6 : Re-appointment of Auditors

Based on the External Auditors Evaluation result for the Financial Year under review, the Board Audit Committee and Board are satisfied with the quality of service, adequacy of resources provided, communication, independence, objectivity and professionalism demonstrated by the External Auditors, Messrs PricewaterhouseCoopers PLT ("PwC"), in carrying out their duties. Being satisfied with PwC's performance, the Board recommends their re-appointment for shareholders' approval at the forthcoming AGM.

6. Resolution 7 : Authority to Directors to Allot and Issue Shares

The proposed resolution is a general mandate from the shareholders of the Company in accordance with Section 75 and 76 of the Companies Act 2016 for Directors to allot and issue new shares in the Company of up to an amount not exceeding 10% of the total number of issued shares of the Company for the time being for such purposes as the Company may deem fit in the best interest of the Company including for any possible fund raising for the Company's working capital requirements and strategic investments.

The Resolution, if approved, will give the Company and its Directors the mandate and flexibility to allot and issue shares in the Company for possible fund raising initiatives without the need to seek shareholders' approval via a general meeting subsequent to this 20th AGM, which may delay the capital raising initiatives and incur relevant cost in organising the general meeting.

6. Resolution 8 : Proposed Renewal of Existing Shareholders' Mandate and Proposed New Shareholders' Mandate for Recurrent Related Party Transactions of a Revenue or trading nature ("Proposed Shareholders' Mandate")

The Proposed Shareholders' Mandate, if passed, will enable the Media Prima Group to enter into RRPTs of a revenue or trading nature, which are necessary for the day-to-day operations of the Media Prima Group, undertaken in the ordinary course of business and at arm's length basis and on normal commercial terms which are not more favorable to the related parties than those generally available to the public and are not detrimental to the minority shareholders of the Company.

Details of the Proposed Shareholders' Mandate are set out in the Circular to Shareholders dated 27 May 2021. This authority, unless revoked or varied at a general meeting, will expire at the conclusion of the next AGM of the Company.

7. Personal Data Privacy Notice:

By registering for the remote participation and electronic voting or submitting an instrument appointing a proxy(ies), attorney(s) and/or representative(s) to attend, participate and vote at the 20th AGM and/or any adjournment thereof, a member of the Company:

- (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxy(ies), attorney(s) and/or representative(s) appointed for the 20th AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the 20th AGM (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "Purposes"),
- (ii) warrants that where the member discloses the personal data of the member's proxy(ies), attorney(s) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies), attorney(s) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies), attorney(s) and/or representative(s) for the Purposes, and
- (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

Notes :

1. In light of the COVID-19 outbreak and as part of the safety measures, the 20th AGM of the Company will be conducted on a fully virtual basis through live webcast and Remote Participation and Electronic Voting Facilities ("RPEV facilities") which are available at <https://web.lumiagm.com/>. Please follow the procedures provided in the Administrative Details for the 20th AGM in order to register, participate and vote remotely via the RPEV facilities.
2. The venue of the 20th AGM as stated in this Notice of AGM is the Broadcast Venue, strictly for the purpose of complying with Section 327(2) of the Companies Act 2016 which requires the Chairman of the Meeting to be at the main venue. No Shareholders/proxy(ies) from the public will be physically present at the Broadcast Venue.
3. Only members whose names appear in the Record of Depositors on 16 June 2021 ("General Meeting Record of Depositors") shall be eligible to attend in person or appoint proxies to attend and/or vote on their behalf at the AGM.
4. A member of the Company who is entitled to attend and vote at this meeting is entitled to appoint not more than two (2) proxies to attend and vote in his stead. A proxy may but need not be a member of the Company. There shall be no restriction as to the qualification of the proxy.
5. Where a member appoints two (2) proxies, the appointment shall be invalid unless the proportion of the shareholdings to be represented by each proxy is specified.
6. Where a member of the company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("omnibus account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each omnibus account it holds.
7. The instrument appointing a proxy shall be in writing under the hand of the appointer or his attorney duly appointed under a power of attorney. In the case of a corporation, it shall be executed under its Common Seal or signed by its attorney duly authorised in writing or by an officer on behalf of the corporation.
8. Duly completed Proxy Form must be deposited at Boardroom Share Registrars Sdn Bhd at Ground Floor or 11th Floor, Menara Symphony, No. 5 Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor Darul Ehsan, Malaysia not less than 48 hours before the time set for holding the meeting or any adjournment thereof. Alternatively, the form of proxy can be deposited electronically through the Boardroom Smart Investor Portal at <https://boardroomlimited.my/> before the proxy form lodgement cut-off time as mentioned above. Please follow the procedures provided in the Administrative Details for the 20th AGM in order to register, participate and vote.
